One-Step Disinfectant Cleaner

**Active Ingredients:**
- Hospital Grade Hydrogen Peroxide
- Inert Ingredients: 4.25%

**Total:** 95.75%

**KEEP OUT OF REACH OF CHILDREN CAUTION:**
Read the entire label and directions for use before using this product.

**STORAGE AND DISPOSAL:**
Non-flammable. Store in a cool, dry area away from heat and direct sunlight.

**FIRST AID:**
- If in eyes: Rinse eyes with running water for 15 minutes.
- If on skin or clothing: Remove contaminated clothing and wash skin with soap and water.

**PRECAUTIONARY STATEMENTS:**
- Hazards to humans and animals.

**CONTACT INFORMATION:**
For any questions or concerns, contact us at 1-800-358-8476.

**GUIDELINES:**
- Use as directed on the label.

**Dilution Instructions:**
- 1:128 dilution (1 oz. of product per gallon of water)

**SALONS & CLINICS**
- One-Step Disinfectant Cleaner is designed for use in spas, salons, and clinics.

**FOR USE IN SPAS, SALONS & CLINICS**
- For use in spas, salons, and clinics, One-Step Disinfectant Cleaner is a non-foaming disinfectant cleaner designed for cleaning, disinfecting, deodorizing and controlling mold and mildew on hard, non-porous surfaces. It cleans quickly by removing body oils, dirt, debris, and all built-up scale or scum from hard non-porous foot spa surfaces.

**DIRECTIONS FOR USE**
- It is a solution of Federal Law to use this product in a manner inconsistent with its labeling.

**FOR USE AS A ONE-STEP DISINFECTANT/DEODORIZER:**
- A one-step disinfectant cleaner is designed for the disinfection of hard, non-porous surfaces with a total contact time of 5 minutes.

**FOR USE AS A ONE-STAGE DISINFECTANT/DEODORIZER:**
- For use as a one-stage disinfectant cleaner, it is designed for the disinfection of hard, non-porous surfaces with a total contact time of 10 minutes.

**FOR USE IN SPAS, SALONS & CLINICS**
- For use in spas, salons, and clinics, One-Step Disinfectant Cleaner is a non-foaming disinfectant cleaner designed for cleaning, disinfecting, deodorizing and controlling mold and mildew on hard, non-porous surfaces. It cleans quickly by removing body oils, dirt, debris, and all built-up scale or scum from hard non-porous foot spa surfaces.

BACTERICIDAL: 5 MINUTE @ 1:16

This product at a 1:16 dilution (8 oz. of product per gallon of water) is effective against:

- *Acinetobacter baumannii*
- *Escherichia coli* (ESBL)
- *Escherichia coli O157:H7*
- *Enterococcus faecium* (Vancomycin Resistant (VRE))
- *Klebsiella pneumoniae*
- *Klebsiella pneumoniae* (Carbapenem Resistant (KPC))
- *Listeria monocytogenes*
- *Pseudomonas aeruginosa*
- *Salmonella enterica* (formerly known as *Salmonella choleraesuis*)
- *Shigella dysenteriae*
- *Staphylococcus aureus*
- *Staphylococcus aureus* (Methicillin Resistant (MRSA))
- *Staphylococcus aureus* (Methicillin Resistant (MRSA)) (Clinical Isolate 08001) (Genotype USA300)
- *Staphylococcus aureus* (Methicillin Resistant (MRSA)) (Clinical Isolate 08003) (Genotype USA400)
- *Staphylococcus epidermidis* (Methicillin Resistant (MRSE))
- *Streptococcus pneumoniae* (Penicillin Resistant (PRSP))
- *Streptococcus pyogenes*

*VIRUCIDAL: 5 MINUTES @ 1:64*

At 1:64 – 1:128 dilution (1 – 2 oz. of product per gallon of water), in the presence of 200 ppm hard water, 5% serum load and 5 minute contact time, unless otherwise noted, this product kills the following on hard, non-porous inanimate surfaces:

- Adenovirus type 8 (Strain Trim)
- Hepatitis B virus (HBV)
- Hepatitis C virus (HCV)
- Herpes simplex Type 2
- HIV-1 (AIDS virus) (Strain HTLV-III) – 1 minute
- Human Coronavirus
- Influenza Type A₂ (Hong Kong)
- Norovirus (Feline Calicivirus as the surrogate)
- Parainfluenza Type 3
- Poliovirus Type 1
- Respiratory Syncytial Virus
- Rhinovirus Type 37 Strain 151-1
- Rotavirus (Strain WA)
- Vaccinia Virus (smallpox vaccine virus)

This product has demonstrated effectiveness against Influenza Type A₂ virus and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 Influenza A virus.

