QUÍX PLUS
WATER RELEASED SURFACE SANITIZING TOWEL
TOALLA SANITIZANTE DE SUPERFICIES ACTIVADA CON AGUA
LINGE HYDRAFectEUR POUR DESINFECTRER LES SURFACES

These towels are pre-treated with sanitizing chemicals for use in restaurants and other foodservice establishments to sanitize the following food-contact surfaces: stainless steel, chrome, vinyl, tile, glass and other plastics. These dry towels must not be pre-moistened or used on any wet surface before being activated by water as directed. When activated or immersed in water, they create a sanitizing solution for use on clean and non-nicorous food-contact surfaces, tanks, cutting surfaces, slicers or chopping machines, cabinets and countertops. These towels must be immersed in water and agitated 10 times to activate the sanitizing solution that will last and continue acting on pre-cleaned food-contact surfaces, when used as directed. The activated towels are to be stored in the sanitizing solution between uses.

PRECAUTIONARY STATEMENTS:
HARMFUL TO HUMANS AND DOMESTIC ANIMALS

WARNING: Dry towel causes substantial, but temporary eye irritation. Harmful if swallowed or absorbed through the skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after contacting. Before handling clothing, use non-flowering detergents. VAPOR HARMFUL. Avoid direct food contact. Wash thoroughly with soap and water after eating or handling. Directive for handling clothing and non-flowering detergents before meals. FIRST AID: IF IN EYES: Flush eyes open and rinse slowly and gently with water for 15-30 minutes. Remove contact lenses, if present, after the first 8 minutes. Avoid contact lenses. Call a poison control center or doctor for medical treatment advice. IF INHALED: Call a poison control center or doctor for medical treatment advice. IF INGESTED: Call a poison control center or doctor for medical treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Save the product container and original label for use when calling a poison control center or doctor or for further medical advice.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. These dry towels must not be pre-moistened or used on any wet surfaces before being activated by immersion in one gallon of water, as directed below. Proceed as follows: Immerse a 200 psi active sanitizing solution and the one-time solution in one gallon of water up to 200 psi hardness (CAO2). Remove 10 times to activate the cleaning and sanitizing solution which, as directed, will neutralize the following pre-cleaned, non-nicorous surfaces: stainless steel, chrome, tile, glass, vinyl and other plastics which are incorporated in counters, storage cabinets, refrigeration, appliances, food processing equipment, slicing machines, work tables, cooking and eating utensils, tracks, dishes, sinks, and other equipment. After washing or cleaning food particles and soil from surfaces to be sanitized, as a pre-treatment, in-process, or post-treatment. Wash surfaces thoroughly with a good detergent or compatible cleaner, followed by a water rinse. To minimize cross-contamination, use a different cutting board, knife, or other utensil for each food item. After the solution has dried, inspect and clean the work area. Act as a pre-treatment, in-process, or post-treatment. Wash surfaces thoroughly with a good detergent or compatible cleaner, followed by a water rinse. To minimize cross-contamination, use a different cutting board, knife, or other utensil for each food item. After the solution has dried, inspect and clean the work area. Keep out of reach of children.

KEEP OUT OF REACH OF CHILDREN
WARNING: See side panels for additional precautionary statements.
