**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER**

CAUSES IRREVERSIBLE EYE DAMAGE AND SKIN BURNS

IF INHALED:

• Take off contaminated clothing and shoes.
• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove and wash any在外面 clothing such as gloves, overalls, work clothing or containing this material in a washable container using adequate amount of water (or water and detergent).

IF IN EYES:

• Hold eye open and rinse slowly and gently with water for 15 minutes. Do not rub eye.

IF IN SKIN:

• Clean skin thoroughly with soap and water.
• After first 5 minutes, wash skin for another 15 minutes with soap and water.

**PESTICIDE STORAGE**

Do not store or transport in unlined metal containers. Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Do not apply this product in a way that will contact workers or other persons.

**ECOLOGICAL HAZARDS**

This chemical is toxic to aquatic plants, fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, rivers, ponds, streams, oceans, or other waterways in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not pollute waterways containing this product.

**CONTAINER DISPOSAL**

Nonrefillable container. Do not reuse or refill this container. Three rinse or pressure rinse container (or equivalent) pro

**NOTICE**

SAPSTAIN Control Booster NP-1 Additive is recommended for the protection of wood and wood products, such as landscape timbers, fences, posts, Formosan termite piles, cross ties, decks, and similar exterior structures from mold and mildew. Treat southern yellow pine, hemlock, ponderosa pine and other soft woods with 21-68 ppm SAPSTAIN Control Booster NP-1 Additive (0.23-0.73 pound or 2.7-8.7 fluid ounce of SAPSTAIN Control Booster NP-1 Additive per 1000 gallons) as an aqueous dip, pressure or spray treatment for mild to mildew control. Under extreme mildew conditions, treat with 100 ppm SAPSTAIN Control Booster NP-1 Additive (1.37 pound or 24.4 fluid ounce per 1000 gallons of pesticide treatment solution. May be used at higher concentrations as the end use product formulation does not exceed a maximum concentration of 48 ppm active ingredients. Thoroughly wet and allow to dry. A single application of spray box equipped with effective mist elimination may be effective in controlling more severe mildew conditions. Sapstain Control Booster NP-1 Additive is not intended for use on other species and certain exterior components, temperature, humidity, storage conditions and inoculum pressure. Ensure that the treatment conditions are such that the wood and exterior are uniformly covered with the treatment solution. Monitor spray booth emissions to ensure proper concentrations are being maintained.

**WARNING**

This product is corrosive to mild steel.

**FIRST AID**

**KEEP OUT OF REACH OF CHILDREN**

**ACTIVE INGREDIENTS**

- Chloride isothiazolin
- 4-Chloro
- 2-Methyl-4-isothiazolin-3-one

**NERT INGREDIENTS**

- 4-Chloro
- 2-Methyl-4-isothiazolin-3-one

**PHYSICAL AND CHEMICAL HAZARDS**

This product is corrosive to mild steel.

**PESTICIDE DISPOSAL**

Pesticides are hazardous. Improper disposal of excess brand or residue is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Plant Health or State Agricultural Pest Control Authority or the Hazardous Waste Disposal office at the nearest EPA Regional Office for guidance.
