Mold & Mildew Killer and Stain Remover

This product is toxic to fish and aquatic organisms. It is very corrosive, and can cause irritation to the eyes, skin, and mucous membranes. Prolonged contact with metal may cause pitting or discoloration. In addition, it can be highly irritating to the respiratory tract. Inhalation or ingestion of this product can be fatal. No known antidote exists. In case of emergency, call the poison control center at 1-800-222-1222.

FUNGICIDAL AGAINST:
- Salmonella enterica (ATCC 10708),
- Staphylococcus aureus (ATCC 6538),
- Escherichia coli (ATCC 11229)

S3ANITIZES3ALMONELLAENTERICASEROVAR4YPHIAND%SCHERICHIACOLIINMINUTE

This product is toxic to fish and aquatic organisms. It is very corrosive, and can cause irritation to the eyes, skin, and mucous membranes. Prolonged contact with metal may cause pitting or discoloration. In addition, it can be highly irritating to the respiratory tract. Inhalation or ingestion of this product can be fatal. No known antidote exists. In case of emergency, call the poison control center at 1-800-222-1222.

Inhalation:
- Remove victim to fresh air. If breathing is difficult, give artificial respiration. If breathing stops, give mouth-to-mouth resuscitation. For further treatment advice, call a poison control center or doctor for treatment advice.

Ingestion:
- Do not induce vomiting. Call a poison control center or doctor for treatment advice.

Skin:
- Remove any contaminated clothing. If clothing clings to skin, do not remove clothing. Wash skin with soap and water. Call a poison control center or doctor for further treatment advice.

Eyes:
- Hold end of eye open with fingers and gently and slowly rinse with running water for 15-20 minutes. Note - surfaces may become slippery, avoid working on roof - apply from ladder as much as possible if using on roof.

FIRST AID:
- For minor irritations, wash area with soap and water. For more severe irritations, see a doctor or seek medical advice.

TO CLEAN / DEODORIZE / WHITEN:
1. Thoroughly clean surfaces to be treated.
2. Prepare 100-1100 ppm available chlorine cleaning solution (see dilution chart). For falls below 1100 ppm: Adjust and create new solution.
3. Thoroughly wet the surface with the cleaning solution.
4. Allow contact for at least 1 minute.
5. Drain excess liquid and allow to air dry.

CLEANING AND SANITIZING:
- For Food & Drinking Utensils, Food Processing Equipment, Storage Tanks and Vats:
 1. Prepare 100-1100 ppm available chlorine cleaning solution (see dilution chart).
 2. Spray product on surface until thoroughly wet or apply with sponge, mop, or rag. Wipe clean.
 3. Rinse with clean potable water.
 4. Sanitize with 100 ppm available chlorine solution just before use.

STORAGE:
This product should be stored in a dry, tightly closed container when not in use. Store in a cool, dry well-ventilated area away from heat or open flame. Be sure to store in a container that is resistant to chemicals and will last for a long duration without exposure to water or other chemicals. This container is approved for use with food contact surfaces for the time specified by the manufacturer.

PESTICIDE DISPOSAL:
This product must be disposed of with the wastewater disposal system in a sanitary waste disposal system.的梦想
PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals:

DANGER: Corrosive. Causes irreversible eye damage. Do not get in eyes, on skin, or on clothing. Harmful if inhaled. Avoid breathing dust. Wear gloves and protective eyewear such as goggles, face shield, or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID:

If in eyes:
Hold eye open and rinse slowly and gently with running water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

If on skin:
Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled:
Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. For general information on product use, etc., call the National Pesticides Information Center at 1-800-858-7378. For emergencies, call the poison control center at 1-800-222-1222.

Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage.

PHYSICAL OR CHEMICAL HAZARDS

This product contains bleach, a strong oxidizer. Flush drains before and after use. Do not use or mix with other chemicals, such as toilet bowl cleaners, rust removers, acids or products containing ammonia. To do so will release hazardous irritating gases. Prolonged contact with metal may cause pitting or discoloration.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic organisms.

STEROKLOR PLUS

EFFECTIVE

Sanitizes Salmonella enterica serovar Typhi and Escherichia coli in 1 minute

FOOD CONTACT SANITIZING:
Effective against the following: Salmonella enterica serovar typhi (ATCC 6539), Escherichia coli (ATCC 11229)

MULTIPURPOSE DISINFECTANT (BACTERICIDAL):
Effective against the following: Listeria monocytogenes (ATCC 19117), Pseudomonas aeruginosa (ATCC 15442), Salmonella enterica (ATCC 10708), Staphylococcus aureus (ATCC 6538), Escherichia coli (ATCC 11229)

FUNGICIDAL AGAINST:
Effective against the following: Aspergillus niger (ATCC 6275), Trichophyton mentagrophytes (ATCC 9533)

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product degrades with age. Use on the same day as dilution.

