Kills Fleas, Flea Eggs & Flea Larvae
Kills Ticks & Lice
Kills all stages of ticks, including those that may transmit Lyme disease.

From Developing Fleas:
Kills newly emerged fleas before they lay eggs. Kills adult fleas which may be laying eggs. Prevents fleas from developing for up to six weeks after application.

Prevents Flea Eggs & Larvae:
Kills flea eggs before they hatch. Tevrapet® FirstAct™ Plus for Cats remains effective even after bathing, water immersion, or exposure to sunlight. Tevrapet® FirstAct™ Plus for Cats can also be used for the control of flea eggs that are not on your cat. For best control of fleas, apply once every 30 days.

Prevents Adult Fleas:
Kills adult fleas which may be laying eggs. Prevents adult fleas from laying eggs for up to six weeks after application.

Prevents Lice:
Kills chewing lice for at least 30 days. Tevrapet® FirstAct™ Plus for Cats contains the active ingredients fipronil and (S)-methoprene that effectively target fleas, ticks, and chewing lice.

Applicators:
3 applicators each containing 0.017 fl. oz. NET CONTENTS: 0.051 fl. oz.

Active Inactive Ingredients:
ACTIVE INGREDIENTS: fipronil 19.6%, (S)-methoprene 0.7%
OTHER INGREDIENTS: 78.4%
TOTAL: 100.0%

How to Open:
See label insert for opening instructions.

How To Apply:
To apply Tevrapet® FirstAct™ Plus for Cats: Your cat needs to be dry at the time of application and remain dry for 24 hours after application. Part the hair at the chosen application spot and squeeze the applicator to apply the entire contents to the skin and allow the product to air dry before allowing your cat to lick and ingest the product. Carefully avoid allowing the product to come into contact with your eyes, mouth, or nose. Proper placement of the product on your cat will minimize the opportunity for the cat to lick and ingest the product.

Caution:
KEEP OUT OF REACH OF CHILDREN
DO NOT USE ON DOGS
MISAPPLIED (wrong animal or time of application) can cause harm to you and your cat.
NO Exceptions will be made.

Side Effects:
SIDE EFFECTS: Skin irritation such as redness, scratching or other signs of discomfort. In some cases, vomiting or diarrhea may result due to grooming after treatment. If these or other side effects occur, consult your veterinarian or call us at 1-800-775-9416.

Storage and Disposal:
STORAGE AND DISPOSAL. Store container out of reach of children and pets and away from heat, open flames and adequate light. Dispose of remaining product, applicators, and wrappings in trash or offer for recycling if available.

Kills Fleas, Flea Eggs and Larvae, Chewing Lice
Kills all stages of ticks, including those that may transmit Lyme disease.
Fast-Acting • Long-Lasting • Waterproof

FIRST AID
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

HOTLINE NUMBER: Have the product container or label with you when calling a poison control center, doctor or going for treatment. You may contact us at 1-800-775-9416 for emergency medical treatment information.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
HAZARDS TO HUMANS.
CAUTION. Harmful if swallowed. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

HAZARDS TO DOMESTIC ANIMALS
For external use on cats only. Do not use on kittens weighing less than 1.5 lbs. and less than 8 weeks of age. DO NOT USE ON DOGS. DO NOT USE ON OTHER ANIMALS. Individual sensitivities, while rare, may occur after using ANY pesticide product. Cats may experience some temporary irritation at the site of product application. If signs persist, or become more severe within a few days of application, consult a veterinarian. If your cat has an unusual reaction to the initial application, consult a veterinarian before repeating treatment. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated, debilitated or aged cats. Call 1-800-775-9416 for 24-hour assistance.

SIDE EFFECTS
Monitor your cat after application. Side effects may include skin irritation such as redness, scratching or other signs of discomfort. In some cases, vomiting or diarrhea may result due to grooming after treatment. If these or other side effects occur, consult your veterinarian or call us at 1-800-775-9416.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not allow children to apply product. TO PREVENT HARM TO YOU AND YOUR CAT, READ THE ENTIRE LABEL AND DIRECTIONS FOR USE BEFORE EACH USE. FOLLOW ALL DIRECTIONS AND PRECAUTIONARY STATEMENTS CAREFULLY. USE ON CATS ONLY. DO NOT USE ON RABBITS OR OTHER ANIMALS.

