ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic invertebrates and may contaminate water through runoff. This product has the potential to affect beneficial insects and other aquatic life. Do not permit runoff of treated solution to enter surface waters or groundwaters. Do not apply to areas adjacent to treated waters. For non-terrestrial use, do not apply to areas where surface water is present or where treated water may percolate to groundwater. Do not use in areas where treated water may enter streams, lakes, or other surface waters. Do not use in areas where treated water may percolate to groundwater. Do not contaminate water, food, or feed by storage or disposal. Wash hands after handling and before eating, drinking, chewing gum, or using the toilet. Remove contaminated clothing and shoes before reentering treated areas. Do not contaminate water, food, or feed by storage or disposal. Wash hands after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

PHYSICAL AND CHEMICAL HAZARDS

Do not transport if this container is damaged or leaking. If the container is damaged or leaking, do not dispose of it in a landfill, or by incineration. Do not burn, unless allowed by state and local ordinances.

CONTAINER HANDLING:

Nonrefillable container. Do not reuse or refill this container.

PESTICIDE HANDLING:

Completely empty bag by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into disposal facility.

PESTICIDE STORAGE:

Store in a cool, dry place.

PESTICIDE DISPOSAL:

Wastes resulting from the use of this pesticide may be disposed of on site or at an appropriate waste disposal facility.

USER SAFETY RECOMMENDATIONS

Nonrefillable Container Net: 4 lbs.

For Organic Production

FUNGICIDE/BACTERICIDE

Kocide 3000

Precautionary Statements

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor.

IF INHALED: Move person to fresh air. If breathing is difficult, give oxygen. Call a poison control center or doctor. If inhaled, caller should also inform doctor or poison control center of any other chemical products used in this area.

IF SKIN OR CLOTHING CONTACT OCCURS:

Wash thoroughly and change clothing. Call a poison control center or doctor if you have more than a minor skin reaction. Avoid contact with eyes, skin, or clothing. Wash hands after handling and before eating, drinking, or using the toilet.

IFcdbionued:

Call a poison control center or doctor for treatment advice. Have person take one full bottle of water. Do not give anything by mouth to an unconscious person.

IF INHALED:

Move person to fresh air. If breathing is difficult, give oxygen. Call a poison control center or doctor.

IF IN EYES:

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor.

NON-FOOD USE ONLY

This pesticide is toxic to fish and aquatic invertebrates and may contaminate water through runoff. This product has a potential for runoff for several months or more after application. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product. Drift and runoff may be hazardous to aquatic organisms in waters adjacent to treated areas. For terrestrial uses, do not apply to areas where surface water is present or where treated water may percolate to groundwater. Do not contaminate water, food, or feed by storage or disposal. Wash hands after handling and before eating, drinking, or using the toilet.

See back panel for additional precautionary statements.

Nonrefillable Container Net: 4 lbs.
Agitate the mixture in the nurse tank.

Treatment and continue to operate irrigation system until Kocide 3000-O has been cleared. Necessary adjustments should the need arise.

Nutrients, etc. should be added last. If compatibility is in question, use the Compatibility Half Full with water. Add Kocide 3000-O slowly to tank while hydraulic or mechanical Crop injury, lack of effectiveness or illegal pesticide residues in the crop can result from pesticide distribution is adversely affected.

Applicators must follow all state and local pesticide drift requirements regarding wind speed:

- Bacterial Blight
- Mildew *
- Red Mite
- Bacterial Spots
- Blight
- Powdery Mildew
- Raccoon Pest
- Rust
- Rust
- Sooty Molds
- Taphrina