NOTE: FOR MECHANICAL OPERATIONS, prepared use-solutions may not be reused for sanitizing or disinfecting but may be reused for other purposes such as cleaning. FOR MANUAL OPERATIONS, fresh sanitizing or disinfecting solutions should be prepared at least daily or more often if the solution becomes diluted or soiled.
STEROKLOR PLUS
Net Contents: 25 LBS
SKU# 500127

TO CLEAN / DEODORIZE:
1. Prepare 100-1100 ppm available chlorine cleaning solution (see dilution chart).
2. Rinse with potable water prior to packaging.
3. Complete wash prior to packaging.
4. Allow contact for at least 10 minutes.
5. Rinse with clean potable water.
6. Circulated solutions cannot be reused for sanitizing but may be used for other purposes such as cleaning.

TO CLEAN / DEODORIZE / WHITEN:
1. Prepare 100-1100 ppm available chlorine cleaning solution (see dilution chart).
2. Wash with a good detergent or compatible cleaner.
3. Rinse thoroughly with fresh potable water.
4. Immerse for 30 minutes.
5. Drain excess liquid and allow to air dry.

TO REMOVE STAINS:
1. Prepare 100-1100 ppm available chlorine cleaning solution (see dilution chart).
2. Spray product on surface until thoroughly wet or apply with sponge, mop, or rag. Wipe clean.
3. Spray, circulate, immerse, or thoroughly wet surface with prepared cleaning solution.
4. Allow contact for at least 1 minute.
5. Drain and allow to air dry.

CLEANING AND SANITIZING:
Food & Drinking Utensils, Food Processing Equipment, Storage Tanks and Vats:
1. Prepare 25 ppm available chlorine cleaning solution (see dilution chart).
2. Rinse equipment with cold potable water.
3. Brush, soak or spray using 100 ppm available chlorine solution.
4. Rinse thoroughly with fresh potable water.
5. Sanitize just before use with 100 ppm available chlorine solution.
6. Place utensils on a rack or drain board to air dry.

TO SANITIZE HARD NON-POROUS FOOD CONTACT SURFACES (Food Service – Dishes, Glasses, Knives, Mugs, Utensils, Sinks, Meat Blocks, Coffee Makers, Steam Kettles - Food Service Equipment, Food Processing Equipment, Dairy Processing Equipment, Beverage and Frozen Dessert Machines, Bottling Equipment,) by SPRAY, RINSE, IMMERSION, or CIRCULATION methods:
1. Prepare 100-1100 ppm available chlorine cleaning solution (see dilution chart). If level falls below 100 ppm, discard and create new solution.
2. Thoroughly wet surface by spraying, rinsing, immersing, or circulating with prepared cleaning solution.
3. Allow contact for at least 1 minute.
4. Drain and allow to air dry.

SANITIZER (CLEANER) THIRD SINK SANITIZER
1. Scrape and pre wash utensils and glasses whenever possible.
2. Wash with a good detergent or compatible cleaner.
3. Rinse with clean potable water.
4. Sanitize by immersing in solution with 100 ppm available chlorine cleaning solution (see dilution chart) for at least 2 minutes.
5. Do not rinse and do not soak overnight.
6. Place utensils on a rack or drain board to air dry.

FRUIT AND VEGETABLE WASH - Against non-public health, spoilage organisms only
1. Thoroughly clean whole unprocessed fruits and vegetables in wash tank.
2. Prepare 25 ppm available chlorine cleaning solution (see dilution chart).
3. After draining the tank, submerge fruit / vegetable in a second wash tank containing the prepared wash solution for 2 minutes.
4. Complete wash prior to packaging.
5. Rinse with potable water prior to packaging.

MOLD AND MILDEW KILLER AND STAIN REMOVER USES UNIQUE CHEMISTRY OF BLEACH COMBINED WITH THE POWER OF TSP IN A CONCENTRATED EASY TO DISSOLVE POWDER
Removes black streaks, dirt and mildew stains fast. Kills mold and mildew on metal non porous roofs. Great for siding, trim, painted and composite decks and fences. Can be used for cleaning and pre-paint mold and mildew removal for outdoor furniture and house surface cleaning such as roofs, walls, siding and fences. Effective on black mold. Kills effectively without scrubbing on the following exterior painted non porous surfaces: aluminum, vinyl, wood siding and trim, sealed or painted decks and fences, stucco, brick and painted sealed concrete and sealed cement block. Some textured surfaces might require some light scrubbing. Can be used near shrubs and plants.

