SOFT BAIT
Rodenticide

KILLS RATS, MICE & MEADOW VOLES®
Kills Warfarin Resistant Norway Rats and House Mice

ACTIVE INGREDIENT:
Bromadiolone (CAS #28772-56-7): 0.005%
OTHER INGREDIENTS: 99.995%
†Contains Denatonium Benzoate TOTAL 100.000%

KEEP OUT OF REACH OF CHILDREN
CAUTION
See back panel for First Aid and additional precautionary statements.

†Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat

Net Weight:
16 lbs (7.2 kg)
attracting rodent infestations. Fence and perimeter baiting, beyond 100 feet from a structure as defined
constructed in a manner so as to be vulnerable to commensal rodent invasions and/or to harboring or
must be used in and within 100 feet of agricultural buildings and man-made agricultural structures
Johnson’s woodrat* (Neotoma umbrina), White-throated woodrat* (Reithrodontomys humuli), Golden mouse* (Mus musculus), Roof rat (Rattus norvegicus)
USE RESTRICTIONS:
Do not use in homes or human residences. Do not place near or inside ventilation duct openings. Do not
contaminate water, food, feedstuffs, food or feed handling equipment, or milk or meat handling equipment
or surfaces that come into direct contact with food. When used in USDA inspected facilities, this product
must be applied in tamper-resistant bait stations. Do not broadcast bait.
Do not sell this product in individual containers holding less than 8 pounds of bait.
Burrow baiting with Hawk® Soft Bait Rodenticide is prohibited.
SELECTION OF TREATMENT AREAS: Determine areas where rats, mice, or meadow voles* will most likely find and consume
the bait. Generally, these areas are along walks, by growing openings, in corners and concealed places, between floors and
walls, beside burrows, or in locations where rats, mice, or meadow voles* or their signs have been seen. Protect bait from
rain and snow. Remove as much alternative food as possible.
APPLICATION DIRECTIONS:
RATS: Place 8 to 40 sachets per placement usually at intervals of
15 to 30 feet in infested areas. Maintain an uninterrupted
supply of fresh bait for at least 10 days or until signs of rat
activity cease.
MICE AND MEADOW VOLES*: Place 1 to 2 sachets per
placement usually at intervals of 8 to 12 feet in infested areas. Up to 6 sachets may be needed at points of
very high activity. Maintain an uninterrupted supply of fresh bait for at least 15 days or until signs of mice
or meadow vole* activity cease.
FOLLOW-UP: Replace contaminated or spoiled bait immediately. Wearing gloves, collect and dispose of all
dead, exposed animals and leftover bait. To prevent reinfestation, limit sources of rodent food, water,
and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous source
of infestation is present, establish permanent bait stations and replenish as needed.
Bait may be removed from sachet and placed in a feeding device that secures the unwrapped bait in a bait
station. Discard empty wrapper in the trash.
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed or absorbed through the skin. Keep away from children, domestic animals
and pets. Do not get in eye or on skin or clothing.
All handlers (including applications) must wear shoes plus socks, and waterproof gloves. Any person who
removes carcasses or unused bait following application of this product must wear gloves.
User Safety Requirements
Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables,
detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using
nitrates or using the toilet and change into clean clothing.
ENVIRONMENTAL HAZARDS
This product is extremely toxic to fish, birds and other wildlife. Dogs, cats, and scavenging mammals and
birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply this product
directly to water or to areas where surface water is present or to intertidal areas below the mean high water
mark. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not
contaminate water when disposing of equipment wash water or rinsate.

KILLS RATS, MICE & MEADOW VOLES*

Norway rats, roof rats, and house mice may consume a lethal dose in one night's
feeding with first dead rodents appearing four or five days after feeding begins.

ACTIVE INGREDIENT:
Bromadiolone (CAS 608772-56-7) ........................................ 0.005%

NOTE TO VETERINARIAN

If animal eats bait, call veterinarian at once.

NOTE TO PHYSICIAN

If swallowed or absorbed through the skin, this material may reduce the clotting ability of the blood and
cause bleeding. If ingested, administer Vitamin K₁ intramuscularly or orally. Refer as necessary based on monitoring of prothrombin times.

DIRECTIONS FOR USE

Read this entire label and follow all use directions and use precautions. Use only for
the sites, pests, and application methods described on this label.

IMPORTANT: Do not expose children, pets, or non-target animals to rodenticides. To help to prevent exposure:
1. Store unused product out of reach of children and pets.
2. Apply baik in locations out of reach of children, pets, domestic animals and non-target wildlife, or in
 tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children
 under six years of age, and must be used in a manner that prevents such children from reaching into bait
 compartments inside containing bait. It is safe to be eaten from bait stations when they are filled, units
 must be secured or otherwise immobilized. Stationary bait stations are needed in areas open to housed
 livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container and unused, spoiled, or unconsumed bait as specified on this label.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and
pets. Keep containers closed and away from other chemicals.

Pesticide Disposal: Wastes resulting from the use of this product may be placed in trash or delivered
to an approved waste disposal facility. Do not apply this product with water.

Container Handling: Nonrefillable containers. Do not reuse or refill this container. [Plastics] Offer for
recycling or reconditioning or purchase and dispose of in a sanitary landfill or by incineration. In most
states, burning is not allowed. [Paper] Dispose of empty container by placing in trash, at an
approved waste disposal facility or by incineration. In most states, burning is not allowed.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, expressed or
implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of
use and/or handling of this material when such use and/or handling is contrary to label instructions.

KEEP OUT OF REACH OF CHILDREN

CAUTION:

If animal eats bait, call veterinarian at once.
