**Swimming Pool Algae Preventative**

This product is formulated to complement swimming pool water being treated with the BioGuard SoftSwim System. It is effective against the growth of algae. The wetting agent in this product allows it to penetrate small crevices where algae are likely to form. This product is efficient and non-staining when used as directed. This product will not corrode or algae forming bacteria actually kills as pool water temperature increases. The residual effectiveness of this product needs to stabilize the total chemical treatment system.

**Storage and Disposal:** Keep this product in original tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. Do not contaminate water, food, or feed by storage or disposal. CONTAINER DISPOSAL: Non-returnable container. Do not reuse or refill this container. Wash container and put in trash or offer for recycling if available.

**Precautionary Statements:**

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

KEEP OUT OF REACH OF CHILDREN. DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed. Do not get in eyes, on skin or on clothing.
