MON 87411 × DAS-59122-7

Insect-Protected, Herbicide-Tolerant Corn
(OECD Unique Identifier: MON-87411-9 × DAS-59122-7)

Active Ingredients:
dsRNA transcript comprising a DvSnf7 inverted repeat sequence derived from Diabrotica virgifera virgifera, and the genetic material (vector PV-ZMIR10871) necessary for its production in MON 87411 × DAS-59122-7 corn (OECD Unique Identifier MON-87411-9 × DAS-59122-7) ...........................................................................................................................................≤ 0.00000044%*

Bacillus thuringiensis Cry3Bb1 protein and the genetic material (vector PV-ZMIR10871) necessary for its production in MON 87411 × DAS-59122-7 corn (OECD Unique Identifier MON-87411-9 × DAS-59122-7) ...........................................................................................................................................≤ 0.0041%*

Bacillus thuringiensis Cry34Ab1 protein and the genetic material (vector PHP17662) necessary for its production in MON 87411 × DAS-59122-7 corn (OECD Unique Identifier MON-87411-9 × DAS-59122-7) ...........................................................................................................................................≤ 0.012%*

Bacillus thuringiensis Cry35Ab1 protein and the genetic material (vector PHP17662) necessary for its production in MON 87411 × DAS-59122-7 corn (OECD Unique Identifier MON-87411-9 × DAS-59122-7) ...........................................................................................................................................≤ 0.0026%*

Other Ingredients:
The marker protein CP4 EPSPS and the genetic material (vector PV-ZMIR10871) necessary for its production in MON 87411 × DAS-59122-7 corn (OECD Unique identifier MON-87411-9 × DAS-59122-7) ...........................................................................................................................................≤ 0.036%*

The marker protein PAT and the genetic material (vectors PHP17662) necessary for its production in MON 87411 × DAS-59122-7 corn (OECD Unique identifier MON-87411-9 × DAS-59122-7) ...........................................................................................................................................≤ 0.0001%*

*Percentage (wt/wt) on a dry weight basis for whole plant (forage)
KEEP OUT OF REACH OF CHILDREN

CAUTION

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

This plant-incorporated protectant (PIP) may be combined through conventional breeding with other registered plant-incorporated protectants that are similarly approved for use in combination, through conventional breeding, with other registered plant-incorporated protectants to produce inbred corn lines and hybrid corn varieties with combined pesticidal traits.

This product may be used for breeding purposes, agronomic testing, increasing inbred seed stocks, and producing hybrid seed on up to a total of 20,000 acres per county and up to a combined United States (US) total of 250,000 acres per plant incorporated protectant (PIP) active ingredient per registrant per year. Commercial plantings of this product, for the purposes of grain production and controlling corn insect pests, are prohibited.

Harvested seed are not allowed for sale as a commercial seed in the US under the current conditions of this registration but any non-treated seed containing MON 87411 x DAS-59122-7 may be sold as grain.

There are no refuge requirements for planting MON 87411 x DAS-59122-7 Corn.
