Clorox Commercial Solutions Clorox Disinfection Wipes,

[Lemon Fresh] [75 count]

Page 1 of 2

RC338010
To Open Package / Para Abrir el Paquete:

Open lid and pull out wipe from center of roll. Abra la tapa y saque la toallita desde el centro del rollo.

To Package / Para Paquete:

La siguiente toallita sale automáticamente.

When finished, close lid to retain moisture. Cuando termine, cierre la tapa para conservar la humedad.

ONE-STEP CLEANING, DISINFECTING AND DEODORIZING/EN UN SÓLO PASO LIMPIA, DESINFECTA Y DESODORIZA

- Kills 99.9% of bacteria† in 10 seconds
- Removes common allergens**
- Will not harm most surfaces
- Compliant with OSHA Bloodborne Pathogens Standard‡‡

SCHOOLS

- Pets reposition
- Remove food
- Remove waste

STORAGE AND DISPOSAL:

Deposit the wipe in the trash after use. No la descarte por el inodoro. Para conservar la humedad cierra bien la tapa entre usos.

FIRST AID: IF IN EYES:

Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. QUESTIONS? Call 1-800-492-9729.

DIRECTIONS FOR USE:

• TO DISINFECT: Use to disinfect hard, non-porous surfaces/objects soiled with blood/body fluids: Personal Protection: When handling items soiled with blood or body fluids, use disposable impervious gloves, gowns, masks and eye coverings. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product. Contact Time: Allow surface to remain wet 1 minute for HIV-1, 4 minutes for HBV.

Special Instructions for Use Against HIV-1: This product kills HIV-1 on pre-cleaned hard, non-porous surfaces/objects previously soiled with blood/body fluids in healthcare settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV-1) (associated with AIDS).

Special instructions for using this product to clean and decontaminate against HIV-1 and HBV on surfaces/objects soiled with blood/body fluids: Personal Protection: When handling items soiled with blood or body fluids, use disposable impervious gloves, gowns, masks and eye coverings. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product. Contact Time: Allow surface to remain wet 1 minute for HIV-1, 4 minutes for HBV.

Disposal of Infectious Materials: Use disposable impervious gloves, gowns, masks and eye coverings. Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semicritical medical devices prior to sterilization or high-level disinfection.

Kills Avian Influenza A virus on pre-cleaned hard, nonporous surfaces.
