A Suspension Concentrate (SC) for Insect and Mite Management on Commercial Ornamental Plants in Greenhouses, Screen and Shade Houses, Outdoor Containers, and Field-Grown Nursery Stock. Not for Residential Use.

ACTIVE INGREDIENT: % BY WT
Gallatequatine (2-chloroethyl-2,4,5-trichloroethene) 42.0%
OTHER INGREDIENTS: 58.0%
TOTAL: 100.0%
Contains 1 pound of active ingredient per quart.
EPA Reg. No. 86222-53-9887 - EPA Est. No. 53883-1X-002

KEEP OUT OF REACH OF CHILDREN
CAUTION
See inside for First Aid, Precautionary Statements, Directions for Use, Storage And Disposal, and Warranty And Disclaimer.

In case of spills, fire, leaks or accidents call Chemtrec at 1-800-424-2360.

Manufactured for: OHP, Inc.
PC Box 51250, Montana, PA 15451
(800) 356-4547
Net Contents: 1 Pint (16 fl. oz. (473 mL))

FIRST AID
If swallowed:
• Call a poison control center or doctor immediately for treatment advice.
• Have person drink a large amount of water if able to swallow.
• Do not induce vomiting unless told to by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

How to use the product container or label with you when calling a poison control center or doctor, or going for treatment. For 24-hour emergency medical treatment information call 1-800-356-4547.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS
CAUTION
Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Applicators and other handlers must wear:
• Long-sleeved shirt and long pants.
• Chemical-resistant gloves made of barrier laminate, butyl rubber (> 14 mils), nitrile rubber (> 14 mils), neoprene rubber (> 14 mils), natural rubber (> 14 mils), polyvinyl chloride (> 14 mils), or Viton (> 14 mils) and
• Shoes plus socks.

Follow manufacturer’s instructions for cleaning/maintaining PPE. Rinse all PPE and equipment thoroughly with water before reuse. Enforce head protection when handling or applying this product. Use PPE approved by the U.S. Food and Drug Administration (FDA) for use with agricultural pesticides. Follow manufacturer’s instructions for cleaning/maintaining PPE.

ENGINEERING CONTROLS STATEMENT
When handlers use closed systems, enclosable cab, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides (40 CFR 70.2400(a)-(b)), the handler requirements may be reduced or modified as specified in the WPS.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contaminate waters or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS
Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 190. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and accommodations pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval.
AGRICULTURAL USE REQUIREMENTS (continued)
The requirements in this box only apply to uses of this product that are covered by the Miticide Protection Standard. Do not use or allow contact with any treated area during the restricted entry interval (REI) of 12 hours. Hand transplanting of flowers is reconciled with 7 days after application. Pesticides (PE) are required for entry to treated areas that is presented under the Miticide Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, in:
- Overall
- Contact-resistant glass, metal, or nonmetallic, non-durability, non-rubber, non-rubber, non-plastic, non-aluminum, non-copper, or non-iron
- Sheets, paper, or paper

PRODUCT INFORMATION
APPLAUSE may be used on ornamental plants, including conifers and ornamental trees and vines, cacti/succulents, shade/trees, flowering plants, flowering shrubs, and vines in greenhouses, warm and shade houses, outdoor containers, and field grown nursery stock for management of plant-feeding insects.

ACHIEVED. Should moderate spraying of the APPLAUSE spray cover, the addition of a spreader or sprayer sticker may be considered. If addition is warranted, such applications must be followed using the instructions in the section below. NOTICE TO USERS, may result in this from such additions.

When an important is to be used with this product, SPC, Inc. suggests that the use of an acid-resistant contact label, the Chemical Producers and Distributors Association.

Stability/Compatibility with other products:
APPLAUSE is extremely stable over a wide range of pH. It is proven to be physically and chemically stable in tank mix with a wide range of other tank protection products. If tank mixing is planned, evaluate both the physical and chemical (physically) compatibility on a selected group of plants prior to full scale use. See NOTICE TO USERS section below.

NOTICE TO USERS:
APPLAUSE has demonstrated excellent plant safety; however, all species and varieties of ornamental plants have not been tested. If your wish to make an application to an ornamental plant not listed in the label text, place on a similar use site and for a period that is listed on the label, it is suggested that a trial application be performed first.

APPLICATION DIRECTIONS
Mix APPLAUSE at a concentration of 2.8 oz per 120 gal. of water. Do not mix with a contact label, all tank mix products compatible with the tank mix products, or the product per acre. Do not exceed an application rate of 8 oz. of product per acre. Direct spray applications to cover all plant surfaces, especially the undersides of leaves. For extended residual control, apply 8 oz. of product per acre. Do not hand harvest flowers until at least 7 days after application of this product.

CHEMICAL STATEMENT
Do not apply this product through any type of irrigation system.

RESISTANCE MANAGEMENT
APPLAUSE is an excellent tool for growers to use in their integrated pest management programs. Proper application timing of APPLAUSE may delay or reduce the number of subsequent applications of other chemicals, extending their effective life as miticide management products.

IPM/COMPATIBILITY WITH BENEFICIAL MITES, PREDATORY INSECTS
APPLAUSE has proven to have limited no effect on beneficial insects, particularly predatory insects.

APPLAUSE can be effectively used in IPM programs employing beneficial insects.
STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal.
Pesticide Storage: Store in original container, tightly closed, in a safe place.

PESTICIDE STORAGE: Store in a safe place.

CONTAINER DISPOSAL: Nonrefillable container (five gallons or less). Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Clean container promptly after emptying. Disposal by following. Empty the remaining contents into an application equipment or a blue tack and drain for 10 seconds after the flow stops to drain. All the container lid must be removed and checked with water and recap. Store container 10 seconds. Pour residue into application equipment or a blue tote or store excess for later use of disposal. Drain the container after the flow begins to drain. Repeat this procedure two more times. Other for emptying, reconditioning, or purging and disposal of container in a container landfill, or by incineration, if allowed by state and local authorities. By burning or by incineration if burned, dry out of smoke.

LIMITATION OF WARRANTY AND LIABILITY

APPLAUSE™

SCIENTIFIC NAME:
A Suspension Concentrate (SC) for Mite Management on Commercial Ornamental Plants in Greenhouses, Vertical Gardens, and Field-Grown Nursery Block. Not for Residential Use.

ACTIVE INGREDIENT:

10% by wt.

ETHION (2-chlorephenoxy) - 1,2,5-triazin-4-one

OTHER INGREDIENT:

TOTAL:

20.0% by wt.

CONTAINS: 1 pound of active ingredient per quart

EPA Reg. No. 89225-54407

EPA Est. No. 5168-TX-092

KEEP OUT OF REACH OF CHILDREN

CAUTION
