Effective Rodent Control

Norway Rats, Roof Rats, and House Mice usually consume a lethal dose in a single night’s feeding, but it may take two or more days from time of bait consumption for them to die.

This product is effective against anticoagulant resistant Norway Rats, Roof Rats, and House Mice. This product may only be used inside and within 100 feet of man-made structures or inside of transport vehicles (ships, trains, or aircraft).

Active Ingredient:
Bromethalin (CAS NO. 63333-35-7)...........................................0.01%
Other Ingredients: .................................................................99.99%
Total.................................................................100.00%

This Product May Not Be Sold In Packaging that Holds Less Than 4 Pounds of Bait.

User Safety Requirements

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions are available, use detergent and hot water. Keep and wash PPE separately from other laundry.

Environmental Hazards

This product is extremely toxic to mammals and birds. Dogs and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not expose directly to water, or to areas where surface water is present or to intertidal areas below the high water mark. Never apply to waters containing fish or shellfish or to areas where surface waters are present. This product is not to be applied to food crops.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read this label. Read the entire label and follow all directions and precautions. For non-emergency (e.g., current product information), Call: 1-800-352-8080

Important: Do not expose children, pets or non-target animals to rodenticides. To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and non-target wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents exposure to children, pets and non-target animals. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the high water mark. Never apply to waters containing fish or shellfish or to areas where surface waters are present. This product is not to be applied to food crops.

Storage and Disposal

Store in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

Pesticide Disposal: Dispose of waste resulting from the use of this product at or at an approved waste disposal facility.

Container Handling: Nonreturnable container. Do not reuse or refill this container.

Plastic Containers: Triple rinse (or equivalent) then offer for recycling or reconditioning; or puncture and dispose of in a sanitary landfill; or extraction.

Paper Containers: Dispose of empty container by placing in trash, at an approved waste disposal facility or by incineration.

Disclaimer

To the extent permitted by applicable law, Seller makes no representation or warranty, either express or implied, for results due to misuse, improper handling, or improper storage of this material. Nor does Seller assume any responsibility for injury to persons, crops, animals, soil, or property arising out of misuse, improper handling, or improper storage of this material.
