**NOTE FOR USE on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.**

Product protected by U.S. Patent No. 4,692,184. Other patents pending.

Read the entire label before using this product. Use only according to label instructions.

**NOTICE:** Before using this product, read the Use Precautions, Warranty Statements, Directions for Use, and the appropriate information in accordance with the terms and conditions of the sale and warranty of this product. Check the lot number on the product container and the label with the information in this bulletin. Do not use this product if the lot number differs.

This product may be applied as a single application, as a split application, or as a sequential application for crabgrass control. Do not apply more than 5.46 lb of this product per 1,000 sq ft per application, and no more than 16.38 lb of this product per 1,000 sq ft per year. Post-emergence control is limited; see “Crabgrass Control” and “Precautions” sections above.

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**PRECAUTIONARY STATEMENTS**

**贮藏和处理**

Do not contaminate water, food, or feed by storage or disposal. **PESTICIDE STORAGE:** Store this product only in its original container in a dry, cool, secured storage area. **WASTE DISPOSAL:** Wastes resulting from the use of this product that cannot be used or returned to the manufacturer shall be disposed of in a manner that will not result in contamination of water, food, or feed. **LAW AND LIABILITY:** This product may not be used on any portion of a property where irrigation water is used for domestic purposes or the water is conveyed to a public water supply. **NOT FOR USE ON TURF GRASS REGIONS**

**USE CONDITIONS CAUTION**

**INERT INGREDIENTS:**

- Sodium bicarbonate
- Dry starch
- Calcium carbonate
- Sodium alginate
- Sodium bentonite
- 5-10% polyethylene glycol (PEG) or polyvinyl alcohol (PVA)
- Methyl parahydroxybenzoate
- Propyl parahydroxybenzoate

**PRODUCT DIRECTIONS FOR USE**

This product provides “early-post-emergence” control of crabgrass (including the large, smooth, and slender species) during the early stages of crabgrass growth. Post-emergence control of grasses is also possible if applied before the grasses become well-established and have formed a mature crown. Early-post-emergence crabgrass control will only occur when this product is applied in a manner that will not affect the use of this product for sod or turf, and the storage and disposal instructions. If the Warranty statements are not accepted, the return product unopened within 1 year from the date on which it was manufactured in the USA or 180 days from the date on which it was manufactured outside of the USA in new, unused, and sealed container. If the Warranty statements are not accepted, the return product unopened within 1 year from the date on which it was manufactured in the USA or 180 days from the date on which it was manufactured outside of the USA in new, unused, and sealed container. If the Warranty statements are not accepted, the return product unopened within 1 year from the date on which it was manufactured in the USA or 180 days from the date on which it was manufactured outside of the USA in new, unused, and sealed container.
