**SALMONELLACIDAL**

- **NEDRINE (dihexylamine)..................................................................................1.60%**
- **Para-tertiary-Amylphenol .................................................................................4.00%**

**TUBERCULOCIDAL**

- **PAA..............................................................................................................24.00%**
- **Gentamicin.....................................................................................................1.00%**
- **Sodium Clofibrate..........................................................................................1.00%**

**VIRUCIDAL**

- **Tosyl-guanidine..............................................................................................5.00%**
- **PAA..............................................................................................................18.00%**
- **Gentamicin.....................................................................................................1.00%**

**STERILICIDAL**

- **PAA..............................................................................................................24.00%**
- **Gentamicin.....................................................................................................1.00%**
- **Sodium Clofibrate..........................................................................................1.00%**

**SYNTHETIC PHENOLIC DISINFECTANT**

- **NEDRINE (dihexylamine)..................................................................................1.60%**
- **Para-tertiary-Amylphenol .................................................................................4.00%**

**ANTI-MICROBIALS**

- **NEDRINE ......................................................................................................15.00%**
- **PAA..............................................................................................................27.50%**
- **Gentamicin.....................................................................................................1.00%**

**FIRST AID**

**For Eyes:**

- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, and continue rinsing.

**For Ingestion:**

- Do not induce vomiting unless instructed to do so by a physician or poison control center.

**For Skin:**

- Use large amounts of water and soap; lather thoroughly and wash off. If skin irritation or rash occurs, wash area with mild soap and water and seek medical advice.

**For Inhalation:**

- Remove person to fresh air if exposure is not severe. If breathing is difficult, give oxygen.

**Medical Information:**

- Call a poison control center or doctor for treatment advice.

**Personal Protective Equipment (PPE):**

- **Rubber and Viton Gloves:**
  - Chemical-resistant gloves (such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber and other hand- and arm-protective equipment

**DIRECTIONS FOR USE:**

- **For surfaces:**
  - Spray surface and allow to remain in contact for 10 minutes. Do not use on painted wood, paper, fabric, or textiles.

- **For hatching egg sanitizers:**
  - Use 1/2 oz. (14.7cc) of this product per gallon of water. Allow to remain in contact for 10 minutes and then rinse with water.

**GENERAL USES:**

- **For disinfection of personnel:**
  - Use 1/2 oz. (14.7cc) of this product per gallon of water and allow to remain in contact for 10 minutes.

- **For disinfection of animal enclosures:**
  - Use 1/2 oz. (14.7cc) of this product per gallon of water and allow to remain in contact for 10 minutes.

- **For disinfection of animal conveyance surfaces:**
  - Use 1/2 oz. (14.7cc) of this product per gallon of water and allow to remain in contact for 10 minutes.

- **For disinfection of feed and water lines:**
  - Use 1/2 oz. (14.7cc) of this product per gallon of water and allow to remain in contact for 10 minutes.

**STORAGE AND DISPOSAL**

- Store only in original container away from heat or open flame. Keep out of reach of children.

**COMPATIBILITY:**

- Do not mix with any other disinfectant or cleaning agent.

**PACKAGING:**

- **Nonrefillable container. Do not reuse or refill this container. Securely seal container after use and discard in trash.**

**APPLICATIONS:**

- **DISINFECTANT CLEANER CONCENTRATE**
  - **SALMONELLACIDAL**
  - **TUBERCULOCIDAL**
  - **VIRUCIDAL**

**USER SAFETY RECOMMENDATIONS**

- **Always wash hands before eating, drinking, or using the toilet.**

- **Wear personal protective equipment immediately after handling the product.**

- **Wash outside of gloves before removing. As soon as possible, wash thoroughly.**

**DISCLAIMER:**

- **This product is for professional use only. Use by consumers is not recommended.**

**PRECAUTIONARY STATEMENTS**

**DANGER:**

- **CORROSIVE:** Causes severe injury to skin and eyes. Harmful if swallowed, inhaled, or absorbed through the skin. Keep out of the reach of children. In case of emergency call toll free: 1-888-241-9545.

- **Inhalation:**
  - Remove from exposure area and immediately call a doctor.

- **Ingestion:**
  - Do not induce vomiting unless instructed to do so by a physician or poison control center.

- **Skin:**
  - Wash thoroughly with large amounts of soap and water. If skin irritation or rash occurs, wash area with mild soap and water and seek medical advice.