FUNGICIDAL: 5 MINUTES @ 1:16

This product is fungicidal when used as directed on hard, non-porous inanimate surfaces at a 1:16 dilution (8 oz. per gallon of water), and in the presence of a 5% serum load and a 5 minute contact time.

- *Trichophyton mentagrophytes*

Malodors

Reduces odors and odor-causing bacteria on hard non-porous surfaces in restroom areas, behind and under sinks and counters, and storage areas and other places where bacterial growth can cause malodors, when used as directed at a 1:16 dilution (8 oz. of product per gallon of water) in the presence of 200 ppm hard water and a 30 second contact time.

Mold/Mildew

Kills the growth of mold and mildew when diluted at 1:16 in 200 ppm hard water at a 10 minute contact time: *Aspergillus niger* and the odors caused by them when applied to hard, non-porous environmental surfaces. Controls and prevents the growth of mold and mildew when diluted at 1:16 in 200 ppm hard water at a 10 minute contact time: *Aspergillus niger* and the odors caused by them when applied to hard, non-porous environmental surfaces.
NON-FOOD CONTACT SANITIZING:
1:16 @ 30 SECONDS
Sanitizing: When used as a non-food contact sanitizer at a 1:16 dilution (8 oz. of product per gallon of water), in the presence of 200 ppm hard water, 5% serum load, this product reduces the following bacteria by 99.9% with a 3 minute contact time on hard non-porous inanimate surfaces:
- *Enterobacter aerogenes*
- *Enterococcus faecalis (Vancomycin Resistant (VRE))*
- *Escherichia coli (ESBL)*
- *Listeria monocytogenes*
- *Pseudomonas aeruginosa*
- *Salmonella enterica (formerly known as Salmonella choleraesuis)*
- *Staphylococcus aureus*

Non-Food Contact Sanitizing:
1:128 @ 3 MINUTES
Sanitizing: When used as a non-food contact sanitizer at a 1:128 dilution (1 oz. of product per gallon of water), in the presence of 200 ppm hard water, 5% serum load, this product reduces the following bacteria by 99.9% with a 3 minute contact time on hard non-porous inanimate surfaces:
- *Escherichia coli*
- *Enterococcus faecalis*
- *Klebsiella pneumoniae*
- *Listeria monocytogenes*
- *Pseudomonas aeruginosa*
- *Salmonella enterica (formerly known as Salmonella choleraesuis)*
- *Staphylococcus aureus*

BACTERICIDAL STABILITY OF USE-SOLUTION
Tests show this product as a disinfectant, when diluted at 1:16 dilution (8 oz. of product per gallon of water) in 200 ppm hard water, in the presence of 5% serum, remains effective against *Staphylococcus aureus*, *Salmonella enterica* (formerly known as *Salmonella choleraesuis*) and *Pseudomonas aeruginosa* for up to 90 days in storage as long as the bottle remains sealed.

If the use-solution becomes visibly dirty or contaminated, it must be discarded and a fresh product prepared. Always use clean, dry containers when diluting this product. Treated surfaces must remain wet for 5 minutes.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

To Kill Mold and Mildew:
Dilute at 8.0 oz. of product per gallon of water (1:16). Pre-clean surfaces. Apply use solution to hard, non-porous environmental surfaces. Allow surfaces to remain wet for 10 minutes. Wipe surfaces and let air dry.

To Control Mold and Mildew:
Dilute at 8.0 oz. of product per gallon of water (1:16). Apply use solution to pre-cleaned hard, non-porous environmental surfaces. Wipe surfaces and let air dry. Repeat application weekly or when growth reappears.

To Kill Fungi:
Dilute at 8.0 oz. of product per gallon of water (1:16). Pre-clean heavily soiled areas. Apply use solution to hard, non-porous environmental surfaces. Allow surface to remain wet for 5 minutes. Wipe surfaces and let air dry.

For Use as a *Virucide:*
Dilute at 2 – 8 oz. of product per gallon of water (1:16 – 1:64).
1. Pre-clean heavily soiled areas.
2. Apply use solution until thoroughly wet.
3. Let stand for 5 minutes.
4. Wipe surfaces and let air dry.

