Disinfectant-Cleaner-Sanitizer-Fungicide
Mildewstat-Virucide*-Deodorizer-Bactericide
Formulated for Remediation Environments

Germicidal Cleaner Concentrate is a disinfectant for use in homes, medical and dental offices, clinics, health care facilities, medical-related facilities, sickrooms, and other areas where death or serious injury may result from the spread of pathogens. It is effective against a broad spectrum of microorganisms, including bacteria, viruses, fungi, and spores.

**PREPARATION OF USE-SOLUTION:**

- It is recommended to use the product at the rate of 2 ounces per gallon of water, unless specified otherwise.
- Add 2 oz. of Germicidal Cleaner Concentrate per gallon of water to prepare the use solution.

**KILLS HIV ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS:**

Use 2-4 ounces of Germicidal Cleaner Concentrate in waste water to sanitize hard porous and non-porous environmental surfaces. Treated surfaces must remain wet for 60 seconds. Let air dry. Do not use on food contact surfaces.

**SANITIZING NON-FOOD CONTACT SURFACE DIRECTIONS:**

- Use 2-4 ounces of Germicidal Cleaner Concentrate in waste water to sanitize hard porous and non-porous environmental surfaces. Treated surfaces must remain wet for 60 seconds. Let air dry. Do not use on food contact surfaces.

**DEODORIZER DIRECTIONS:**

- Use Germicidal Cleaner Concentrate to disinfect hard (inanimate) non-porous surfaces of the following underwater diving equipment: regulators, valves, manifolds, gas injection, or allow to air dry. Replace solution daily or more often if solution becomes visibly dirty or discolored.
- It is recommended to use the product in waste water to sanitize hard porous and non-porous environmental surfaces. Treated surfaces must remain wet for 60 seconds. Let air dry. Do not use on food contact surfaces.

**PRODUCTS WITH WHICH TO USE:**

- Use Germicidal Cleaner Concentrate with the method for Sanitizers-Non Food Contact Surfaces, modified in the presence of 500 ppm hard water plus 5% organism. It is recommended to use the product at the rate of 2 ounces per gallon of water, unless specified otherwise.

**PEDAGOGY:**

- Germicidal Cleaner Concentrate is effective against a broad spectrum of microorganisms, including bacteria, viruses, fungi, and spores.
- It is recommended to use the product at the rate of 2 ounces per gallon of water, unless specified otherwise.

**ENVIRONMENTAL HAZARDS:**

- Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, etc. It is recommended to use the product at the rate of 2 ounces per gallon of water, unless specified otherwise.

**HOTEL DISINFECTION DIRECTIONS:**

- Use Germicidal Cleaner Concentrate to disinfect hard (inanimate) non-porous surfaces of the following underwater diving equipment: regulators, valves, manifolds, gas injection, or allow to air dry. Replace solution daily or more often if solution becomes visibly dirty or discolored.

**NOTE TO PHYSICIAN:**

- Germicidal Cleaner Concentrate is a mildewstat at 2 ounces per gallon and will effectively inhibit the growth of mold and mildew and the odors associated with them.

**Mildewstat-Virucide*-Deodorizer-Bactericide**

- Germicidal Cleaner Concentrate is a mildewstat at 2 ounces per gallon and will effectively inhibit the growth of mold and mildew and the odors associated with them.

**FIRST AID:**

- In case of ingestion, vomit, smoke, and mildew. Reapply after cleaning for additional freshening effects. Allow to dry.

**Storage and Disposal:**

- Store the product at 2°C (36°F) to 30°C (86°F). Protect from freezing. Do not refrigerate. Do not freeze. Keep the product out of reach of children. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, etc. If swallowed, induce vomiting only under medical supervision. Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. If not able to swallow, do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth if vomiting occurs.

**ENVIRONMENTAL HAZARDS:**

- Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, etc. If swallowed, induce vomiting only under medical supervision. Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. If not able to swallow, do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth if vomiting occurs.

**Hazardous Waste:**

- Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, etc. If swallowed, induce vomiting only under medical supervision. Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. If not able to swallow, do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth if vomiting occurs.

**Disposal of Infectious Materials:**

- Use Germicidal Cleaner Concentrate to disinfect hard (inanimate) non-porous surfaces of the following underwater diving equipment: regulators, valves, manifolds, gas injection, or allow to air dry. Replace solution daily or more often if solution becomes visibly dirty or discolored.

**WARNING:**

- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
