Precautionary Statements
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER
KEEP OUT OF REACH OF CHILDREN:

CORROSIVE. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, rubber gloves, and protective clothing. Rinse well with water. Remove contaminated clothing and wash before reuse. Wash hands before eating, drinking, or smoking.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.

PESTICIDE STORAGE - Store in a dry place no lower in temperature than 50°F or higher than 120°F.

CONTAINER DISPOSAL - Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Make rinse container promptly after sampling. Pour into a 45-gallon drum or equivalent, and place in a polyethylene bag. Label Polyethylene Bag with Disposal Instructions for disposal. Place container in a cool, dark place. Store for 10 seconds after the flow begins to stop. Repeat procedure twice more times. Then offer for recycling or proper disposal. Do not burn, burn, or dispose in a sanitary landfill.

PESTICIDE DISPOSAL - Pesticide waste is a hazardous waste. Improper disposal of excess pesticide, spray residue, or mixture is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the hazardous waste representative at the nearest EPA Regional Office for guidance.
Salon Care™ is a one-step detergent disinfectant that is effective against a broad spectrum of bacteria, is virucidal* (including HIV-1, HBV and HCV) and inhibits the growth of mold and mildew and their odors when used as directed. Salon Care™ for use in: massage/facial areas, hair/make-up areas, bathroom/shower areas, and instrument surfaces.

**DIRECTIONS FOR USE**

**Disinfection of Barber/Salon Tools Directions:** Immerse pre-cleaned barber/salon tools (combs, brushes, razors, manicure/pedicure tools, clippers, scissors, shaver blades) in a 2 ounces of Salon Care™ per gallon of water solution (or equivalent dilution) (0.02% active quatamny) for at least 10 minutes. Rinse instruments thoroughly and dry before reuse. A fresh use-solution must be prepared daily or more often if the use-solution becomes cloudy or colored.

Note: Plastics may remain immersed until ready to use. Stainless steel shavers and instruments must be removed after 10 minutes, rinsed, dried and kept in a clean non-contaminated receptacle. Protruding immersion may cause damage to stainless steel or metal instruments.

**Disinfection—** To disinfect inanimate, hard, non-porous surfaces add 2 ounces of Salon Care™ per gallon of water. Apply solution with a mop, cloth, sponge, hand pump trigger sprayer or low pressure coarse sprayer as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove excess liquid. For heavily soiled areas, a pre-cleaning step is required. Prepare a fresh use-solution daily or more often if the use-solution becomes visibly dirty or diluted.

**General Cleaning—** Apply Salon Care™ to soiled areas with a mop, cloth, sponge, hand pump trigger sprayer or low pressure coarse sprayer. Salon Care™ can be diluted at 2 ounces per gallon or applied at full strength. Thoroughly wet soiled surface and scrub as necessary.

---

**BACTERICIDAL ACTIVITY—** When diluted at the rate of 2 ounces per gallon of water, Salon Care™ exhibits effective, one-step disinfectant activity against the organisms: Pseudomonas aeruginosa (ATCC 27853), Escherichia coli, Klebsiella pneumoniae, Salmonella enteritica, Campylobacter jejuni, Streptococcus faecalis, Staphylococcus aureus, Staphylococcus epidermidis, Enterococcus faecalis, Listeria monocytogenes, Pseudomonas aeruginosa, M. tuberculosis resistant Staphylococcus aureus (MRSA), Vancomycin intermediate resistant Staphylococcus aureus (VISA), Staphylococcus pseudintermedius (Clinical-Resistant Strain BIDDS 1072) and Staphylococcus aureus New Delhi Metallo-Beta-Lactamase (NDM-1) Carbapenem Resistant, Acinetobacter baumannii, Enterococcus faecalis, Vancomycin resistant Enterococcus faecalis (VREF) and meets all requirements for hospital use.

**FUNGICIDAL ACTIVITY—** At the 2 ounces per gallon dilution, Salon Care™ is also fungicidal against the pathogenic fungi, Trichophyton mentagrophytes (causative agent of Athlete's Foot Fungus), which are used or contacted on hard surfaces found in bathrooms, shower stalls, locker rooms, exercise facilities or other clean, hard, non-porous surfaces commonly contacted by bare feet. Follow the disinfection directions.

**VIRUCIDAL ACTIVITY—** Salon Care™, when used on environmental, inanimate, hard, non-porous surfaces at 2 ounces per gallon of water, exhibits effective virucidal activity against influenza A/Hong Kong (representative of the common flu virus), Herpes Simplex Type 1 (causative agent of fever blisters), Adenovirus Type 2 (causative agent of upper respiratory infections), Varicella virus (representative of the Herpes virus group), Human Coronavirus (229E - 1A94, 229E), Human Immunodeficiency Virus Type 1 (HIV 1), Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), Norovirus (Norwalk Virus), Bovine Viral Diarrhea Virus (BVDV), Feline calicivirus (FCoV), SARS Associated Coronavirus, Parainfluenza Respiratory & Reproductive Syndrome Virus (PIRSV) (strain NY5), and Avian Influenza A. Follow the disinfection directions.

