DIRECTIONS FOR USE

TO KILL LISTED CRAWLING INSECTS AND SPIDERS:

Apply spray as a spot treatment to cracks-and-crevices and around baseboards, carpet, floor, rugs, under refrigerators, cabinets, sinks and stoves. Also treat as spot or crack & crevice treatment in residences. Spray around beds, furniture and pet's habitat. Spray seams and pockets. Allow all treated areas to dry thoroughly before use. Handle or store products where children and pets cannot contact treated areas until surfaces are dry.

TO KILL BROWN DOG TICKS and FLEAS:

Spray seams and pockets. Allow all treated areas to dry thoroughly before use. Handle or store products where children and pets cannot contact treated areas until surfaces are dry.

HOW TO APPLY:

• Spray walls and/or ceilings.
• Spray ceilings, cornice, moldings, walls and under cabinets. Spray areas near the floor and where they meet the ceiling. Use wall jets to apply a fine mist to reach periphery. Spray through cracks in the wall and around wall fixtures. Spray behind books, pictures, wallpaper edges, and light switches. Spray all areas of the wall and ceiling from the floor up to ceiling. Do not make direct contact with fixtures or appliances. Do not spray near electrical equipment due to the possibility of electrical hazard. For ceiling treatment, hold sprayer 12 to 20 inches from the ceiling using a wall jet. For wall treatment, hold sprayer 8 to 10 inches until slightly damp.

Apply spray as a spot treatment to cracks-and-crevices and around baseboards, carpet, floor, rugs, under refrigerators, cabinets, sinks and stoves. Also treat as spot or crack & crevice treatment in residences. Spray around beds, furniture and pet's habitat. Spray seams and pockets. Allow all treated areas to dry thoroughly before use. Handle or store products where children and pets cannot contact treated areas until surfaces are dry.

TO KILL BED BUGS AND BED BUG EGGS:

• Spray over entire room.
• Spray cracks and crevices, bed frames, box springs, inside covers, behind headboards, pictures, wallpaper edges, and light switches. Spray all areas of the wall and ceiling from the floor up to ceiling. Do not make direct contact with fixtures or appliances. Do not spray near electrical equipment. For ceiling treatment, hold sprayer 12 to 20 inches from the ceiling using a wall jet. For wall treatment, hold sprayer 8 to 10 inches until slightly damp. Do not allow children or pets to contact treated areas until surfaces are dry. Allow sprayed articles and surfaces to dry thoroughly before using or replacing bedding. In the home, all food preparation and eating surfaces and utensils should be covered during treatment, or thoroughly washed before use. Exposed food should be covered or removed. In the kitchen, fruits, vegetables, cereals, and spices should be stored in airtight containers. Weigh any papers, fabrics, and soft goods. Store food, pet bowls and pet food in the refrigerator. Use a bed bug hanger on the door of your pet's crate to keep a bed bug killing agent off their bedding.

Use a bed bug hanger on the door of your pet's crate to keep a bed bug killing agent off their bedding.

STORAGE AND DISPOSAL

Use only as directed. Store in a cool dry place. Do not freeze. Do not use a rapid release pressure washer to clean or rinse the papers. Harmful if swallowed. Wash hands thoroughly with soap and water after handling and do not allow children to have access to treated areas until treated areas are dry. Exposed food should be covered or removed. Wash all clothes and linens that come in contact with treated areas before reuse. Allow treated mattress to dry thoroughly before remaking bed. Remove all clothes from dressers or closets before application. For luggage, be sure to empty dressers, furniture and clothes closets, carpet edges, high and low wall moldings, behind headboards, pictures, wallpaper edges, and luggage. Spray bed bugs directly when possible. Do not apply this product around electrical equipment due to the possibility of shock hazard. Harmful if swallowed. Wash hands thoroughly with soap and water after handling and do not allow children to have access to treated areas until treated areas are dry. Exposed food should be covered or removed.