Directions to kill mold and mildew:
Test a small area before application. Remove any heavy moss or heavy dirt build up first. If surface is hot pre-rinse with cool water to cool surface. Do not allow to dry on surface. Pour water into plastic pail or garden sprayer. Add product at the rate of 8.6 tablespoons per US Gallon (4.3oz/ gallon). Mix well. Apply to surface liberally and allow for 10 minute contact time and rinse thoroughly. Heavy mildew stains may require a second application. Note - surfaces may become slippery, avoid working on roof- apply from ladder as much as possible if using on roof. Spray sensitive ground plants with water before and after using this product.

**TO DISINFECT HARD NON-POROUS, NON-FOOD CONTACT SURFACES by SPRAY or LIQUID APPLICATION or FOR BACTERIAL / FUNGICIDAL DISINFECTION:**
1. Thoroughly clean surfaces to be treated
2. Prepare 1100 ppm available chlorine cleaning solution (see dilution chart).
3. Spray, circulate, immerse, or thoroughly wet surface with prepared cleaning solution.
4. Allow contact for at least 10 minutes.
5. Drain excess liquid and allow to air dry.

**STORAGE AND DISPOSAL**
Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

**STORAGE:**
Keep this product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding this container.

**PESTICIDE DISPOSAL:**
Product or rinsates that cannot be used must be diluted with water before disposal in a sanitary sewer.
CONTAINER HANDLING: Clean container promptly after emptying. Triple rinse as follows: Fill container ¼ full with water and recap. Shake for 10 seconds. Drain for 10 seconds after the flow begins to drip. Follow Pesticide Disposal instructions for rinsate disposal. Repeat procedure two more times. Non-refillable container. Do not reuse or refill this container. Offer for recycling if available, reconditioning if appropriate, or place in trash.
**PRECAUTIONARY STATEMENTS**

Hazard to Humans and Domestic Animals

**DANGER:** Causes irreversible eye damage. Do not get in eyes, on skin, or on clothing. Harmful if ingested. Avoid breathing dust. Wear gloves and protective eyewear such as goggles, face shield, or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

**FIRST AID:**

*If ingested:*

- When taken by mouth: _____ Rinse mouth with water. wash with soap and water. Call a Poison Control Center or doctor for treatment advice.

*If on skin:*

- When taken by skin: _____ Take off contaminated clothing. Wash skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

*If inhaled:*

- When taken by the lung: _____ Move person to fresh air.

**PRECAUTIONARY STATEMENTS**

Physical or Chemical Hazards

This product contains bleach, a strong oxidizer. Flush drains before and after use. Do not use in mix with other chemicals, such as toilet bowl cleaners, rust removers, acids or products containing ammonia. To do so will result in hazardous initiating gas. Prolonged contact with metal may cause pitting or discoloration. This product is toxic to fish and aquatic organisms.

**STEROKLOR PLUS**

**EFFECTIVE**

- **SaniTizes** - *Salmonella enterica serovar Typhi* and *Escherichia coli* 1 minute.

**FOOD CONTACT SANITIZATION**

**Against the following:** *Salmonella enterica serovar typhi* (ATCC 6539), *Escherichia coli* (ATCC 11226).

**MULTIPURPOSE DISINFECTANT (BACTERICIDAL):**

Against the following: *Pseudomonas aeruginosa* (ATCC 10117), *Salmonella enterica* (ATCC 14542), *Escherichia coli* (ATCC 11118), *Staphylococcus aureus* (ATCC 6538), *Escherichia coli* (ATCC 11226).

**FUNGICIDAL AGAINST:**

Effective against the following: *Aspergillus niger* (ATCC 6275), *Trichophyton mentagrophytes* (ATCC 6535).

**DIRECTIONS FOR USE**

This is a solution of federal law to use this product in a manner consistent with its labeling. This product degrades with age. Use on the same day as preparation.

NOTES FOR MECHANICAL, DRYCLEANING, PREPARED use-solutions may not be mixed for sanitizing or deodorizing but may be used for other purposes such as cleaning. FOR MANUAL DRYCLEANING, fresh sanitizing or deodorizing solutions should be prepared at least daily or more often if the solution becomes discolored or soiled.

**TO CLEAN / DEODORIZER:**

1. Prepare 100–1100 ppm available chlorine cleaning solution (see dilution chart).
2. Spray product on surface until thoroughly wet or apply with sponge, mop, or rag.
3. Allow contact for at least 10 minutes.
4. Rinse with clean potable water.

