This product provides “pre-emergence” control of crabgrass (including the large, smooth, and southern species) when applied according to label directions during the first 4-6 weeks after initial seeding. It also prevents early post-emergence damage to the early, early stages of crabgrass in well-established lawns and ornamental turf. Post-emergence crabgrass control will only be achieved if you do the following by the time that crabgrass emerges: (a) do not allow your lawn or turf to burn out, (b) ensure that you first assess the crabgrass in the plots you want (c) keep the plots free of weeds by caring for them such that you may be able to use them for research purposes. Do not apply this product to established lawns or ornamental turf. DO **NOT** apply this product to established lawns or ornamental turf. The use of this product on certain weeds of Concerning Bluegrass, such as 'Cataline', 'Cerne', 'Cerevel', and 'Sedona' and on certain weeds of Concerning Bluegrass, such as 'Cataline', 'Cerne', 'Cerevel', and 'Sedona' and so forth. This product may be applied as a single application, as a split application, or as a sequential application for crabgrass control. DO NOT apply more than 7.5 lb of this product per 1,000 sq ft per application, and no more than 22.5 lb of this product per 1,000 sq ft per season. Spring Applications For best results, apply this product in the spring or early summer. This product should be applied at the appropriate rate corresponding to one of the three control programs listed in Table 1, depending on the location, the turf type, the application period, or the specific use, such as seed cultivation, irrigation and fertilization should be followed. However, it is not recommended to use this product within 30 days of purchase to the place of purchase. DO NOT use this product on established lawns or ornamental turf that are well-established. 2.75 lb/1,000 sq ft (high-cut turf) or 5.66 lb/1,000 sq ft (low-cut turf). This product may be used on seeded, sodded, or sprigged lawns and ornamental turf that are well-established. For best results, use mechanical or power seeding equipment (slit seeders) designed to give good seed to soil contact. DO **NOT** apply the product to new or disturbed turf. Bluegrass, Kentucky Bluegrass, Fescue varieties have been found to be sensitive to this product: 'Atlanta', 'Banner', 'Beauty', 'Biljart', 'CF-2', 'Enjoy', 'HF-93', 'Highlight', 'Ivalo', 'Jamestown', 'Koket', 'Majenta', 'Mary', 'Pennlawn', 'Tamara', 'Talgato', 'Walnut' and 'Walby'. It is a violation of Federal law to use this product in any manner inconsistent with its labeling. BLUEGRASS, KENTUCKY BLUEGRASS, FESCUE VARIETIES HAVE BEEN FOUND TO BE SENSITIVE TO THIS PRODUCT: 'ATLANTA', 'BANNER', 'BEAUTY', 'BILJAR', 'CF-2', 'ENJOY', 'HF-93', 'HIGHLIGHT', 'IVALO', 'JAMESTOWN', 'KOKET', 'MAJENTA', 'MARY', 'PENNLAWN', 'TAMARA', 'TALGATO', 'WALNUT' AND 'WALBY'.