For use as a disinfectant, on hard, non-porous surfaces of foot baths (pedicure foot spa equipment): Dilute at 8.0 oz. of product per gallon of water (1:16)
1. Drain: Drain the water and remove any visible debris.
2. Clean: Thoroughly clean all surfaces with use solution of Rejuvenate™ Concentrate. Dilute 1.0 – 8.0 oz. per gallon of water 1:16 to 1:128, then rinse with water and drain.
3. Apply: Apply a use solution of 8.0 oz. per gallon of water on all hard non-porous surfaces with a trigger spray device.
4. Scrub (Circulate): Brush or swab thoroughly and allow solution to stand for 5 minutes.
   For spray applications, spray 6-8 inches from surface.
For whirlpool foot spas, air-jet basins, “pipe-less” foot spas, and other circulating spas it is best to fill the basin with the use solution. Dilute 8.0 oz. per gallon of water and turn the unit on to circulate the solution for 5 minutes.
5. Drain and Rinse all surfaces with fresh water.
Note: Change cloth, sponge or towels frequently to avoid re-deposition of soil.

For Use to Clean and Disinfect Barber and Beauty/Manicure Instruments and Tools: (Dilute at 8.0 oz. of product per gallon of water (1:16),)
1. Pre-clean heavily soiled items.
2. Completely immerse pre-cleaned combs, brushes, scissors, clipper blades, razors, manicure implements and other non-porous instruments in the use solution so that surfaces remain wet for 5 minutes.
3. Rinse surfaces thoroughly and let air dry before reuse.
4. Change solution daily or when visibly dirty.
Note: Remove instruments after 5 minutes. Then rinse, dry and keep in a clean, non-contaminated receptacle until use. Prolonged soaking may cause damage to instruments.

*“THIS PRODUCT KILLS HBV, HCV AND HIV-1 ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings and other settings in which there is an expected likelihood of soilage of inanimate surfaces/objects with blood or body fluids; and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Hepatitis B Virus (HBV), Hepatitis C Virus (HCV) and Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS)).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HBV, HCV AND HIV-1 OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

Personal Protection: Disposable latex or vinyl gloves, gowns, face masks, and eye coverings must be worn during all cleaning of body fluids, blood, and decontamination procedures.

Cleaning Procedures: Blood and body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

Contact Time: Allow surface to remain wet for 1 minute to kill HIV-1, and for 5 minutes to kill HBV, HCV, fungi and all other organisms cited on the label.

Disposal of Infectious Material: Cleaning materials used that may contain blood and other body fluids must be autoclaved and disposed of according to Federal, State, and local regulations for infectious waste disposal.
**PRECAUTIONARY STATEMENTS**

**DANGERS**

Avoid contact with eyes or mucous membranes.

**WARNING**

Causes moderate eye irritation. IF IN EYES: hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. Continued rinsing for at least 15 minutes.

**CAUTION:**

DOMESTIC ANIMALS. Wash hands with soap and water after handling and before eating.

**Hazards to Avoid**

Avoid contact with eyes or mucous membranes. Avoid breathing dust/smoke. Wash clothing. Wear chemical splash-goggles and rubber gloves when handling.

**First Aid Measures**

**If ingested**

Do not give anything by mouth to an unconscious person. If you are able to swallow, do not induce vomiting unless told to do so by a physician or poison control center. If you are able to swallow, drink a glass of water if possible. Then call a Poison Control Center or doctor or go in for treatment.

**If in eyes:**

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, then continue rinsing eye. If irritation persists, get medical attention.

**If on skin or clothing:**

Take off clothing. Wash skin immediately with plenty of water. Cover any exposed skin. Then continue rinsing eye.

**Inhalation:**

Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Do not give anything by mouth to an unconscious person. If you are able to swallow, do not induce vomiting unless told to do so by a physician or poison control center. If you are able to swallow, drink a glass of water if possible. Then call a Poison Control Center or doctor or go in for treatment.

**Inhalation of dust/smoke: **

Remove to fresh air. Give artificial respiration. If breathing is difficult, give oxygen. Do not give anything by mouth to an unconscious person. If you are able to swallow, do not induce vomiting unless told to do so by a physician or poison control center. If you are able to swallow, drink a glass of water if possible. Then call a Poison Control Center or doctor or go in for treatment.