**TO CLEAN / DEODORIZER / WHITEN:**

1. Prepare 100–1100 ppm available chlorine cleaning solution (see dilution chart).
2. Immerse for 30 minutes.
3. Rinse with clean potable water.

**TO SANITIZE:**

1. Prepare 100–1100 ppm available chlorine cleaning solution (see dilution chart).
2. Sanitize by immersing in solution with 100 ppm available chlorine cleaning solution (see dilution chart).
3. Sanitize just before use with 100 ppm available chlorine solutions.
4. Drain and allow to dry.

**TO SANITIZE HARD NON-POUROUS FOOD CONTACT SURFACES**

- Solution Required (Available Chlorine)
  - Food Service – Dishes, Glasses, Kitchen Equipment:
    - **Utensils:** Mugs, Coffee Makers, Steam Kettles
    - **Food Equipment:** Food Processing Equipment, Dairy Processing Equipment, Beverage and Frozen Dessert Machines, Bottling Equipment,
  - by Spray, Rinse, Immersion, or Circulation methods:
    - **1. Thoroughly clean surfaces to be treated.**
    - **2. Prepare 100 ppm available chlorine cleaning solution (see dilution chart).**
    - **3. Thoroughly wet surface by spraying, rinsing, immersing, or circulating with prepared cleaning solution.**
    - **4. Allow contact for at least 1 minute.**
    - **5. Drain excess liquid and allow to air dry.**

**SANITIZER (CLEANER) THIRD SINK SANITIZER**

1. Scrape and pre-wash utensils and glasses whenever possible.
2. Wash with a good detergent or compatible cleaner.
3. Rinse with clean potable water.
4. Sanitize by immersing in solution with 100 ppm available chlorine cleaning solution (see dilution chart) for at least 2 minutes.
5. Rinse with clean potable water.
6. Place utensils on a rack or drain board to air dry.

**FRUIT AND VEGETABLE WASH - Against non-public health, spoilage organisms only**

1. Thoroughly clean whole unpersoecified fruits and vegetables in wash tank.
2. Prepare 25 ppm available chlorine cleaning solution (see dilution chart).
3. After draining the tank, wash/merge fruit/vegetable in a second wash tank containing the prepared washing for at least 1 minute.
4. Complete wash prior to packaging.
5. Rinse with potable water prior to packaging.

**TO DISINFECT HARD NON-POUROUS NON-FOOD CONTACT SURFACES by SPRAY or Liquid Application or FOR BACTERIA / Fungal Disinfection:**

1. Thoroughly clean surfaces to be treated.
2. Prepare 1100 ppm available chlorine cleaning solution (see dilution chart).
3. Spray, circular, immerse, or thoroughly wet surface with prepared cleaning solution.
4. Allow contact for at least 15 minutes.
5. Drain excess liquid and allow to air dry.
6. Circulated solutions cannot be reused for sanitizing but may be used for other purposes such as cleaning.

**STORAGE**

Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

**PESTICIDE DISPOSAL:**

For all pesticides that cannot be used must be diluted with water before disposal in a sanitary sewer.

**CONTAINERS:**

Clean empty containers promptly after emptying. This container is used only for household use, and is not to be used for disposal procedures.

STEROKLOR PLUS
This product is a multipurpose and excellent detergent, food contact sanitizer, broad spectrum disinfectant and mold & mildew killer.

It is designed for use in food service, hospitality, health care, food processing industries including schools and institutions, hospitals, kitchens, bars and restaurants, supermarkets, food handling areas.

ACTIVE INGREDIENT:
Sodium Hypochlorite.........................3.63%
OTHER INGREDIENTS....................... 96.37%
Total: 100.00%
Yields 3.45% available chlorine

KEEP OUT OF REACH OF CHILDREN

FIRST AID:
If in eyes:
Hold eye open and rinse slowly and gently with running water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.
If on skin:
Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If inhaled:
Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment. For general information on product use, etc., call the National Pesticides Information Center at 1-800-858-7378. For emergencies, call the poison control center at 1-800-222-1222.
Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage.

PHYSICAL OR CHEMICAL HAZARDS
This product contains bleach, a strong oxidizer. Flush drains before and after use. Do not use or mix with other chemicals, such as toilet bowl cleaners, rust removers, acids or products containing ammonia. To do so will release hazardous irritating gases. Prolonged contact with metal may cause pitting or discoloration.

Mold & Mildew Killer and Stain Remover

This product is a multipurpose and excellent detergent, food contact sanitizer, broad spectrum disinfectant and mold & mildew killer. It is designed for use in food service, hospitality, health care, food processing environments.

