Precautionary Statements

HAZARD TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish, aquatic invertebrates and clams.

PHYSICAL OR CHEMICAL HAZARD: Do not mix with other chemicals. This product is a reducer. Keep away from oxidizing agents.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE

How to use: In The Swim algaecide 60 plus is used to control the growth of algae in swimming pools, exterior spas, whirlpools, hot tubs, decorative fountains and containerized ponds that do not contain fish. For maximum effectiveness, pools, spas, whirlpools, hot tubs, decorative fountains and containerized ponds containing heavy growth of algae must be cleaned prior to using this product.

Routine use: For pools having just visible algae growth, add an initial dose of 6 to 10 fluid ounces of In The Swim algaecide 60 plus per 10,000 gallons of water and remove settled algae. For treatment of freshly cleaned and filled pools, add 6 to 11 fluid ounces of In The Swim algaecide 60 plus per 10,000 gallons of water. Subsequent additions of 2 to 4 fluid ounces of In The Swim algaecide 60 plus are required every 5 to 7 days as needed.

For treatment of pools that have been properly treated during the swimming season pools have some visible algae growth, add 12 to 16 fluid ounces per 10,000 gallons of water. If pools have been properly treated during the swimming season and are free of visible algae, add 6 to 10 fluid ounces of In The Swim algaecide 60 plus per 10,000 gallons of water. If at the end of the swimming season pools have some visible algae growth, add 12 to 16 fluid ounces per 10,000 gallons. It is necessary that a uniform distribution of In The Swim algaecide 60 plus throughout the water and the pool be made for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the off-season.

ALGMIX 60 plus is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. In The Swim algaecide 60 plus can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix In The Swim algaecide 60 plus with concentrated dry or liquid chlorine products.

Storage and Disposal:

Do not contaminate water, food or feed by storage or disposal. STORAGE: Keep product in its original, tightly closed container when not in use. STORAGE area must be locked and inaccessible to children and pets. PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on the site or at an approved waste disposal facility. CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available, or discard in trash or in a sanitary landfill.
