An extended residual INSECT GROWTH REGULATOR GRANULAR PRODUCT to PREVENT ADULT MOSQUITO EMERGENCE (including those mosquitoes which may transmit diseases, including West Nile virus, Dengue, Chikungunya, and the Zika virus)

Controls mosquitoes for up to 35 days of continuous wet conditions
Dust free formula
Controls Aedes, Culex, Psorophora, Anopheles, Coquillettidia, Mansonia, Ochlerotatus, and other mosquitoes

KEEP OUT OF REACH OF CHILDREN
CAUTION
NET WT 40 LBS (18.14 kg)

PRECAUTIONARY STATEMENTS – HAZARDS TO HUMANS AND DOMESTIC ANIMALS – CAUTION

Causes moderate eye irritation. Avoid contact with eyes or clothing. Due to the size and abrasiveness of the granule, use protective eyewear and clothing to minimize exposure during handling and loading. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

FIRST AID
If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If on skin: Wash with plenty of soap and water for 15 minutes.

If on clothes: Remove clothing immediately by washing before reuse.

If swallowed: Do not induce vomiting. Call a poison control center or doctor for treatment advice.

• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• If in eyes, rinse with plenty of water for 15 minutes.

• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• If in eyes, rinse with plenty of water for 15 minutes.

ENVIRONMENTAL HAZARDS
Do not contaminate water when disposing of unused or equipment washwaters.

INTRODUCTION
Zocon® Altosid® P35 (Altosid® P35) granule is used against mosquito larvae in a variety of habitats. Altosid® P35 provides consistent release of the Insect Growth Regulator (IGR), S-Methoprene to provide residual control for multiple broods for up to 35 days of continuous wet conditions. Altosid® P35, when applied to the water column releases effective levels of the IGR to begin affecting larval development thereby preventing adult mosquito emergence. Altosid® P35 controls the major species of mosquitoes including: Aedes, Anopheles, Psorophora, Culex, Coquillettidia, Mansonia spp.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL DIRECTIONS: Altosid® P35 begins releasing effective levels of IGR soon after application to inhibit and prevent the emergence of adult mosquitoes for up to 35 days after application. Continue applications throughout the entire season to maintain control. IGR treated areas continue to develop normally to the pupal stage when they die. Rotary and fixed-wing aircraft equipped with granular streamers capable of applying rates listed below may be used to apply Altosid® P35. Ground equipment which will achieve even coverage at these rates may also be used. Apply Altosid® P35 uniformly and repeat application as necessary.

NOTE: Altosid® P35 has no effect on mosquitoes which have reached the pupal or adult stage prior to treatment.

APPLICATION TYPING: Apply Altosid® P35 at any stage of larval mosquito development. Granules may be applied 7 to 15 days prior to flooding (i.e., pre-flood/“pre-Flood”) in areas which flood. In such areas, use application of Altosid® P35 can prevent adult mosquito emergence from several subsequent wetting events. The actual length of control depends on the duration and frequency of wetting events.

APPLICATION RATES: Altosid® P35 controls the major species of mosquitoes including: Aedes, Anopheles, Psorophora, Culex, Coquillettidia and Mansonia spp. Apply Altosid® P35 at 2.5 - 20 lb/acre (5.0 - 11.2 kg/ha). Within these ranges, use lower rates when water is shallow (< 6 -7") and vegetation and/or organic matter are minimal. Use higher rates when water is deep (< 1 foot) and/or vegetation and organic matter are heavy. In water depths greater than 2 feet, double the application rate for each subsequent foot of water. Depending on water depth and degree of organic matter, lower use rates may provide less IGR residual. Application of Altosid® P35 to sites subject to flooding from the water flow or exchange will diminish the product’s effectiveness and residual activity, which may require higher application rates and/or more frequent applications.

APPLICATION SITES: Altosid® P35 may be applied to both crop and non-crop areas as directed above to temporary and permanent sites which support mosquito larval development. Examples of such sites include: snow pools, salt and tidal marshes, freshwater swamps and marshes (cattail, red cedar, white maple marshes), woodland pools and marshes, diking pool sites, drainage areas, ditches, washout removal facilities, livestock waste lagoons, irrigation ditches, harvested timber blocks, swales, storm water drainage areas, sewers, catch basins, tree holes, animal watering troughs, water-holding marshes (e.g., ponds, oasis, bird bath, flower pots, cans, and other containers), irrigated and non-irrigated pastures, horse pastures and other natural and manmade water-holding sites, containers and depressions. Examples of crop areas include: irrigated croplands, pastures, golf greens, vineyards, rice fields (domestic and wild), date palm, citrus, fruit and nut orchards, berry fields, bogs, and rice crops.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Precycle Storage: Store opened containers in a cool, dry place. Precycle Disposal: Washes resulting from the use of this product may be disposed of in on site or at an approved waste disposal facility. Container Handling (Paper/Plastic Bags): NonRefillable container. Do not reuse or refill this container. Completely empty container into application equipment. Then offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If incinerated, stay out of smoke.

WARRANTY:
IMPORTANT: READ BEFORE USE
Read the entire Directions for Use, Conditions of Warranties and Limitations of Liability before using this product. If terms are not acceptable, return the unused product container at once. By using this product, user or buyer accepts the following Conditions, Disclaimer of Warranties and Limitations of Liability:

CONDITIONS: The Directions for Use of this product are believed to be accurate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Ineffectiveness or otherwise unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Central Garden & Pet Company. All such risks shall be assumed by the user or buyer.

DISCLAIMER OF WARRANTIES: To the extent consistent with applicable law, Central Garden & Pet Company makes no other warranties, express or implied, of merchantability or fitness for a particular purpose or otherwise, that extend beyond the statements made on this label. No agent of Central Garden & Pet Company is authorized to make any warranties beyond those contained herein or to modify the warranties contained herein. To the extent consistent with applicable law, Central Garden & Pet Company disclaims any liability whatsoever for special, incidental or consequential damages resulting from the use or handling of this product. LIMITATIONS OF LIABILITY: To the extent consistent with applicable law, the exclusive remedy of the user or buyer for any and all losses, injuries, or damages resulting from the use or handling of this product, whether in contract, warranty, tort, negligence, strict liability or otherwise, shall not exceed the purchase price paid or at Central Garden & Pet Company’s election, the replacement of product.
