This product is non-woven, disposable wipe, pre-saturated with quaternary ammonium chloride. This product is intended for use in: Approach areas, retail, hospital, office, educational facilities, kitchens, construction sites, breathing establishments, grooming salons, daycare centers, libraries, city hall, police stations, schools, health clubs, gyms, athletic facilities, airports transportation terminals, grocery stores, shopping centers, delis, convenience, catering facilities, hotel, hotel, daycare centers, hospitals, stores, residences, laundromats and/or bathroom, institutional kitchens and in bathrooms.

This product will sanitize hard non-porous surfaces of cabinets, doors, drawers, counters, tables, telephones, toilet seats, toilets, bath tubs, bathroom fixtures, shower stalls, tile, ladies, vanity tops, grocery cart handles, grocery carts, shopping carts, grocery cart child seats, garbage baskets, desks, desk pads, workout equipment, exercise bikes, computers, drawers, desks, deli display cases, fax machines, keyboards, washers, dryers, windows, appliance and outdoor bathroom fixtures, kitchen fixtures, bathtubs, shower doors, stove tops, oven doors, garbage cans, waste can, wastebaskets, garbage cans, recycling centers, waste disposal, trash cans, in the kitchen, laundry, and bathrooms.

Kills 99.99% of bacteria that can cause food borne illnesses on hard, non-porous surfaces in just 1 minute. This product was tested in accordance with AOAC methods and meets EPA requirements for sanitizing previously cleaned food-contact surfaces. This product has been tested by IDL in the State of Federal Regulations, section 175.610 B for use on food contact surfaces in homes, public eating places, restaurants, bars, taverns, institutional kitchens, food handling and processing areas and food preservation areas with the requirement of a viable water rinse after sanitization.

*Rapidly reduces bacteria (Staph. Excherich, E. coli.)

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling.

SANITIZING FOOD CONTACT SURFACES: This product is to be used in homes, schools, day care centers, restaurants, bars, laundries, institutional kitchens, food handling and processing areas, food preparation areas to sanitize pre-cleaned, hard, non-porous food contact surfaces. Prior to application, remove all gross food products and soil from surfaces that are to be sanitized. Thoroughly wet the surfaces with a good detergent followed by a possible water rinse before applying this sanitizing wipe. For patio, picnic, outdoor surfaces, use the soap to thoroughly wet the surfaces to be cleaned. This product is a low foam liquid, active quaternary pre-saturated wipe which kills 99.9% of bacteria (Staph. Excherich, E. coli., ATCC 25922) at 30 seconds according to the AOAC 990.1231 and 990.1232 in accordance with the AOAC, Dermal and Emergent Sanitizing Action of Disinfectants test.

To sanitize hard, non-porous food contact surfaces. Each square inch of wipe will sanitize 1.24 square inches of surface area. Lift the surface to expose for 30 seconds. Laundering will NOT affect the sanitizing ability of this product. NO POTABLE WATER RINSE IS ALLOWED.

Use a fresh wipe to clean new surfaces to be sanitized. Do not use to sanitize gross debris, work areas, eating areas and unrefined wooden cutting boards. Do not use to sanitize food preparation surfaces that are scored or gouged with narrow spaces that cannot be cleaned by wiping. Do not use to sanitize other food contact surfaces that by their design or configuration cannot be fully reached or covered by a wet wipe.
