Multi-Seasonal, Controlled Polishing, Water-Based Antifouling
Excellent Protection Against Fouling in All Waters
Easy Application and Compatibility, Low Odor

Micron WA
MICRON® WA

PRODUCT DESCRIPTION: Micron® WA Polishing Wax: Exact Antiquing Paint was developed to provide excellent antiquing performance, with the added benefit of limiting the Volatile Organic Compounds (VOC) level, which is being regulated in many states. Micron® WA is 97% volatile free with a VOC of less than 15 grams/liter.

Micron® WA waxes are very thin, giving them a very thin and flat appearance. Because it is water-based, equal parts of wax and water can be blended to obtain a hanging or cheap look. Micron® WA is terrific on any type of furniture, metal, glass, and other surfaces. When Micron® WA is use for use as a base coating or as an additional topcoat, it will give a high-gloss finish. It is also a fantastic topcoat for use on any type of furniture, metal, glass, and other surfaces.

COMPATIBILITY: Micron® WA can be applied over most antiques finishes, as long as the old coating is still upset and it has been properly dried before applying Micron® WA. It is also a fantastic topcoat for use on any type of furniture, metal, glass, and other surfaces.

APPLICATION: Micron® WA can be applied by brushing or spraying. It can also be applied by wiping onto the surface, using a cloth or sponge. It is also a fantastic topcoat for use on any type of furniture, metal, glass, and other surfaces. Micron® WA can be used on any type of furniture, metal, glass, and other surfaces.

APPLICATION SYSTEMS

SREQUIRED: 2 coats plus additional coat at the waterline and on areas of high turbulence. As an optional method, the first or base coat can be a different color from the top coat. The base color will begin to appear during the time of application for it to be seen. The base color will begin to appear during the time of application for it to be seen. The base color will begin to appear during the time of application for it to be seen. The base color will begin to appear during the time of application for it to be seen.

DIRECTIONS FOR USE

1. Stir thoroughly and dilute. Apply at least 2 full coats (3 coats on bare wood) of Micron® WA by applying by brush or roller. Do not apply thin coats, as the finish of this paint will not be as good as the final result. Apply at least 2 coats of Micron® WA, allowing proper dry times, to achieve the best results. See compatibility chart for additional information.

2. PREVIOUSLY PAINTED SURFACES - GOOD CONDITION: Remove all traces of paint and contamination by brushing the entire surface with Micron® FIBERGLASS SOLVENT WASH 200™. Apply a second coat of Micron® WA and allow to dry in a well-ventilated area. See compatibility chart for additional information.

3. PREVIOUSLY PAINTED SURFACES - POOR CONDITION: Completely remove all antiques finishes with a chemical cleaner, such as INTERLU® 390 or INTERLU® 312. Apply a second coat of Micron® WA and allow to dry in a well-ventilated area. See compatibility chart for additional information.