**Ingestion:**

Do not give anything by mouth to an unconscious person. If you are able to swallow, do not induce vomiting unless told to do so by a physician or poison control center. If you are able to swallow, drink a glass of water if possible. Then call a Poison Control Center or doctor or go in for treatment.

**Medical Information**

Causes moderate eye irritation.

**STORAGE AND DISPOSAL**

Non-refillable container. Wrap container for disposal. Pesticide Storage: Do not reuse or refill this container. Wrap container for disposal. Pesticide Disposal: Do not reuse or refill this container. Wrap container for disposal. Container is a source of respiratory hazards. \*Note: Use only for the intended purpose. This product is a one-step disinfectant cleaner for non-food contact surfaces and is compatible with a wide range of container and dispenser systems. The use of this product is subject to the terms and conditions of the use agreement of the manufacturer before proceeding with the use of any product. For more information, visit: www.virox.com

- *Enterococcus faecium* (Vancomycin Resistant (VRE))
- *Klebsiella pneumoniae*
- *Klebsiella pneumoniae* (Carbapenem Resistant (KPC))
- *Listeria monocytogenes*
- *Pseudomonas aeruginosa*
- *Salmonella enterica* (formerly known as *Salmonella choleraesuis*)
- *Shigella dysenteriae*
- *Staphylococcus aureus*
- *Staphylococcus aureus* (Methicillin Resistant (MRSA))
- *Staphylococcus aureus* (Methicillin Resistant) (CA-MRSA) (Clinical Isolate 80001) (Genotype USA300)
- *Staphylococcus aureus* (Methicillin Resistant) (CA-MRSA) (Clinical Isolate 80005) (Genotype USA400)
- *Staphylococcus epidermis* (Methicillin Resistant (MRSE))
- *Streptococcus pneumoniae* (Penicillin Resistant (PRSP))
- *Streptococcus pyogenes*

**VIRUCIDAL: 5 MINUTES @ 1:64**

At 1:64 – 1:128 dilution (1 – 2 oz. of product per gallon of water), in the presence of 200 ppm hard water, 5% serum load and 5 minute contact time, unless otherwise noted, this product kills the following on hard, non-porous inanimate surfaces:

- *Adenovirus type 8* (Strain Trim)
- Hepatitis B virus (HBV)
- Hepatitis C virus (HCV)
- Herpes simplex Type 2
- HIV-1 (AIDS virus) (Strain HTLV-III) – 1 minute
- Human Coronavirus
- Influenza Type A₁ (H1N1)
- Norovirus (Feline Calicivirus as the surrogate)
- Parainfluenza Type 3
- Poliovirus Type 1
- Respiratory Syncytial Virus
- Rhinovirus Type 37, Strain 151-1
- Rotavirus (Strain WA)
- *Vaccinia Virus* (smallpox vaccine virus)

This product has demonstrated effectiveness against Influenza Type A₃ virus and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 Influenza A virus.

**FUNGICIDAL: 5 MINUTES @ 1:16**

This product is fungicidal when used as directed on hard, non-porous inanimate surfaces at a 1:16 dilution (8 oz. per gallon of water), and in the presence of a 5% serum load and a 5 minute contact time.

- *Trichophyton mentagrophytes*

**Malodors**

Reduces odors and odor-causing bacteria on hard non-porous surfaces in restroom areas, behind and under sinks and counters, and storage areas and other places where bacterial growth can cause malodors, when used as directed at a 1:16 dilution (8 oz. of product per gallon of water) in the presence of 200 ppm hard water and a 30 second contact time.

**Mold/Mildew**

Kills the growth of mold and mildew when diluted at 1:16 in 200 ppm hard water at a 10 minute contact time: *Aspergillus niger* and the odors caused by them when applied to hard, non-porous environmental surfaces.
Controls and prevents the growth of mold and mildew when diluted at 1:16 in 200 ppm hard water at a 10 minute contact time: Aspergillus niger and the odors caused by them when applied to hard, non-porous environmental surfaces.

