Aquashade® Plus

**FIRST AID IF IN EYES:** Hold eyelids open and rinse slowly with plenty of water for 15-20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eyes. Call poison control center or doctor for further treatment advice.

**IF INHALED:** If person is unconscious or breathing difficulties, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.  If necessary, give heart massage. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

**HOW TO APPLY:**

1. Calculate the volume of your water body using Gallons (U.S.) or Liters (Metric).

   **Gallons (U.S.) Formula:**
   
   \[ \text{Volume (U.S. gallons)} = \text{Depth (feet)} \times \text{Area (square feet)} \times 7.5 \]
   
   **Liters (Metric) Formula:**
   
   \[ \text{Volume (liters)} = \frac{\text{Depth (meters)} \times \text{Area (square meters)}}{1000} \]

2. Base upon water volume, determine dosage rate from the chart below.

3. Apply to the entire water body in a pre-emergent manner before the growing season. Aquashade® Plus may also be applied directly on emergent and submergent aquatic plants. Do not control floating algae, free floating plants, or emergent (shoreline) vegetation. Plants can be physically removed or treated with an appropriate EPA approved aquatic herbicide or algicide if more complete control is desired. When using aquatic plants or emergent (shoreline) vegetation, apply the appropriate EPA-approved aquatic herbicide or algicide in the recommended manner. For further information, please call 1-800-252-1642.

   **CAUTION:** Be certain ice conditions are safe before dispersing. In freezing climates, Aquashade® Plus may be poured onto the ice and allowed to self-disperse into the water body below. For non-refillable container only. Do not reflow or puncture and dispose of in approved landfill, incineration, or by other procedures approved by State and Local authorities. Waste resulting from this product must be disposed of on-site or at an approved waste disposal facility.

**STORAGE AND DISPOSAL:**

- Do not store in water, food or feed by storage or disposal.
- Do not store in water, food or feed by storage or disposal.
- Store in original container in a cool, dry place. Keep from freezing.

**PESTICIDE STORAGE:**

- Do not contaminate water, food or feed by storage or disposal.
- Do not contaminate water, food or feed by storage or disposal.
- Keep from freezing.
Aquashade Plus

- Concentrated Formula
- 2x more concentrated than Aquashade®
- Aquatic Plant Growth Control
- Inhibits growth of underwater weeds
- Just pour it in around the shoreline
- 13 oz. per acre-ft (0.8gpm)

**First Aid**

If In Eyes: Hold open eyes and rinse slowly with water for 15-20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for further treatment advice.

If Inhaled: Move person to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call poison control center or doctor for further treatment advice.

**In Case of Emergency Call**: 1-800-654-6911

**Active Ingredients**: Erioglaucine

**In Case of Emergency Call**: 1-800-654-6911

**Precautionary Statements**: Hazards to Humans and Domestic Animals: Keep out of reach of children. Use with care. 

**Contact Information**: Innovative Water Care, LLC or its affiliates.

**How to Use**

1. Calculate exact volume of your water body into Gallons (Liters) or Acre-Feet (Cubic Meters): Length x Width x Depth (feet) = Gallons | Length x Width x Depth (meters) = Acre-Feet

2. Pour from a boat. Aquashade® Plus will mix throughout the water body before settling. (Use during the growing season will maximize water milfoil, Hydrilla® and filamentous green (Spirogyra sp.) & blue-green algae growing at depths greater than 2 feet of the water's surface. Use during the growing season will maximize light aqua-blue tint following application.)

3. In freezing climates, Aquashade® Plus may be poured onto the ice at a dose rate of 0.01 fl. oz. per square foot of ice and allowed to self-disperse and settle the dye down to the water below. Be certain ice conditions are safe before making application.

**Storage and Disposal**

Do not contain water, food or feed by storage or disposal. 

**Physical Storage**: Store in original container in a cool, dry place. 

**Pesticide Disposal**: Unused results from the use of this product must be disposed of in the same way as any other pesticide.
Aquashade® Plus