**KLASS IV, HBV and HCV ARE PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings (Hospital, Nursing Home) or other settings in which there is an expected likelihood of soiling of inanimate surfaces with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Hepatitis B Virus (HBV) and Hepatitis C Virus (HCV).

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HBV, HIV AND HCV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:**

**PERSONAL PROTECTION:** When handling items soiled with blood or body fluids, use disposable latex gloves, goggles, masks, and eye coverings.

**CLEANING PROCEDURES:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of Salon Care™.

**CONTACT TIME:** Allow surfaces to remain wet for 10 minutes.

**DISPOSAL OF INFECTIONS MATERIALS:** Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.
FURFURICIDE (against pathogenic fungi)

KEEP OUT OF REACH OF CHILDREN DANGER

See inside back of additional precautions statements

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-30 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. If inhaled: Move person to fresh air. If person is not breathing, call 911 or the poison control center or doctor for further treatment advice. You may contact 800/225-3924 (ChemTel Inc., US) for emergency medical treatment information.

WARNING: This product is intended for use by trained professionals only. Use of this product requires training in the application and proper use of the product. Do not use this product on any type of eyewear. It is a violation of Federal law to use in the corrosion of the eye. Use of this product may result in permanent eye damage.

DIRECTIONS FOR USE

- Dilution: Mix 1 part FURFURICIDE with 2 parts water.
- Spray: Use a spray bottle to apply the solution to the area to be treated.
- Wipe: Use a cloth or towel to wipe the area with the solution.
- Rinse: Rinse the area with plenty of water after treatment.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or giving first aid.

If eye contact occurs, flush eyes with large amounts of water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes of flushing eyes. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Wash skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless advised to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. If breathing has stopped, call 911 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. You may contact BMDXG-X-006F Givens Inc., toll-free for emergency medical treatment information.

NOTE TO PHARMACISTS: Protective eyewear may be necessary when using aspirin-based beverages.

**Precautionary Statements**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER**

*KEEP OUT OF REACH OF CHILDREN:*

**STORAGE AND DISPOSAL**

- Do not contaminate water, food, or feed by storage or disposal.
- Properly store in a dry place away from strong oxidizing agents or strong reducing agents.
- Store at room temperature.
- Protect from moisture.
- Do not store in direct sunlight.
- Do not incinerate.
- Do not burn empty containers.
- Disposal of waste must conform with local, state, and federal regulations.
- For disposal instructions, contact your local waste management facility.

*Caution:* Use only as directed. Read these instructions carefully before using this product.
Salon Care™ is a one-step detergent disinfectant that is effective against a broad spectrum of bacteria, is virucidal* (including HIV-1, HBV and HCV) and inhibits the growth of mold and mildew and their odors when used as directed. Salon Care™ is for use in: massage/esthetics rooms, hair/salons, pedicure salons, barbers/beauty shops.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use Salon Care™ in a manner inconsistent with its labeling.

Disinfection of Barber/Salon Tools Directions: Immerse pre-cleaned barber/ston tools (combs, brusher, razors, manicure/nailcare tools, clippers, scissors, thinnor blades) in 2 ounces of Salon Care™ per gallon of water solution (or equivalent dilution) (700 ppm active quaternary) for at least 10 minutes. Rinse instruments thoroughly and dry before reuse. A fresh use-solution must be prepared daily or more often if the use-solution becomes cloudy or soiled.

Note: Plastics may remain uncleaned until ready to use. Stainless steel shears and instruments must be removed after 10 minutes, rinsed, dried and kept in a clean non-contaminated receptacle. Prolonged immersation may cause damage to stainless steel or metal instruments.

**DISINFECTION** — To disinfect inanimate, hard, non-porous surfaces add 2 ounces of Salon Care™ per gallon of water. Apply solution with a mop, cloth, sponge, hand pump trigger sprayer or low pressure coarse sprayer as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove excess liquid. For heavily soiled areas, a pre-cleaning step is required.

Prepare a fresh use-solution daily or more often if the use-solution becomes visibly dirty or diluted.

**GENERAL CLEANING** — Apply Salon Care™ to soiled area with a mop, cloth, sponge, hand pump trigger sprayer or low pressure coarse sprayer. Salon Care™ can be diluted at 2 ounces per gallon or applied at full strength. Thoroughly wet soiled surface and scrub as necessary.

