<thead>
<tr>
<th>IF IN EYES:</th>
<th>Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.</th>
</tr>
</thead>
<tbody>
<tr>
<td>IF INHALED:</td>
<td>Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.</td>
</tr>
<tr>
<td>IF ON SKIN OR CLOTHING:</td>
<td>Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.</td>
</tr>
<tr>
<td>IF SWALLOWED:</td>
<td>Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.</td>
</tr>
</tbody>
</table>

**Have the product container or label with you when calling a poison control center, doctor, or when going for treatment.**

**YOU MAY ALSO CONTACT 1 FOR EMERGENCY MEDICAL TREATMENT INFORMATION.**

**NOTE TO PHYSICIAN:**

Probable mucosal damage may contraindicate the use of gastric lavage.

---

### PRECAUTIONARY STATEMENTS

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER**: CORROSIVE. CAUSES IRREVERSIBLE EYE DAMAGE. MAY BE FATAL IF INHALED.

HARMFUL IF SWALLOWED OR ABSORBED THROUGH SKIN. Do not get in eyes, on skin, or on clothing. Do not breathe dust, vapor, or spray mist. Wear protective eyewear (goggles, face shield, or safety glasses). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

**PHYSICAL OR CHEMICAL HAZARDS:**

STRONG OXIDIZING AGENT: Use only clean dry utensils. Mix only into water. Contamination with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. Avoid any contact with flammable material such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g., calcium hypochlorite). Such use may cause fire or explosion.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

**FOR SPA AND HOT TUB DISINFECTANT:** When used as directed, this product is effective as a spa and hot tub water disinfecting agent. Ensure all spa and hot tub equipment is working properly. Backwash/clean the filter system following manufacturer's directions. Adjust pH to between 7.2-7.6. When using other products as outlined in the directions for this product, always follow directions on those products.

**MAINTENANCE DOSES:** With pump on, add ½ teaspoon of this product per 100 gallons of water (or 5 teaspoons per 1,000 gallons) as an initial treatment. Repeat at 15 to 20 minute intervals until a residual of 3-5 ppm of available chlorine is established as determined by test kit. A test kit must be used regularly to determine the frequency of additional doses of this product needed to maintain the chlorine residual of 3.5 ppm.

**SUPERCHLORINATION:** Use one teaspoon of this product per 100 gallons of water (or ½ cup per 1,000 gallons). Superchlorination may be needed on a nightly basis in a heavily used spa or as infrequently as once a week in a moderately used spa.
Hot Tub Water Care System

Eliminates time consuming maintenance process
once per week treatment takes minutes

REENTRY: Reentry into treated spas and hot tubs is prohibited above levels of 3 ppm of chlorine due to risk of bodily harm.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage and disposal.
PESTICIDE STORAGE: Store in a dry, cool and well-ventilated area. Avoid moisture getting into container. Keep off wet floors. In case of spillage, wash with large amounts of water. After each use, keep container tightly closed. Oxidizing material. Keep away from flames, sparks and all sources of heat. Avoid contact with organic material.
PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mutter or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative of the nearest EPA Regional Office for guidance.
CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling, if available.
EMERGENCY HANDLING: In case of contamination or decomposition do not reuse container, if possible, incinerate container in open, well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.

WARRANTY
Seller warrants that this product conforms to the chemical description and is reasonably fit for the purposes stated on the label when used in accordance with label directions under normal conditions of use. To the extent consistent with applicable law neither this warranty nor any other warranty of MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such use.
Clean and Simple Water Care

PATENT PENDING
Clean and Simple Water Care

AquaFinesse® takes the work out of Spa Care leaving more time to enjoy the comfort and benefits of Spa Ownership.

AquaFinesse® liquid is an alternative that reduces the amount of chemicals used for weekly maintenance of your spa.

ORM-D
AquaFinesse® liquid is manufactured by:
Special Water Works BV - The Netherlands
for AQUAFINESSE LLC
3226 Taylorsville Highway
Statesville, NC 28625 - USA
Product assembled in USA
AquaFinesse™ Hot Tub Water Care System
[Sanitizing Granules Kit]

Usage Instructions:
Shake well before use – read instructions carefully.
AquaFinesse™ must be used with an approved sanitizer of choice.

Start up Instructions for use with sanitizing powder kit
1. Drain hot tub completely after running Spa Clean to purge lines in older
   tubs. Run garden hose for 60 seconds before filling the tub with fresh tap
   water. For new tubs: Run garden hose for 60 seconds before filling the tub
   with fresh tap water.

2. Balance tub water including Alkalinity, pH and total hardness.

3. Shake the bottle of AquaFinesse™ to mix the solution. Pour the correct amount of AquaFinesse™
   (as indicated in the manual) into the water. Turn on the jets for a minimum of 2 minutes to activate
   the AquaFinesse™ water care system.

4. Add one tsp of granules directly to the water and with jets running. Chlorine reading should be
   1.5 – 3 ppm.

5. After each use of the hot tub add one half tsp of granules directly to the water and with jets running.
   If the tub is not in regular use this amount can be reduced to one tsp of granules at least once a week.

6. Rinse filter once a week to ensure total sanitation and clean your filter with AquaFinesse™ filter
   clean once a month.

Ongoing Weekly Maintenance
Repeat steps 2 – 6 on a set day, every week.

Monthly
1. We recommend that you have a water sample taken to your retailer for water balance and hard-
   ness testing.
2. Clean your filter with AquaFinesse™ Filter Cleaner.

Over 650 gallons or 2460 litres consult dealer for AquaFinesse Swim Spa products.

SPA SAFETY
- To avoid possible health hazard to users, never heat spa water above 104° F (40°C).
  The spa use should be limited to 15 minute intervals to avoid nausea.
- Do not enter a spa under the influence of alcohol or medication that could cause drowsiness.
  If you are on medication consult a doctor before using the spa.
- Because of high water temperatures, pregnant women and small children should use caution.
- Do not use electricity near the water. Example: radios or hairdryers.
- Hot water is an ideal medium for spreading infection. People with open wounds should not use the spa.
- Always enter and leave the spa with caution.

CHEMICAL SAFETY
- Read the directions carefully.
- ALWAYS add chemicals to water, NEVER add water to the chemicals.
- Do not mix chemicals together. Add chemicals one at a time. Rinse out and dry the measuring cup before the addition of the next chemical.
- Store chemicals in a cool, dry place. Keep the container closed when not in use.
- Keep out of reach of children.
- Do not ingest.
- Do not smoke near chemicals.
- If bottle is empty, discard in trash or offer for recycling if available.

FIRST AID
- If swallowed in undiluted solution, drink large amounts of water. Do not induce vomiting. Avoid alcohol. In case of accident seek medical attention immediately.
