First aid: Have product container or label with you when calling a poison control center or doctor or going for treatment. In case of poisoning, contact your Poison Control Center at 1-800-222-1222. If swallowed: Call poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to by a poison control center or doctor. Do not give any liquid to a person. Do not give anything by mouth to an unconscious person.

If in Eyes: Hold eye open and rinse slowly and gently with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice.

If on Skin: Take off contaminated clothing. Rinse skin with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration by mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice.

Note to Physician: This product contains petroleum distillates and may pose an aspiration hazard.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through the skin. Avoid contact with eyes, skin, or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

PHYSICAL OR CHEMICAL HAZARDS

Do not store, use or spill near heat or open flame. Some materials that are chemical-resistant to this product are listed below:

- Asbestos
- Glass
- Nonferrous metal (brass, copper, tin, zinc)
- Paint
- Plastic
- Rubber
- Stone
- Stoneware
- Tile

If no such material is available, use a material that is not affected by the product but that is compatible with the product container. Do not use plastic (except for the product container) or wood.

Some of these may also be resistant to this product.

Harmful if absorbed through skin

Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 4 hours. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not contaminate streams, or other water sources where water surface is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinseate.

Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas.

Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with this labeling.

Do not apply in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements listed in the WPS for agricultural pesticides [40 CFR 170.240(d)(6)]

USER SAFETY RECOMMENDATIONS

Users should:
- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing.

Engineering Controls

PPE requirements:

- Provide eye and face protection for those who may be exposed to this product.
- Respiratory protection is not required unless a hazardous concentration of a contaminant is present.

Chemigation Prohibition

The application of this product is prohibited for chemigation except for use on site or at an approved waste disposal facility.

Container Disposal: Nonrefillable Container (five gallons or less): Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Clean container promptly after emptying.

Nonrefillable Container (greater than five gallons): Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Clean container promptly after emptying.

Metal containers:
- Mixers, Swirlers, Sprayers
- Airblast
- Ground

Non-Agricultural Use Requirements

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR Part 170]. The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses. Do not enter or allow others to enter until sprays have dried.

AgriBusiness Requirements

IAPI Dormant Oil is formulated as a 20% nonionic surfactant emulsifiable concentrate, and is labeled for use as a dormant spray. It is recommended for use in dormant sprays, as a non-ionic emulsifiable concentrate.

DORMANT OIL

ACTIVE INGREDIENT: Mineral Oil

INERT INGREDIENTS:

INTEGRATED AGRIBUSINESS PROFESSIONALS

Modified baby oil is a temporary substitute for mineral oil. Modified baby oil may be used in place of mineral oil if it is not available.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Pesticide Storage: Keep container closed when not in use. Protect from freezing. Keep in shade. In case of spill or leak on floor or paved surfaces, soak up with sand, earth, or other sorbent as necessary and call poison control center or doctor for treatment advice.

If Swallowed:
- Call poison control center or doctor for treatment advice.

If in Eyes:
- Remove any contact lenses. Rinse eyes immediately with plenty of water. Call poison control center or doctor for treatment advice.

If on Skin:
- Wash the outside of gloves before removing.

If Inhaled:
- Call poison control center or doctor for treatment advice.

IAP Dormant Oil is formulated as a "fast break" spray oil, and will not stay in solution until unloaded or completely agitated. Maintenance agitation of the spray mixture until it has been applied.

Do not use THIS MATERIAL IF IT DOES NOT EMULSIFY.

USE RESTRICTIONS

- Do NOT COMBINE dormant spray oil with water to create a solution greater than 3% solution of ULR unless the mixture has been tested on the crop and the mixture has been shown to be safe. Oil and Sulfer or lime sulfur combinations SHOULD ONLY be used on DORMANT CROPS.
- Do NOT USE IAP DORMANT OIL when temperatures are below 32°F (usually nighttime lows). Apply to crops when temperatures have warmed above 35° F and crop is free of moisture of melting frost or heavy dew. Do NOT apply to crops immediately before or after spraying with oil. Consult your State Agricultural Extension Service for specific compatibilities.
- Do NOT APPLY TO trees weakened by disease, drought, high winds, or high nitrogen applications.
- MAINTAIN CONSTANT VIGOROUS AGITATION during mixing and application to keep spray oil and water in solution.
- CONCENTRATE APPLICATIONS can delay bud break.

FURTHER USE INSTRUCTIONS:

- Do not apply to oil sensitive varieties due to fruit russetting or phytotoxicity to plant foliage or wood. Apply at the rate of 100 to 400 gallons of finished spray mix per acre. Walnut - with lusal in the fire line, use 1 gallon of spray mix per acre.

CROPS: ORNAMENTAL & SHADE TREES

Conifers, Holly, Pycnantha, Sambucus, Hawthorn, Flowering Peach, Black Phoebes, Toyon, Forsythia, Magnolia, Dogwood, Oak, Privet, Buckthorn

PESTS: Black Scale, Brown Scale, Bristle Scale, Root Scale, Scale Moth, Apple, Leaf, Beet Leaf beetle, Leafminer, Mealybugs, Tussock Moth, Sawfly, Bagworm

FOLIAR APPLICATION:

IAP Dormant Oil is formulated as a spray oil, and will not stay in solution until unloaded or completely agitated. Maintenance agitation of the spray mixture until it has been applied.

IAP DORMANT OIL: 2 – 3 gallons

Further use instructions:

Confier applications to Blue Spruce and Black Juniper varieties may cause discolored growth. Blue spruce, blue juniper, and Limber pine may become discolored. Some conifer trees will discontinue growth. Some foliage or branches may die off. Some conifer trees may show discolored growth when used on Conifer applicati ons to Blue Spruce and  Blue Juniper varietie s may cause

DORMANT OIL

IAP Dormant OIL is narrow range petroleum spray oil designed for use on stone fruits, nut crops, pome fruits, and stone fruits where it is a foliar or dormant/delayed dormant application. Total coverage of all parts of plants is required for optimum results. Application rates for ditile sprays (greater than 150 gallons spray solution per acre) are listed as gallons of spray oil per 100 gallons of water per acre. Concentrate applications (usually from 20 to 100 gallons spray solution per acre), are based upon ditile spray application and are listed as gallons of spray oil per 100 gallons of water per acre. Dilute applications to 200 – 800 gallons of spray solution per acre using 1 – 1.5 gallons of oil per 100 gallons of water. For apes and pears, apply from 2-4 gallons of oil per 100 gallons of water.

CONCENTRATES: Dormant Oil

CROP INJURY, INEFFECTIVENESS, OR OTHER UNINTENDED CONSEQUENCES MAY RESULT BECAUSE OF THE CHEMICAL DESCRIPTION ON THE LABEL THEREOF AND IS REASONABLY FIT FOR THE PURPOSE STATED THEREON AND IS REASONABLY FIT FOR ALL OTHER USES FOR WHICH IT IS ADVERTISED OR CONFORM TO THE DIRECTIONS FOR USE. IT IS IMPOSSIBLE TO ELIMINATE ALL RISKS INHERENTLY ASSOCIATED WITH THE USE OF THIS PRODUCT.
