Prevents rodent entry, nesting & foraging

Tested and proven to work. Easy application to keep rodents away

Essential oils deliver a smell that rats and mice naturally hate

No stink formula that is long lasting and rain resistant

Directions For Use:

- Shake container well before using. Product is ready to use and does not need to be mixed or diluted.
- While the formula is non-staining on most surfaces, spray a small, inconspicuous area to determine effects prior to full scale application. Do not use on light colored upholstery.
- Spray potential entry points around your home which could include around doors & windows, pipes, cracks & crevices, and vents.
- Repeat application every 30 days. More frequent application may be required after periods of heavy rainfall and if more damage or rodent activity is noticed.

Use Precautions

This product can be applied indoors or outdoors in any weather. Do not apply to electrical wires and sockets. Not for use on car engine. Before use, test a small area of sensitive surfaces for staining before making a wide-scale application. Wipe away any excess product on surfaces.

Using the Comfort Wand®:

- Remove the spray head from the wand. Reinstall the spray head to activate batteries. Flip open until it clicks. Uncoil the hose and insert the hose connector into the opening on the cap until it clicks.
- Twist the knob to ON.

To Spray,

- Turn the sprayer nozzle to desired spray pattern. Slide the gray switch on the trigger to “Unlock.” Press the trigger to spray.

When finished,

- Slide the switch on the trigger to “Lock.” Twist the knob to OFF. Fold the wand closed and place the sprayer back in the holder on the side of the bottle.

Important Use Information:

- Do not submerge in water. When storing the sprayer for long periods, remove the batteries and rinse the applicator by placing the connector end of the hose into a container of clean water and spraying for 10 to 15 seconds. Re-attach the sprayer hose connector into the knob on the cap.

To replace batteries:

See marked diagram inside the battery compartment.
