This product has not been registered by the United States Environmental Protection Agency. LESCO represents that this product qualifies for exemption from registration under the Federal Insecticide, Fungicide, and Rodenticide Act

Critter Repellent helps to repel those pesky "critters" that destroy or damage landscape plantings. It is not a poison that will kill animals; it simply makes the environment unpleasant in which to feed. Critter Repellent gives you the power to repel and limit critters that you believe are harmful to your property and your wallet.

APPLICATION RATES/INTERVALS: For best results, Critter Repellent should be distributed at a high initial application rate of 1 gallon/250 square feet. If adequate results are not achieved, increase the usage by 4 ounces per 10,000 square feet. Subsequent applications should be at 1 pint/6 ounces per 10,000 square feet. Repeat monthly as necessary. For sprayers and handheld sprayers, apply 1 gallon/125 square feet per 10,000 square feet, including and 16 ounces per 10,000 square feet. Subsequently, all applications of Critter Repellent should be applied in a minimum of 2 gallons of water per 1,000 square feet. Apply only as directed.

Limitations of warranty and liability. Seller warrants only that this product conforms to the chemical description on the product label. No other warranty, express or implied, as to the merchantability, fitness for a particular use, or otherwise shall apply. Purchaser's exclusive remedy for loss or damage related to the purchase and/or use of this product shall be limited to the refund of the purchase price, only. By using this product, you are deemed to have accepted the terms of this notice.

#210019
