MoleX

FOR THE EFFECTIVE CONTROL OF MOLES

✔ Ready-To-Use
✔ No Mixing or Spraying Required
✔ Environmentally-Safe
✔ No Offensive Odors
✔ Landscape-Safe

*WHEN USED AS DIRECTED

ACTIVE INGREDIENTS:
Garlic ........................................... 6.0 %
White pepper .................................... 5.0 %
Citric acid ..................................... 5.0 %

INERT INGREDIENTS:
Fish meal, Sodium bicarbonate, Calcium sulfate,
Malic acid, Ammonium benzoate .................. 84.0 %
Total ........................................... 100 %

PERFECT FOR BOTH
PROFESSIONAL AND DIY USE

MADE IN USA
MADE IN THE PLANET EARTH

KEEP OUT OF REACH OF CHILDREN
CAUTION
Net Weight: 8 oz. / 227 gm.
FOR THE EFFECTIVE CONTROL OF MOLES

MoleX

Directions for Use:
MoleX has been developed to cause acute environmental stress to moles and should only be placed in areas used habitually by moles for feeding.
MoleX may be used anywhere the presence of moles has been determined. Locations such as lawns, ornamental gardens, flower beds, and other non-crop grassy areas to control common mole species. MoleX must be placed in the underground tunnels. Do not use MoleX above ground.
Many tunnels are not visible from the surface. It is these deeper tunnels that are observed via series of conical mounds (piles of dirt) 4 to 12 inches high formed when dirt is pushed to the surface when moles construct these tunnels.

Application Directions:
Use a device, such as a shovel/broom handle, to create a hole in the top of subsurface mole tunnels, being careful not to crush the identified tunnels. Place one (1) ounce of MoleX pellets fully into the tunnel and cover the hole by using a small rock, or piece of turf. Be sure that the tunnel is sufficiently blocked. Repeat application every 6 to 8 feet of each active tunnel. Repeat after 14 days if mole activity is still present.

Storage and Disposal:
Store only in original container in a cool, dry place inaccessible to children and pets. Do not reuse empty containers. Offer for recycling if available or discard in trash.

Precautionary Statements:
Wash hands with soap and water after handling. Avoid contact with eyes, skin or clothing. If in eyes, flush with water for at least 15 minutes.

This product is exempt from registration with the Federal EPA under section 25(b) of the FIFRA, and as such, is not registered with the Environmental Protection Agency. ConSeal International Inc. represents that this product and its ingredients qualify for exemption from registration under FIFRA.
