FEED INGREDIENTS
Molasses products, plant protein products, dicalcium phosphate, monocalcium phosphate, vegetable oil, magnesium oxide, calcium carbonate, vitamin A supplement, zinc oxide, zinc sulfate, manganese sulfate, manganese oxide, copper sulfate, copper proteinate, vitamin E supplement, yeast culture, vitamin B supplement, cobalt carbonate, sodium selenite, ethylenediamine dihydroiodide.
** Contains no prohibited animal by-products in accordance with FDA regulation 21 CFR 589.2000. This product was manufactured in a facility that does not handle or store animal protein products prohibited in ruminitant feed as described in 21 CFR 589.2000.
Use this supplement only in accordance with the directions on the label. This product contains supplemental selenium. Selenium can be fed at levels up to 1.20 ppm in a mixture for free-choice feeding at a rate not to exceed an intake of 3 mg per head per day. CFR Title 21 Sec. 573.410
This product contains ethoxyquin, a preservative.

Net Wt. 200 LBS

KEEP OUT OF REACH OF CHILDREN

WARNING

FIRST AID:
If in Eyes:
Hold eye open and rinse slowly and gently with water for 15-20 minutes, remove contact lenses, if present, after first 5 minutes, continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on Skin:
Wash thoroughly with soap and water. Then rinse with plenty of water. Call a poison control center or doctor for treatment advice.

Inhalation:
Remove to fresh air. If not improved, seek medical attention.

Ingestion:
Do not induce vomiting. Give small amounts of water to swallow. If necessary, call a poison control center or doctor for treatment advice.

EPA Reg. No. 94545-90-29701
EPA Est. No. 92271-UT-1

PRECAUTIONARY STATEMENTS
Hazard to Humans and Domestic Animals

WARNING
Cause substantial but temporary eye injury. Do not get in eyes or on clothing. Wear protective eyewear (goggles, face shield, or safety glasses). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS
Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

GENERAL INFORMATION
This product is to be used as a cattle feed-through pesticide for the control of horn flies. All feed ingredients listed on this product label must be incorporated into a complete nutritional formula. However, the product must be on the complete formulation of the individual manufacturer's formulation and will not exceed the 150 ppm maximum limit established for ethoxyquin by FDA, per 21 CFR 573.380.

FEEDING AND MANAGEMENT INSTRUCTIONS
Feed this product to cattle only. When used as directed, this product will provide sufficient 5-Methoprene insect growth regulator to prevent the emergence of horn flies from manure of treated cattle. Existing adult horn flies will not be affected. Start feeding before horn flies appear and continue use until cold weather marks the end of the horn fly season. Allow free choice to cattle. Cattle should consume 34 mg of 5-Methoprene per 100 lbs of cattle body weight per month to achieve...
