DO NOT USE ON CATS — MAY BE FATAL

Keep cats away from treated dogs for 24 hours. If applied to or ingested by a cat, contact your veterinarian immediately. Signs of sensitivity include skin sensitivity, dermatitis, tremors, straining, incontinence, diarrhea, vomiting, dysfuction. Sensitivities can occur after using ANY pesticide product on debilitated, aged, medicated, pregnant or nursing dogs. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Hazards to Domestic Animals:
DO NOT USE ON CATS OR KITTENS. Do not apply this product to puppies less than 12 weeks of age or 11-32 lbs. Do not allow your dog to ingest this product. Do not apply more than once a month. Do not contaminate food or feedstuff. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For cats or dogs other than the species for which it is labeled, side effects may include signs of skin irritation such as redness, scratching or other signs of inflammation or pain. If these or other side effects occur, discontinue use, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

For external use on dogs only. Do not treat cats or their pets. For small dogs weighing 11-32 lbs, use 1 tube. For large dogs weighing 31-40 lbs, use 2 tubes. Do not exceed more than once a month. Harmful if swallowed or absorbed through the skin.

DO NOT APPLY TO INJURED, IRRITATED, OR ABNORMAL SKIN.

Side Effects:
Monitor your dog after application. Side effects may include signs of skin irritation such as redness, scratching or other signs of inflammation or pain. If these or other side effects occur, consult your veterinarian.

Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

If empty: Do not reuse or refill the tube. If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product in any area accessible to children or pets.

Harmful if swallowed or absorbed through the skin. Do not give anything by mouth to an unconscious animal. Call a Poison Control Center or doctor for treatment advice.

Rinse skin immediately with plenty of water for 15-20 minutes.

Rinse skin immediately with plenty of water for 15-20 minutes. Hold eye open and rinse slowly and gently with water for 15-20 minutes.

Remove contact lenses after the first 5 minutes, then continue rinsing.

If swallowed, rinse mouth, drink a generous amount of water and induce vomiting by the nearest medical advice.

If inhaled, remove from source of exposure.

For external use on dogs only. Do not use on cats or animals other than dogs.

For cats or dogs other than the species for which it is labeled, side effects may include signs of skin irritation such as redness, scratching or other signs of inflammation or pain. If these or other side effects occur, discontinue use, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

If these or other side effects occur, consult your veterinarian immediately.

Side effects may include signs of skin irritation such as redness, scratching or other signs of inflammation or pain. If these or other side effects occur, consult your veterinarian.

SEVERE CASES:
Have a person sip a glass of water if able to swallow. Call a Poison Control Center or doctor for treatment advice.
