KILLS THE INSECTS
THAT YOU SEE &
The ONES YOU DON'T

Carpenter Bee,
Ant & Termite

INDOOR/OUTDOOR

KILLER FOAM

FIPRONIL

NON-STAINING,
NO ODOR

ACTIVE INGREDIENT:
Fipronil 0.005%

OTHER INGREDIENTS: 99.995%

TOTAL 100.000%

KILLS: 
Carpenter Bee, Carpenter Ants, Termites* (including subterranean, drywood, dampwood and arboreal) and other listed wood-damaging insects

Where to Use: For use in and around structures and limited outdoor spot treatments where wood-damaging insects are seen or suspected

How to Use: Insert applicator straw into nozzle and spray to apply where insects to be treated are seen or suspected

FIRST AID

If swallowed:
• Call a poison control center or doctor immediately for treatment advice.
• Have a person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

If inhaled:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
• Call a poison control center or doctor for treatment advice.

If in eyes:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

If on skin or clothing:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15 – 20 minutes.
• Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information on this pesticide product (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378, 6:30 AM to 4:30 PM Pacific Time (PT), seven days a week. During other times, call the poison control center at 1-800-222-1222.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

This product is ready-to-use termite/insecticide formulation. If this product is sprayed, the product rapidly expands generating a dry foam with an expansion ratio of approximately 30:1, with 1 oz (28 g) of product being dispersed in approximately 5 sec producing approximately 1 qt (946 ml) of foam. This product can be used to control insects where they are found or suspected, including: in nests, galleries, harborage, and voids. This product can be applied in and around residential structures as well as structural and non-structural elements that can potentially be encroached by or provide harborage to, insects. Applications of this product can be made from the interior and/or exterior. Drilling of hole(s) may be necessary to access galleries or harborage. Treatment of insect harbors associated with fences, bridges, landscape timbers, under slabs or other non-structural elements is permitted with this product.

TREATMENT OF INSECT GALLERIES, HARBORAGE OR Voids:

Use sufficient foam to treat the known or suspected insect harbors. After applying this product, hold the injector tip in place for approximately 5 sec to allow the product within the injector tube to disperse into the treatment area. Drilling of hole(s) may be required to access the known or suspected gallery, harborage or void. Drill hole(s) at 1 or more locations along the gallery, harborage or void for proper treatment. Use of moisture meter may help to determine the speed of a treatment. This product can be used as a localized treatment for the control of existing infestations of subterranean termites and other wood destroying insects, or as a supplemental treatment in a structural protection program. This product is intended for use on localized wood destroying insect infestations only. The purpose of localized applications is to kill wood destroying insects which may be present in the treated channels at the time of treatment. Localized applications are intended as supplemental treatments and not a substitute for: mechanical alteration, soil treatment, or foundation treatment. The product should not be used as a stand-alone treatment for structural protection. In special situations, products may be applied to previously treated sites if activity is found 30 days after previous application.

WOOD DESTROYING PEST TREATMENTS - INDOORS

TREATMENT DISTRIBUTION:

The use of this product in residential outdoor areas. Break open a section of the shelter tube and apply directly over the exposed area. Apply enough product to cover the exposed area and a distance of approximately 2” in each direction over the shelter tube itself.

Outdoor applications of this product must be limited to small spot treatments only. Do not apply this product to any impervious surfaces. Do not make direct applications, nor any applications of this product to the ground within the drip line of any trees or shrubs used for growing fruits, nuts, vegetables or other foods.

TERMITES, CARPENTER ANTS, OR CARPENTER BEES HARBORING IN STUMPS, SLABS AND FENCES:

Drill 1 or more holes into areas of suspected termite, carpenter ant, or carpenter bee activity. It may be necessary to drill several holes around the circumference of the stump, at varying heights, to properly treat the nest or gallery system. When treating below slabs, drill 1 or more holes through the slabs where termite, carpenter ants, or carpenter bees are active, or suspected, and inject this product. For fences, treat exposed surfaces with this product where termite, carpenter ants, or carpenter bees are active (Please note: the foam must dissipate or excess foam must be removed before the applicator leaves the area) and/or drill wooden members where termite, carpenter ants, or carpenter bees are active, or suspected, and inject this product.

CARPENTER BEES OR FORAGING CARPENTER ANTS:

This product is intended for outdoor treatments for carpenter bee or carpenter ant or harborage or trails associated with decks, fences or other non-structural elements. Inject product into galleries, cavities, harborage or structural voids. Apply the foam up to a 6” length of the carpenter bee or carpenter ant trail. Please note: the foam must dissipate or excess foam must be removed before the applicator or user leaves the area.

EXTERIOR PERIMETER/Localized interior

TERMITES (SUBTERRANEAN AND ARBOREAL):

This product can be used as a preventative or curative interior structural void treatment for subterranean termites when applied in conjunction with an Exterior Perimeter/Localized Interior (EP / LI) termite-tight labeled for EP / LI application. Targeted interior application(s) of this product may be made to vulnerable areas such as voids associated with plumbing/utility lines penetrating floors, bath and/or shower voids, expansion joints and/or settlement crack voids, wall voids and other voids of probable, potential, or known termite entry.

When this product is used to treat known or suspected localized interior termite infestation(s), this product can be used in lieu of other localized interior treatment(s). Targeted interior application(s) of this product may be made to vulnerable areas such as voids associated with plumbing/utility lines penetrating floors, bath and/or shower voids, expansion joints and/or settlement crack voids, wall voids and other voids of probable or potential termite entry. This application is intended for localized areas of existing or potential termite activity and must not be applied to indoor surfaces for the purposes of general pest control. This product is not a substitute for soil-applied termite treatment(s) below slabs or foundations.

NON-WOOD DESTROYING PEST TREATMENTS CRAWLING PESTS

Ants (Excluding Fire, Harvester, Leaf Cutter and Pharaoh):

Treat voids with this product, where these pests enter, hide or harbor. Immediately wipe up any excess product on exposed surfaces.

STORAGE AND DISPOSAL

DO NOT contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE:

Store in original container. Keep away from open flames, sparks, heated surfaces, and avoid excessive heat (>10°F). Store in a cool, dry place inaccessible to children and pets.

CONTAINER DISPOSAL:

DO NOT puncture or incinerate! Empty container by using the product according to the label directions. Non-refillable container. If empty: Offer container for recycling, if available, or place in trash if allowed by state and local regulations. If partly filled: Call your local solid waste agency for disposal instructions.

WARRANTY

Read the entire Directions for Use and Warranty before using this product. By using this product, user or buyer accepts the following warranty. The directions for use of this product are believed to be adequate and must be followed carefully. It is impossible to eliminate all risks associated with the use of this product. Unintended consequences may result because of unknown factors. All such risks shall be assumed by the user or buyer. The seller is committed to providing high quality products. To the extent consistent with applicable law, the seller makes no warranties, express or implied, of merchantability or fitness for a particular purpose or otherwise, that extend beyond statements on this label. To the extent consistent with applicable law, the manufacturer or the seller shall not be liable for indirect, special, incidental or consequential damages. To the extent consistent with applicable law, the exclusive remedy of the user or buyer shall not exceed the purchase price paid.
