MIXING DIRECTIONS:  

Please shake very well before use  
Mix entire contents of this container with 120 ounces of water (R.O. water recommended) to create one gallon of ready-to-use product. This container will make 1 gallon of Powdery Mildew Killer.

DIRECTIONS FOR USE:  Please shake well prior to use.  
For use as a Spray Application. Apply generously to entire plant. Spray on top of and beneath leaf surfaces while applying to stems and branch junctions and fully wetting all areas as needed. Store at 60°F - 85°F.

INDOOR PROCESS:  
Keep indoors at 68°F - 80°F. Air dry plant completely, but do not rinse. Repeat process every 5-7 days as needed.

OUTDOOR PROCESS:  
Generously apply and wet all surfaces of affected plants. Repeat process every 5-7 days as needed.

DISPOSAL: Reuse of this container is prohibited. Please dispose this recycle container at a container collection site, which can be found by contacting your municipality for the location nearest you.

WARNING:  
Keep away from eyes. If contacted, remove by flushing eyes well with water.

KEEP OUT OF REACH OF CHILDREN  
The buyer undertakes all accountability for correct usage of this product.