**ACTIVE INGREDIENT:**

- SKU# 500128
- Net Contents: 50 LBS

**ACTIVE INGREDIENT:**

- Steroklor
- C
- Dig..................
- Disi
- 3f96.37%
- iS
- Pos..................................

**USES UNIQUE CHEMISTRY OF BLEACH COMBINED WITH THE POWER OF TSP IN A CONCENTRATED EASY TO DISSOLVE POWDER**

**TO CLEAN / DEODORIZE:**

1. Prepare 100-110 ppm available chlorine cleaning solution (see dilution chart).
2. Immerse with vigorous scrubbing wet or dry until adequately covered with product.
3. Leave in contact for 5 minutes.
4. Rinse with potable water before packaging.

**TO CLEAN / DEODORIZE / WHITEN / Rags and mops:**

1. Prepare 100-110 ppm available chlorine cleaning solution (see dilution chart).
2. Immerse with vigorous scrubbing wet or dry until adequately covered with product.
3. Leave in contact for 5 minutes.
4. Rinse with potable water before packaging.

**CLEANING AND SANITIZING:**

**Food & Drinking Utensils, Food Processing Equipment, Storage Tanks and Vats:**

1. Rinse equipment with cold potable water.
2. Brush, soak or spray using 100 ppm available chlorine solution.
3. Rinse with thorough potable water.
4. Sanitize pot with better than 100 ppm available chlorine solution.
5. Drain and allow to dry.

**TO SANITIZE HARD NON-POUROUS FOOD CONTACT SURFACES (Food Service – Dishes, Glasses, Kitchen Countertops, Showers, Sinks, Meat Blocks, Coffee Makers, Steam Stadium - Food Service Equipment, Food Processing Equipment, Dairy Processing Equipment, Beverage and Frozen Desserts, Machines, Equipment,) BY SPRAY, RINSE, IMMERSION, OR CIRCULATION METHODS:**

1. Thoroughly clean surface to be treated.
2. Prepare 100 ppm available chlorine cleaning solution (see dilution chart).
3. If level falls below 100 ppm, discard and create new solution.
4. Apply disinfectant at the rate of 8.6 tablespoons per US Gallon (4.3oz/gallon).
5. Allow contact for at least 5 minutes.
6. Drain excess liquid and allow to air dry.

**SANITIZER CLEANER / THIRD SINK SANITIZER**

1. Scrape and pre-wash utensils and glasses whenever possible.
2. Prepare 100 ppm available chlorine cleaning solution (see dilution chart).
3. Rinse with clear potable water.
4. Sanitize by immersing in solution with 100 ppm, available chlorine cleaning solution (see dilution chart) for at least 2 minutes.
5. Do not rinse and do not soak overnight.
6. Place utensils on a rack or drain board to air dry.

**FRUIT AND VEGETABLE WASH - Against non-public health, spoilage organisms only**

1. Thoroughly clean whole unprocessed fruits and vegetables in a wash tank.
2. Prepare 25 ppm available chlorine cleaning solution (see dilution chart).
3. After draining the valve, immerse fresh vegetables in a second wash tank containing the prepared wash solution for 2 minutes.
4. Complete wash prior to packaging.
5. Rinse with potable water prior to packaging.

**TO DISINFECT HARD NON-POUROUS NON-FOOD CONTACT SURFACES BY SPRAY OR LIQUID APPLICATION OR FOR BACTERIAL / FUNGICIDAL DISINFECTION:**

1. Thoroughly clean surfaces to be treated.
2. Prepare 1100 ppm available chlorine cleaning solution (see dilution chart).
3. Spray, circle, immerse, or thoroughly wet surface with prepared cleaning solution.
4. Allow contact for at least 5 minutes.
5. Drain excess liquid and allow to air dry.
6. Circulated solutions cannot be reused for sanitizing but may be used for other purposes such as cleaning.

**PRECAUTIONARY STATEMENTS**

Hazard to Humans and Domestic Animals

**DANGER:**

- Excessive. Causes severe eye damage. Does not get in eyes, on skin, or on clothing. If swallowed, wash thoroughly with water to remove all material. Do not induce vomiting. Report exposure to a physician. Avoid breathing dust. Wear protective and respirator approved as such as goggles, face shield, or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

**FIRST AID:**

- If in eye: Hold eye open and wash gently with running water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

- If on skin: Take off contaminants and clothing. Wash skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

- If inhaled: More person to fresh air if not breathing. Call an ambulance or doctor if breathing is difficult, but do not induce artificial respiration. Promptly remove to fresh air.
