**Pristine™ Pro**

**ACTIVE INGREDIENT:** Sodium Hypochlorite 8.4%

**OTHER INGREDIENTS:**

**TOTAL:** T07079

(provides a minimum available chlorine of 8%)

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

**FOR INDUSTRIAL USE**

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** Corrosive. Causes severe skin and eye irritation or chemical burns to broken skin. Causes eye damage. Wear rubber gloves, chemical goggles and protective clothing. Wash after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

---

**FIRST AID**

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

**IF INHALED:** Get fresh air immediately. If not breathing, give人工呼吸,or artificial respiration. Call a poison control center or doctor for treatment advice.

**SWALLOWED:** Call a poison control center or doctor for treatment advice. Have person drink 1 cup of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**FOR EMERGENCY MEDICAL INFORMATION IN USA OR CANADA:** CALL: 1-800-328-0256

**FOR EMERGENCY MEDICAL INFORMATION WORLDWIDE:** CALL: +61-222-5302 (ON THE USA).

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

**PHYSICAL AND CHEMICAL HAZARDS:** Strong Oxidizing Agent: May Only be handled while wet. When dry, the chlorine is irritating to eyes, lungs and mucous membranes.

---

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**NOTE:** This product degrades with age. Use a chlorine test kit and increase dosage, as necessary, to obtain the required level of available chlorine. Since chlorine reacts readily with dirt and organic matter in dip tanks, the concentration must be checked at least three to four times each day by use of colorimetric kits or titrimetric kits. Once opened, use the entire contents of this container within 30 days.

**SANITIZING NONPOROUS FOOD CONTACT EQUIPMENT:** A solution of 100 ppm available chlorine may be used in the sanitizing solution if a chlorine test kit is available. Solutions containing an initial concentration of 100 ppm available chlorine must be bromated and adjusted periodically to ensure that the available chlorine dose is not dropping below 50 ppm. Prepare a 100 ppm sanitizing solution by thoroughly mixing 2 oz. of Pristine Pro with 10 gallons of water. If test kit is available prepare a sanitizing solution by mixing 4 oz. of Pristine Pro with 20 gallons of water to provide approximately 200 ppm available chlorine by weight. At 100 ppm available chlorine, this product is an effective sanitizer against Víbrio cholera, Escherichia coli O157:H7, Salmonella typhi, and Staphylococcus aureus. Just prior to use on all surfaces thoroughly with the sanitizing solution. Maintain contact with the sanitizer for at least 2 minutes. If solution contains less than 50 ppm available chlorine as determined by a suitable test kit, either discard the solution or add sufficient product to maintain at a 200 ppm residual. Allow equipment to drain thoroughly. Do not reuse and do not soak overnight.

**DO NOT MIX WITH ANYTHING BUT WATER**

Ecolab Inc. · 1 Ecolab Place · St Paul MN 55102 USA

---

**STORAGE & DISPOSAL**

**DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.**

**PESTICIDE STORAGE:** Store this product in a cool, dry area, away from direct sunlight and heat to avoid deterioration. Keep this product in a tightly closed container, when not in use. In case of spill, flood area with large quantities of water. Product or rinse that cannot be used must be diluted with water before disposal in a sanitary sewer.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER HANDLING AND DISPLOSAL:** For containers 5 gal. or less. Non-refillable container. Do not re-use or refill this container. Triple rinse as follows: Fill container 1/2 full with water and recaps. Shake for 10 seconds. Drain for 10 seconds after the flow begins to drop. Triple rinse disposal instructions for rinsate disposal. Repeat procedure two more times. Then offer for recycling or reconditioning. Appropriate packaging and disposal of a sanitary landfill or by incineration.

For containers 15-55 gal. Non-refillable container. Do not re-use or refill this container. Triple rinse as follows: Empty remaining contents, wash applicable equipment or a mix tank. Fill the container with water. Replace and tighten closures. Place container on its side and roll it back and forth, ensuring that one complete revolution for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinse into application equipment or a mix tank or store rinse for later use or disposal. Repeat procedure two more times. Then offer for recycling or reconditioning. Offer appropriate packaging and disposal in a sanitary landfill or by incineration.

KEEP OUT OF REACH OF CHILDREN

DANGER

FOR INDUSTRIAL USE

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: CORROSIVE: Causes severe skin and eye irritation or chemical burns to broken skin. Causes eye damage. Wear rubber gloves, chemical goggles and protective clothing. Wash after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

PHYSICAL AND CHEMICAL HAZARDS:

Strong oxidizing agent: Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release chlorine gas which is irritating to eyes, lungs and mucous membranes.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

FOR EMERGENCY MEDICAL INFORMATION IN USA OR CANADA, CALL: 1-800-328-0026.
FOR EMERGENCY MEDICAL INFORMATION WORLDWIDE, CALL: 1-651-222-5352 (IN THE USA).

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

STORAGE & DISPOSAL

DO NOT-contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store this product in a cool, dry area, away from direct sunlight and heat to avoid deterioration. Keep this product in a tightly closed container, when not in use. In case of spill, flood area with large quantities of water. Product or rinsate that cannot be used be diluted with water before disposal in a sanitary sewer.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING & DISPOSAL: For containers 5 gal. or less. Non-refillable container. Do not reuse or refill this container. Triple rinse as follows: Fill container 1/4 full with water and recap. Shake for 10 seconds. Drain for 10 seconds after the flow begins to drip. Follow Pesticide Disposal instructions for rinsate disposal. Repeat procedure two more times. Then offer for recycling or reconditioning if appropriate or puncture and dispose of in a sanitary landfill or by incineration.

For containers >5-55 gal. Non-refillable container. Do not reuse or refill this container. Triple rinse as follows: Empty remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution for 30 seconds. Then offer for recycling or reconditioning if appropriate or puncture and dispose of in a sanitary landfill or by incineration.

At 100 ppm available chlorine, this product is an effective sanitizer against Vibrio cholera, Escherichia coli O157:H7, Listeria monocytogenes, Salmonella typhi and Staphylococcus aureus. Just prior to use, clean all surfaces with proper detergent and rinse with water. Rinse all surfaces thoroughly with the sanitizing solution maintaining contact with the sanitizer for at least 2 minutes. If solution contains less than 50 ppm available chlorine as determined by a suitable test kit, either discard the solution or add sufficient product to reestablish a 200 ppm residual. Allow equipment to drain thoroughly. Do not rinse and do not soak overnight.
