Victor® Mouse-A-WAY™ is a naturally derived and effective outdoor rodent repellent. To prevent rodents from entering your home, garage, cabin, trailer, barn, stable, woodpile, trashcan and other areas around your home, apply Mouse-A-WAY™ as a safe and trusted preventative measure.

Mouse-A-WAY™ contains a blend of essential oils, which are absorbed into biodegradable pellets that allow users to create a perimeter boundary around a dwelling to deter rodent entry. The combination of natural essential oils and biodegradable materials produces a product that is non-toxic for pets, family, and the environment.

**APPLICATION DIRECTIONS:**
For optimal results, first seal all structural foundation holes and any other areas where rodents may be able to enter the dwelling. Next, remove all potential sources of food such as pet food, birdseed, and table scraps.

Apply Mouse-A-WAY™ in bands surrounding the area to be protected. Use bands approximately 1-3 inches wide. Reapply when the scent has become faint or pellets have begun to degrade.

**STORAGE AND DISPOSAL:**
Store and transport in an upright position. Store in original container in a cool, dry, and well-ventilated location inaccessible to children and pets. Do not reuse empty container. Discard empty container in trash.

Satisfaction Guaranteed: If for any reason you are not 100% satisfied, please contact Woodstream and a refund will be honored with proof of purchase.

This product has not been registered by the United States EPA. Woodstream Corporation represents that this product qualifies for exemption from registration under the FIFRA.

**For increased efficacy increase the width of the band.**