**BACTERICIDAL ACTIVITY** — When diluted at the rate of 2 ounces per gallon of water, Salon Care™ exhibits effective, one-step disinfectant activity against the organisms: Pseudomonas aeruginosa PRD 10, Escherichia coli, Klebsiella pneumoniae, Salmonella schottmuelleri, Salmonella enterica, Staphylococcus aureus, Rhodacaea fermentans, Enterobacter aerogenes, Staphylococcus aureus, Methicillin-resistant Staphylococcus aureus (MRSA), Vancomycin-resistant Enterococcus faecalis, Vancomycin-resistant Enterococcus faecium, Pseudomonas aeruginosa, and Staphylococcus aureus (MSSA), Staphylococcus pyogenes, Staphylococcus aureus, Staphylococcus aureus New Delhi Metallo-

**FUNGICIDAL ACTIVITY** — At the 2 ounces per gallon dilution, Salon Care™ is also fungicidal against the pathogenic fungi: Trichophyton mentagrophytes (causative agent of Athlete’s Foot Fungus), when used as directed on hard surfaces found in bathrooms, shower stalls, locker rooms, exercise facilities or other clean, hard, non-porous, surfaces commonly contacted by bare feet. Follow the disinfection directions.

***VIRUCIDAL ACTIVITY** — Salon Care™, when used on environmental, inanimate, hard, non-porous surfaces at 2 ounces per gallon of water, exhibits effective virucidal activity against Influenza A2/03 (representative of the common flu virus), Herpes Simplex Type 1 (causative agent of fever blisters), Adenovirus Type 2 (causative agent of upper respiratory infections), Vaccinia virus (representative of the smallpox virus), Human Coronavirus 2 (2019-nCoV), Human Immunodeficiency Virus Type 1 (HTLV-1), Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), Norovirus (Norwalk Virus), Botulism Cattle Virus (BCV), Feline calicivirus (FCV), HIV/AIDS (HIV) and Human Immunodeficiency Virus (HIV-1). Follow the disinfection directions.

**KILLS HIV-1, HBV AND HCV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/ BODY FLUIDS** In health care settings (hospitals, nursing homes) or other settings in which there is an expected likelihood of soiling of inanimate environmental surfaces with blood or body fluids, and in which the surfaces/ objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus type 1 (HIV) or hepatitis B (HBV) and hepatitis C virus (HCV), special instructions for cleaning and decontamination against HIV, HBV and HCV on surfaces/objects soiled with blood/body fluids.

**PERSONAL PROTECTION** When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, mask, and eye coverings.

**CLEANING PROCEDURES** Blood and other body fluids must be thoroughly cleaned from surfaces before application of Salon Care™.

**CONTACT TIME** Allow surface to remain wet for 10 minutes.

**DISPOSAL OF INFECTIOUS MATERIALS** Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.
**SAFE HANDLING INSTRUCTIONS**

- Avoid contact with eyes, skin, or clothing.
- Keep out of reach of children and pets.
- Do not leave container open – cap securely.
- Store in a cool, dry place.

**FIRST AID**

**Eye Contact:** Rinse immediately with water. If irritation persists, consult a physician.

**Skin Contact:** Wash with soap and water. If irritation persists, consult a physician.

**Inhalation:** Remove to fresh air. If not breathing, call emergency services immediately.

**Ingestion:** Do not induce vomiting unless instructed by a physician.

**Exposure to Carbon Dioxide:** Remove to fresh air. If breathing difficulties, call emergency services immediately.

**Special Notes:**
- Not for use on human beings.
- Not for veterinary use.

**WHIRLPOOL WASHING INSTRUCTIONS**

- Do not mix with other chemicals or cleaners.
- Do not use on surfaces that are sensitive to bleach.

**SAFE HANDLING INSTRUCTIONS FOR BLEACH**

- Use in a well-ventilated area.
- Avoid direct contact with skin and eyes.
- Do not mix with acids or ammonia.

**SAFE HANDLING INSTRUCTIONS FOR ALCOHOL**

- Use in a well-ventilated area.
- Avoid direct contact with skin and eyes.
- Do not mix with acids or ammonia.

**SAFE HANDLING INSTRUCTIONS FOR ACETONE**

- Use in a well-ventilated area.
- Avoid direct contact with skin and eyes.
- Do not mix with acids or ammonia.

**SAFE HANDLING INSTRUCTIONS FOR HYDROGEN PEROXIDE**

- Use in a well-ventilated area.
- Avoid direct contact with skin and eyes.
- Do not mix with acids or ammonia.

**SAFE HANDLING INSTRUCTIONS FOR SALT SOLUTION**

- Use in a well-ventilated area.
- Avoid direct contact with skin and eyes.
- Do not mix with acids or ammonia.