**CAUTION**

*NET CONTENTS: 2.5 GALLONS (9.46 Liters)*

Contains 2.92 lbs. of erioglaucine and 0.235 lbs. of tartrazine per gallon

**TOTAL:** ........................................67.10%

**Tartrazine**...............................................................2.45%

**• 13 oz. per acre-ft (at 0.8ppm)**

**• Just pour it in around the shoreline**

**Aquatic Plant Growth Control**

**• 2.4x more concentrated than Aquashade®**

**• Concentrated Formula**

**IN CASE OF EMERGENCY CALL:**

1-800-654-6911

**ACTIVE INGREDIENTS:**

- Erioglaucine
- Tartrazine

**IN CASE OF EMERGENCY CALL:**

301 CP K

3. Apply in season maintenance dosages, as needed, to restore loss of color due to dilution or dye degradation.

**HOW MUCH TO USE:**

1. Calculate total volume of your water body into Gallons (Liters) or Acre-Feet (Cubic Meters):

   **Length**

   **Width**

   **Depth**

   **Volume**

   **Gallons**

   **Acre-Feet**

   **Cubic Meters**

2. Based upon water volume, determine dosage rate from the chart below:

3. Apply in season maintenance dosages, as needed, to maintain loss of color due to dilution or dye degradation.

**WARNINGS:**

1. Calculated total volume of your water body into Gallons (Liters) or Acre-Feet (Cubic Meters):

   **Length**

   **Width**

   **Depth**

   **Volume**

   **Gallons**

   **Acre-Feet**

   **Cubic Meters**

2. Based upon water volume, determine dosage rate from the chart below:

3. Apply in season maintenance dosages, as needed, to maintain loss of color due to dilution or dye degradation.

**HOW TO APPLY:**

1. Measure out required amount of Aquashade® Plus into a pourable container or apply directly from the product in a manner inconsistent with its labeling. Do not apply directly to streets, other natural bodies of water, or any body of water not under total control of the user. Do not apply to water that will be used for human consumption.

2. Apply in season maintenance dosages, as needed, to restore loss of color due to dilution or dye degradation.

3. Apply in season maintenance dosages, as needed, to maintain loss of color due to dilution or dye degradation.

**PESTICIDE STORAGE:**

1. Store in original container.

2. Store in a cool, dry place.

3. Keep from freezing.

4. Store in a safe place.

5. Store in an approved storage facility.

6. Store in a secure, out-of-the-way location.

**PERMITS:**

1. Apply only as directed on the label.

2. Apply only as directed on the label.

3. Apply only as directed on the label.

4. Apply only as directed on the label.

5. Apply only as directed on the label.

6. Apply only as directed on the label.

**CONTAINER DISPOSAL:**

1. Non-refillable container. Do not refill or transport.

2. Non-refillable container. Do not refill or transport.

3. Non-refillable container. Do not refill or transport.

4. Non-refillable container. Do not refill or transport.

5. Non-refillable container. Do not refill or transport.

6. Non-refillable container. Do not refill or transport.

**KEEP OUT OF REACH OF CHILDREN**

**CONSUMER INFORMATION:**

1. For use in natural and manmade contained lakes and ponds (environmental, recreational, fishing, boating) with little or no outflow of water, golf course ponds, and watering turf.

2. Use of Aquashade® Plus in lakes and ponds (environmental, recreational, fishing, boating) with little or no outflow of water, golf course ponds, and watering turf is prohibited.

3. Use of Aquashade® Plus in lakes and ponds (environmental, recreational, fishing, boating) with little or no outflow of water, golf course ponds, and watering turf is prohibited.

4. Use of Aquashade® Plus in lakes and ponds (environmental, recreational, fishing, boating) with little or no outflow of water, golf course ponds, and watering turf is prohibited.

5. Use of Aquashade® Plus in lakes and ponds (environmental, recreational, fishing, boating) with little or no outflow of water, golf course ponds, and watering turf is prohibited.

6. Use of Aquashade® Plus in lakes and ponds (environmental, recreational, fishing, boating) with little or no outflow of water, golf course ponds, and watering turf is prohibited.

**ENVIRONMENTAL HAZARDS:**

1. Shoreline non-target plants (e.g., cattails, watermilfoil) and other aquatic features. Concentrated product can stain fabric and other porous surfaces. Avoid direct contact with these materials.

2. Shoreline non-target plants (e.g., cattails, watermilfoil) and other aquatic features. Concentrated product can stain fabric and other porous surfaces. Avoid direct contact with these materials.

3. Shoreline non-target plants (e.g., cattails, watermilfoil) and other aquatic features. Concentrated product can stain fabric and other porous surfaces. Avoid direct contact with these materials.

4. Shoreline non-target plants (e.g., cattails, watermilfoil) and other aquatic features. Concentrated product can stain fabric and other porous surfaces. Avoid direct contact with these materials.

5. Shoreline non-target plants (e.g., cattails, watermilfoil) and other aquatic features. Concentrated product can stain fabric and other porous surfaces. Avoid direct contact with these materials.

6. Shoreline non-target plants (e.g., cattails, watermilfoil) and other aquatic features. Concentrated product can stain fabric and other porous surfaces. Avoid direct contact with these materials.
