Spa Bromine Tablets™

BACTERICIDE - DISINFECTANT
NO CHLORINE ODOR

ACTIVE INGREDIENTS
Bromochloro-5, 5-dimethylhydantoin: 98.0%
OTHER INGREDIENTS: 2.0%
TOTAL: 100.0%
Provides 64.9% Available Bromine 29% Available Chlorine

KEEP OUT OF REACH OF CHILDREN
DANGER
CORROSIVE AND STRONG OXIDIZER
See back panels for additional precautionary statements and first aid.

NET CONTENTS: 1.5 LBS

*FIRST AID*

IF IN EYES
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

IF INHALED
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

IF SWALLOWED
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

ENVIROMENTAL HAZARDS
This product is toxic to fish and aquatic organisms.

PHYSICAL OR CHEMICAL HAZARDS
STRONG OXIDIZING AGENT. Do not mix with other chemicals.
Mixes with water only. Reaction with combustible organic materials, bases, moisture or with acids may generate heat, hazardous gases and, possibly, fire or explosion. Do not add to detergents or other equipment that is not dry and clean of any chemical residues. Does not burn but will decompose from about 302°F (150°C) releasing toxic gases. Avoid comminution and dusting.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read the entire label and use strictly in accordance with precautionary statements and directions.

Keep tight between 72 and 76 and never allow it to fall below 70. The treatment necessary for your pool or spa will change considerably depending upon these factors that burden the disinfection system. Some of the factors that will vary the required treatment are water temperature, bather load, exposure to windwells, debris, thunder, rain storms, and length of filtration cycle. Users must wear chemical-resistant gloves while placing the tablet in the spas.

SPAS & HOT TUBS: Before initially using this product in your spa or hot tub you will need to add 1/2 oz. of sodium bromide for each 100 gallons of water. The same treatment must be followed each time you drain and refill your spa or hot tub with fresh water. Introduce 3 tablets per 100 gallons of spa water with the use of a floating tablet feeder or automatic brominator installed on the spa equipment. Adjust tablet feeder or brominator to obtain an active bromine residual of at least 2 ppm. Maintain spa by adding 1 tablet per 100 gallons every 5-7 days or as needed to maintain an active bromine residual of 2 ppm at all times. Spa water has a tendency to foam and cloud; this is directly proportional to the amount of spa use. Cloudiness is due to the accumulation of body fats, oils and contaminants too small for the filtration equipment to remove, and is linked to rapid escalation of total dissolved solids in the water. To a great extent, defatners, clarifiers, as well as shock treatments, demineralizers, or sequestering agents can be used to clear the water. Water clarification cannot be achieved with drain, clean, and refill the spa.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Keep this product dry in the tightly closed, original container when not in use. Store in dark, cool, below 88°F (31°C), dry, well-ventilated area. Keep product away from energy sources, combustible organic materials, oxidizers, strong bases, and moisture.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray equipment, and containers may constitute a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Noncomplying container. Do not reuse or refill this container. Offer for recycling, if available, or purchase and dispose of in a sanitary landfill.

SPILLS: When handling or dealing with spills, use gloves with side-shields, face shield or safety glasses, protective clothing and chemical-resistant gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

SPECIAL PRECAUTIONS: PLEASE READ BEFORE OPENING CONTAINER. MISUSE MAY RESULT IN SERIOUS PERSONAL INJURY REQUIRING HOSPITALIZATION. RELATED COMPLICATIONS MAY LEAD TO DEATH.

GENERAL PRECAUTIONS AND RESTRICTIONS: USE WITH ADEQUATE VENTILATION. Do not smoke, drink, or eat when handling. Do not ship with foods, feeds, drugs, or clothing. Keep container tightly closed when not in use.

PREVENTION OF PHYSICAL INJURY:
1. This product emits a powerful bromine gas. Do not open container indoors. Hold eye away from face when opening to avoid breathing fumes.
2. Mixing with other chemicals may cause a violent and instantaneous chemical reaction. Do not add this product to water in a spill. Do not add water to this product in a spill. Do not follow label instructions exactly. Do not take advice from others. Do not experiment.

PREVENTION OF PROPERTY DAMAGE: Contact between this product in its undissolved state and vinyl liners, paint surfaces or other property in or around the pool will result in permanent bleaching of the color.

NOTE TO PHYSICIAN
Probable minimal damage may be diagnosed by the use of gastric lavage.

PROFESSIONAL STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER
CORROSIVE. CAUSES IRREVERSIBLE EYEDAMAGE AND SKIN BURNS. EYE CONTACT MAY CAUSE LOSS OF VISION. HARMFUL IF INHALED, IRITATING TO NOSE AND THROAT. HARMFUL IF ABSORBED THROUGH SKIN OR SWALLOWED. USERS MUST WEAR CHEMICAL-RESISTANT GLOVES WHILE PLACING THE TABLET IN THE SWIMMING POOL. SPAS. Avoid breathing dust or spray mist. Do not get in eyes, on skin, or on clothing. Prolonged or frequently repeated skin contact may cause adverse reactions in sensitive individuals. Wear goggles with side-shields, face shield or safety glasses, protective clothing and chemical-resistant gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

IN CASE OF FIRE: Do not use ammonium phosphate extinguishers near water and this product. Hazardous reactions may occur.

WARRANTY: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with label directions under normal conditions of use, but to the extent consistent with applicable law, neither this warranty nor any other warranty of MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such use.
