POOL SANITATION WITH 1 INCH TABLETS

The BioGuard® Care System has three important parts that help you maintain crystal blue sparkling water:
- A sanitizer to control bacteria
- A shock to destroy contaminants*
- A preventative algicide to stop algae before it starts

* such as perspiration, suntan lotions, Keloids, hair sprays, body oils, urine, pet dander, and cosmetics

All parts of the BioGuard Care System are vital to achieve beautiful water.

This product is one of the chlorinating sanitizer products for the BioGuard Care System. This product with SilGuard®, the compound action tablet that does more:
- Kills bacteria and controls algae
- Prevents metal staining and corrosion
- Reduces scale formation
- Makes water soft and smooth
- Softens water

SilGuard protects your pool equipment for longer life. It coats metal surfaces protecting them from corrosion and rust. It prevents scale formation in your pool circulation system and on pool surfaces. SilGuard makes the water soft and silky smooth.

This product also contains SUNGEL®, which protects chlorine from sunlight.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Ensure all pool equipment is working properly. Clean or backwash filter following manufacturer's directions. Adjust pH to between 7.2-7.6. In chlorinated pools, add stabilizer to establish a minimum stabilizer level of 30-40 ppm to reduce the degradative effects of sunlight upon the chlorine residual. When using other products as outlined in the directions for this product, always follow directions on those products.

Do not add other chemicals into the feeder or skimmer where this product is in use as a fire or explosion may occur. To avoid damage to pool surface or materials do not allow product to come in direct contact with these materials. Do not throw tablets directly into pool.

INITIAL TREATMENT:
If water is cloudy or green, super chlorinate pool with appropriate shock product until pool is clear. Add 16 ounces of this product (approximately 27 tablets) per 10,000 gallons of pool water to feeder or skimmer. Adjust the feeder or skimmer following manufacturer's instructions to establish a free available chlorine level between 1-4 ppm. Allow water to circulate at least 4 hours and then test for the free available chlorine level. When free available chlorine level is adjusted to 1-4 ppm, add the preventative algicide appropriate for your needs.

ROUTINE MAINTENANCE:
Add 16 ounces of this product (approximately 27 tablets) per 10,000 gallons of pool water per week, or as often as needed, to the feeder or skimmer to maintain a constant free available chlorine level of 1-4 ppm. Sunlight, rainfall, temperature, number of swimmers, and frequency of pool use affect the rate of chlorine residual loss so check the filter or feeder often and refill as needed.

Re-entry into treated swimming pools is prohibited when free available chlorine levels are above 4 ppm due to risk of body injury.

STORAGE AND DISPOSAL:
Keep this product dry in original tightly closed container when not in use. Store in cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container and possible flood area with large amounts of water to dissipate all material before discarding this container. Do not contaminate food or feed by storage or disposal. CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Offer for recycling. If unlabelled, please return to your local recycling center or the manufacturer's distribution center.

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER Corrosive. Causes irreversible eye damage and skin burns. May be fatal if swallowed. Harmful if absorbed through skin. Harmful if inhaled. Avoid breathing dust or fumes. Do not get in eyes, on skin or on clothing. Wear goggles or safety glasses, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

EPA Reg. No. 5160-545
EPA Cert. No. 5160-CA-19, 3616-CA-10
Letter designation in code printed above or below on container identifies actual establishment.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Wash skin and clothing immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an emergency number. IF SKIN IRRITATION: Take off all contaminated clothing. Wash skin with plenty of water. If any of the above misconceptions are not possible, place container in open air or flood area with large volumes of water.

PHYSICAL OR CHEMICAL HAZARDS: CONTAINS A STRONG CODING AGENT: Do not mix with other chemicals. Mix only with water. Never add water to product. Away from all products. Add slowly to large quantities of water. When using automatic dispenser of sanitizing product to basins. Never dry store. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals will start a chemical reaction and generate heat decomposition. Do not store container. Do not store container to dissipate all material before discarding this container. Do not contaminate food or feed by storage or disposal. CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Offer for recycling. If unlabelled, please return to your local recycling center or the manufacturer's distribution center.

NOTE: User assumes all responsibility for use not in accordance with directions.