Precaucion al consumidor: si usted no puede leer ingles, no use este producto hasta que la etiqueta le haya sido explicada ampliamente. (To the user: If you cannot speak English, do not use this product until the label has been fully explained to you.)

RESTRICTIONS
Do not use on dogs, rabbits, or other animals. Do not apply more than once every 30 days. Do not bathe or allow your cat to swim for 24 hours after application. Do not allow your cat to ingest this product. Do not use on kittens under 8 weeks of age or weighing less than 1.5 lbs. Do not apply more than one applicator per treatment for one cat regardless of the cat’s weight. In multi-cat households, do not allow cats to groom each other until product has dried.

TevraPet® FirstAct™ Plus For Cats contains the active ingredients fipronil and (S)-Methoprene that effectively target fleas, ticks and chewing lice.

TevraPet® FirstAct™ Plus For Cats is fast-acting, long-lasting, waterproof, and easy to use. TevraPet® FirstAct™ Plus For Cats remains effective even after bathing, water immersion, or exposure to sunlight. TevraPet® FirstAct™ Plus For Cats can also be used for the treatment and control of flea, tick, and chewing lice infestations on breeding, pregnant and lactating queens.

Do not allow your cat to ingest this product. Do not apply to cats weighing less than 1.5 lbs. and less than 8 weeks old. Do not use more than one applicator per cat.

EPA Reg. No. 88052-16-92413

Use ONLY on Cats Weighing over 1.5 lbs. AND 8 WEEKS OR OLDER
DO NOT USE ON DOGS
STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE. Store unused product in original container only, out of reach of children and animals. PESTICIDE DISPOSAL. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

CONTAINER HANDLING. Nonrefillable container. Do not reuse or refill this container.

HOW TO APPLY:
1. Prepare applicator as shown in “How to Open”.
2. Your cat needs to be dry at the time of application and remain dry for 24 hours after application. Part the hair on the neck at the base of the skull until the skin is visible. Place the tip of the applicator on the skin and squeeze the applicator to apply the entire contents directly on the skin of your cat. Do not apply more than one applicator per treatment for one cat regardless of the cat’s weight. Do not allow your cat to ingest this product, or get the product into their eyes. Proper placement of the product on your cat will minimize the opportunity for the cat to lick and ingest the product. Carefully avoid allowing the product to run off the side of the cat. Separate treated cat from all other cats and pets until product has dried.
3. Discard empty applicator and packaging as described in the Storage and Disposal section.
4. Under normal conditions the product remains effective for a month. In cases of severe flea infestation, retreatment may be necessary earlier than one month. If reinfestation is severe at the initiation of treatment, once a week treatment is permitted not to exceed 4 weeks. Once flea control is attained, return to a monthly application schedule.

HOW TO OPEN:
1. Tear through perforation.
2. Fold back the safety tab.
3. Cut with scissors to open applicator.

FREQUENCY OF APPLICATION
Fleas: When used monthly, TevraPet® FirstAct™ Plus For Cats kills all stages of the flea life cycle and prevents reinfestation of fleas on your cat for up to six weeks after application. Although TevraPet® FirstAct™ Plus For Cats can control fleas for up to six weeks, if there is a high risk of re-infestation of fleas on your cat, or if the cat has fleas which may cause flea allergy dermatitis, apply TevraPet® FirstAct™ Plus For Cats once every 30 days.

Ticks: TevraPet® FirstAct™ Plus For Cats kills all stages of the tick life cycle (larvae, nymph, and adult) for at least 30 days. For best control of ticks, apply once every 30 days.

Chewing Lice: TevraPet® FirstAct™ Plus For Cats kills chewing lice for at least 30 days. For best control of chewing lice, apply once every 30 days. Do not reapply TevraPet® FirstAct™ Plus For Cats for 30 days.

FREQUENCY OF APPLICATION
To kill fleas, flea eggs and larvae, all stages of Brown Dog ticks, American dog ticks, Lone Star ticks, and Deer ticks which may carry Lyme disease, and chewing lice, apply this product to cats and kittens weighing over 1.5 lbs. and 8 weeks or older as follows.

**How to Open:**

1. Tear through perforation.
2. Fold back the safety tab.
3. Cut with scissors to open applicator.

**How to Apply:**

1. Prepare applicator as shown in “How to Open”.
