Thyme and Cinnamon oils was carefully formulated to kill and repel fleas and ticks for up to one month on applicator that lets you tailor each monthly treatment to the size of your dog. The unique blend of Clove, Thyme, and Cinnamon oils is odorless to humans and cats but is repulsive to fleas and ticks when combined with other Vet's Best® products for pet, home and yard.

In order to help reduce the occurrence of fleas and ticks, this product is best used year round and the solution has dried before allowing pets to groom each other. Dogs may be treated indoors or outdoors. Application, always wait at least 24 hours before bathing or swimming. In multi-pet households, be sure for Dogs 12 Weeks or Older. When applying, avoid getting the product in the eyes or mouth. After application, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye. If irritation persists, contact a physician.

For external use only. Sensitivity may occur after use of any product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If symptoms persist, contact a veterinarian immediately. Not recommended for use on pregnant or nursing animals. For external use only. Prolonged or frequent repeated skin contact may cause allergic reaction in some individuals. For external use only.

Active Ingredients:

Clove Oil .......................... 7.5%
Thyme Oil................................ 2.5%
Cinnamon Oil .................................. 2.5%

Inert Ingredients*

Isopropyl Myristate, Vanillin

*Isopropyl Myristate, Vanillin

<tr>
<td>Large Dogs (Over 40 lbs)</td>
<td>5.5 ml (7 droppers full)</td>
</tr>
<tr>
<td>Small Dogs (Under 15 lbs)</td>
<td>2 ml (3 droppers full)</td>
</tr>
</tbody>
</table>

For Dogs 12 Weeks or Older. Apply once per month. Do not exceed more than one application per month on the same dog. The dropper applicator contains the amount of product to be applied. After application, hold eye open and rinse slowly and gently with water for 15-20 minutes. If irritation persists, contact a physician.

READ ENTIRE LABEL BEFORE EACH USE AND USE ONLY IN ACCORDANCE WITH LABEL INSTRUCTIONS.

Remove the protective cover from the dropper tip. To fill the dropper applicator, squeeze the rubber top and release so it collects the formula at the desired application rate. When applying, hold your pet with one hand and use the dropper tip to part the dog’s hair so the product reaches the dog’s skin. Apply the liquid in an evenly distributed, straight line starting from in-between the shoulder blades at the base of the neck and down to the base of the tail (see diagram). Once the full dose has been applied allow a few minutes for the solution to be absorbed into the dog’s coat before normal activities are resumed. Retain this package for future reference.

WARNING: Avoid spills, screw the dropper securely on the bottle when finished.