**NON-FOOD CONTACT SANITIZING: 1:16 @ 30 SECONDS**

Sanitizing: When used as a non-food contact sanitizer at a 1:16 dilution (8 oz. of product per gallon of water), in the presence of 200 ppm hard water, 5% serum load, this product reduces the following bacteria by 99.9% with a 30 second contact time on hard non-porous inanimate surfaces:

- Enterobacter aerogenes
- Enterococcus faecalis
- Listeria monocytogenes
- Pseudomonas aeruginosa
- Salmonella enterica (formerly known as Salmonella choleraesuis)
- Staphylococcus aureus

**NON-FOOD CONTACT SANITIZING: 1:128 @ 3 MINUTES**

Sanitizing: When used as a non-food contact sanitizer at a 1:128 dilution (1 oz. of product per gallon of water), in the presence of 200 ppm hard water, 5% serum load, this product reduces the following bacteria by 99.9% with a 3 minute contact time on hard non-porous inanimate surfaces:

- Escherichia coli
- Enterococcus faecalis
- Klebsiella pneumoniae
- Listeria monocytogenes
- Pseudomonas aeruginosa
- Salmonella enterica (formerly known as Salmonella choleraesuis)
- Staphylococcus aureus

**BACTERICIDAL STABILITY OF USE-SOLUTION**

Tests show this product as a disinfectant, when diluted at 1:16 dilution (8 oz. of product per gallon of water) in 200 ppm hard water, in the presence of 5% serum, remains effective against Staphylococcus aureus, Salmonella enterica (formerly known as Salmonella choleraesuis) and Pseudomonas aeruginosa for up to 90 days in storage as long as the bottle remains sealed.

If the use-solution becomes visibly dirty or contaminated, it must be discarded and a fresh product prepared. Always use clean, dry containers when diluting this product. Treated surfaces must remain wet for 5 minutes.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**Smart DOSE™ SYSTEMS (1.48 US Qt containers)** – Using the Smart DOSE unit, dispense product into a trigger sprayer or bucket.

- To dispense product into a spray bottle, select spray bottle icon on Smart DOSE™ bottle, pull up on selector knob and completely push down on selector knob.

- To dispense product into a bucket, select bucket icon on Smart DOSE™ bottle, pull up on selector knob and completely push down on selector knob.

To Kill Mold and Mildew:

Dilute at 8.0 oz. of product per gallon of water (1:16). Pre-clean surfaces. Apply use solution to hard, non-porous environmental surfaces. Allow surfaces to remain wet for 10 minutes. Wipe surfaces and let air dry.

To Control Mold and Mildew:

Dilute at 8.0 oz. of product per gallon of water (1:16). Apply use solution to pre-cleaned hard, non-porous environmental surfaces. Wipe surfaces and let air dry. Repeat application weekly or when growth reappears.

To Kill Fungi:

Dilute at 8.0 oz. of product per gallon of water (1:16). Pre-clean heavily soiled areas. Apply use solution to hard, non-porous environmental surfaces. Allow surface to remain wet for 5 minutes. Wipe surfaces and let air dry.

**For use as a Virucide:**

Dilute at 2 – 8 oz. of product per gallon of water (1:16 – 1:64). 1) Pre-clean heavily soiled areas. 2) Apply use solution until thoroughly wet. 3) Let stand for 5 minutes. 4) Wipe surfaces and let air dry.

**For Use to Clean and Disinfect Barber and Beauty/Manicure Instruments and Tools:**

Dilute at 8.0 oz. of product per gallon of water (1:16).

1. Pre-clean heavily soiled items.
2. Completely immerse pre-cleaned combs, brushes, scissors, clipper blades, razors, manicure implements and other non-porous instruments in the Use Solution so that surfaces remain wet for 5 minutes.
3. Rinse surfaces thoroughly and let air dry before reuse.
4. Change solution daily or when visibly dirty.

Note: Remove instruments after 5 minutes. Then rinse, dry and keep in a clean, non-contaminated receptacle until use. Prolonged soaking may cause damage to instruments.

**THIS PRODUCT KILLS HBV, HCV AND HIV-1 ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings and other settings in which there is an expected likelihood of soilage of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Hepatitis B Virus (HBV), Hepatitis C Virus (HCV) and Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS).

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HBV, HCV AND HIV-1 OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.**

**Personal Protection:** Disposable latex or vinyl gloves, gowns, face masks, and eye coverings must be worn during all cleaning of body fluids, blood, and decontamination procedures.

**Cleaning Procedures:** Blood and body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

**Contact Time:** Allow surface to remain wet for 1 minute to kill HIV-1, and for 5 minutes to kill HBV, HCV, fungi and all other organisms cited on the label.

**Disposal of Infectious Material:** Cleaning materials used that may contain blood and other body fluids must be autoclaved and disposed of according to Federal, State, and local regulations for infectious waste disposal.
