LuminOre Copper Touch Antimicrobial Surfaces

Laboratory testing has shown that when cleaned regularly this surface:
- Continuously reduces bacterial contamination, achieving 99.9% reduction within 2 hours of exposure.
- Kills greater than 99.9% of Gram-negative and Gram-positive bacteria within 2 hours of exposure.
- Delivers continuous and ongoing antibacterial action, remaining effective in killing greater than 99.9% of bacteria within 2 hours.
- Kills greater than 99.9% of bacteria within 2 hours and continues to kill 99% of bacteria even after repeated contaminations.
- Helps inhibit the buildup and growth of bacteria within 2 hours of exposure between routine cleaning and sanitizing steps.
- This product continuously kills bacteria left behind (by dirty hands) on the surface killing more than 99.9% of bacteria within 2 hours.

*D. Staphylococcus aureus, Enterobacter aerogenes, Methicillin-Resistant Staphylococcus aureus (MRSA), Escherichia coli 0157:H7 and Pseudomonas aeruginosa

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Proper Care and Use: Clean and sanitize according to standard practices. Healthcare facilities must maintain the product in accordance with infection control guidelines. The use of this surface is a supplement to and not a substitute for standard infection control practices; users must continue to follow all current infection control practices, including those practices related to cleaning and disinfection of environmental surfaces. This surface has been shown to reduce microbial contamination, but does not necessarily prevent cross contamination.

This surface may be subject to recontamination and the level of active bacteria at any time will depend on the frequency and timing of recontamination and cleanliness of the surface (among other factors). In order to have proper antimicrobial effect, this product must be cleaned and maintained according to the directions for use.

Do not wax, paint, lacquer, varnish, or otherwise coat this product.

Routine cleaning to remove dirt and film is necessary for good sanitation and to assure the effective antibacterial performance of this surface. Cleaning agents typically used for traditional hard, non-porous touch surfaces are permissible. The appropriate cleaning agent depends on the type of soil and the measures of sanitation required. Normal tarnishing or wear of this surface will not impair antibacterial effectiveness.

Not approved for direct food contact or food packaging uses.

STORAGE AND DISPOSAL

Dispose of by recycling or put in trash.

WARRANTY STATEMENT

If used as intended, this product is wear-resistant and the durable antibacterial properties will remain effective for as long as the product remains in place and is used as directed.

EPA Reg. No. 89266-1 EPA Est. No. 88450-CA-1
Manufactured by:
LuminOre Copper Touch, 6060 Corte del Cedro, Carlsbad, CA 92031

Back/Insert Panel:

Front Panel:

Touch surface made from:
LuminOre Copper Touch Antimicrobial Surfaces

Active Ingredient:
Copper.......................... 85.0%
Other........................... 15.0%
Total............................. 100.0%
*Contains 3.8 oz. of copper per sq ft

EPA Reg. No. 89266-1 EPA Est. No. 88450-CA-1

NET WEIGHT: 4 oz/sq. ft of LuminOre Copper Touch Antimicrobial Surfaces
