Kills Carpenter Bees

Kills:
Carpenter Ants
& Termite Killer

Keeps Killing for up to 1 Month*

Potentially Hazardous Insecticides

For effective control of carpenter ants around buildings, use this product in combination with a chemical or mechanical barrier such as a termite strip. This product does not provide residual protection against ants, termites, or other insects. For best results, control insects by spraying and spot treatments. Insect activity continues. Residual activity kills insects when they congregate and individual pests when seen. Spray 1-2 seconds contact spray. For effective control of carpenter ants, spray where insects congregate and individual pests when seen. Spray 1-2 seconds contact spray.
