ELIMINATOR®

Do not apply this product in or on electrical equipment due to possibility of shock hazard.

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm winds may allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

Questions or comments? Call 855-481-2977.

* Our guarantee is our promise that you’ll be fully satisfied with the quality of every Eliminator® product. If for any reason you aren’t happy, we’ll replace it or return your money – whichever you prefer. For complete details, see our full guarantee at Walmart.com/eliminator.

READ ENTIRE LABEL BEFORE USE.

PRECAUTIONARY STATEMENTS

ENVIRONMENTAL HAZARDS

Inquiries, or in case of fire, leaking or damaged containers, information may be obtained by calling 1-800-332-5553.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.

PHYSICAL OR CHEMICAL HAZARDS

We recommend wearing protective clothing and safety glasses whenever using this product. Carefully read and follow all label directions and precautions. Store in a cool, dry area away from children. Protect from freezing. If freezing occurs, allow product to thaw and shake well before use. Freezing does not impair the effectiveness of the product.

In case of medical emergencies or health and safety inquiries, call 1-800-332-5553.

APPLICATION

Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can be expected. Do not water the treated area to the point of runoff. Do not make applications during rain. All outdoor applications must be limited to spot or crack-and-crevice treatments.

HOW TO USE

Application of Eliminator® Home Insect Killer is to be used as a crack-and-crevice treatment in closets and other storage areas where these pests are found. This treatment will not control moth larvae already on clothes. Do not apply to clothing.

Contains pyrethrins (a natural insecticide) and other active ingredients, such as xylene and alcohol. The active ingredient in this product is pyrethrins.

Before applying, allow the area to dry (at least 2 hours) and make sure treated areas are free from food and drink. Be careful not to disturb treated areas more than necessary. Insects coming to rest on treated surfaces will be killed or repelled. Do not treat more than once per week. Do not spray animals or humans, or apply to animal bedding or cage contents. If animals are present in an area to be treated, move them to another room or remove them from the premises entirely. After the area has dried, remove and discard plastic wrap. Pull black hose tip to completely extend tubing.
