CONTAINS Sodium Nitrite             Total.......................100.00%

OTHER INGREDIENTS*

Ethyl Alcohol.............................................................37.00%

dimethyl ethylbenzyl ammonium chloride......................0.05%

n-Alkyl (68% C12, 32% C14)
dimethyl benzyl ammonium chloride..............................0.05%

n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18)

ACTIVE INGREDIENTS:............................................62.90%

KILLS 99.9% of Germs**

Antibacterial eliminates
Kills 99.9% of Staphylococcus aureus (Staph), and Enterobacter aerogenes on pre-cleaned, hard non-porous, non-food contact surfaces with a 5-minute contact time.

DRY WELL BEFORE USING

TO CLEAN: Spray a thorough, even coat all over surfaces to be treated removing all soiling and heavy soil. TO DISINFECT: Use as directed to stop transmission of illness. Follow manufacturer’s instructions for pre-cleaning. Allow surfaces to remain wet for 15 minutes before wiping. TO SANITIZE: Spray a thorough, even coat on area to be treated. Allow to remain wet for 5 minutes before wiping. FOR CONTROL OF MOLD AND MILDEW ON SURFACES: Spray on areas where mold and mildew are a concern. Allow to remain wet for 10 minutes. For disinfection of mold and mildew on pre-cleaned, hard, non-porous, non-food contact surfaces with a 10-minute contact time.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE: Store in a cool, dry place, away from food or food items. PESTICIDE DISPOSAL: This product contains a pesticide that is flammable. This product is NOT recommended for use in areas where the product may be introduced directly into the human body, either into or contact with the bloodstream or normally sterile areas of the body. In the event of exposure to this product, DO NOT PUNCTURE! If recycling is not available, discard container in trash.

FIRST AID:

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Immediately call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS:

HAZARDOUS TO HUMANS & DOMESTIC ANIMALS

WARNING:

Do not apply to skin or on clothing. Do not apply in air during or after spraying. Do not use in confined areas. Do not mix with other products. Do not allow children to handle or use. Do not use on finished wood or cabinets. Do not use on polished, waxed, or lacquered wood or finished floors. Do not mix with other products.

USE ONLY AS DIRECTED:

Sprayed on Surfaces

Spray on dirty or soiled areas and allow to remain moist for a minimum of 10 minutes. Scrub as necessary. Use on areas where mold and mildew are a concern. Use on pre-cleaned, hard, non-porous, non-food contact surfaces with a 10-minute contact time.

FOR CONTROL OF TRICHOPHYTON MENTAGROPHYTES (ATHLETE’S FOOT FUNGUS)

Spray surface until entire area is thoroughly wet. Allow to remain wet for 5 minutes before wiping.

TO SANITIZE:

Hold can upright and spray from a distance of 6 to 8 inches until area for treatment is thoroughly moistened. Allow surfaces to remain wet for 10 minutes before wiping.

TO DISINFECT:

Prior to disinfection, thoroughly pre-clean all surfaces to be treated by removing all soiling and heavy soil. TO DISINFECT: Use as directed to stop transmission of illness. Allow surfaces to remain wet for 15 minutes before wiping. TO SANITIZE: Spray a thorough, even coat on area to be treated. Allow to remain wet for 5 minutes before wiping.
