TOTAL: 100.000%

KEEP OUT OF REACH OF CHILDREN

CAUTION
See back panels for First Aid and additional precautionary statements.

EPA REG. NO. 12455-81-3240
EPA EST. NOs. 12455-WI-1k, 12455-WI-2p, 12455-WI-3w
Superscript is first letter of the lot number.

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesia rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat
**APPLICATION DIRECTIONS (Continued from other panel)**

**MICE AND MEADOW VOLES**: Apply 1/4 to 1/2 oz. (1 to 2 level tablespoons) of bait at 8 to 12 foot intervals in infested areas. Larger placements (up to 2 oz.) may be needed at points of very high activity. Maintain an uninterrupted supply of fresh bait for at least 5 days or until signs of mouse or meadow vole activity cease.

**FOLLOW-UP**: Replace contaminated or spoiled bait immediately. Using waterproof gloves, collect and dispose of all dead, exposed animals and leftover bait. To prevent retaliation, limit sources of rodent food, water, and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

**PRECAUTIONARY STATEMENTS**

**Hazards to Humans and Domestic Animals**

**CAUTION**: Harmful if swallowed. Keep away from children, domestic animals and pets.

All handlers (including applicators) must wear: shoes plus socks, and gloves. Any person who retrieves carcases or unused bait following application of this product must wear waterproof gloves.

**User Safety Requirements**

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

**FIRST AID**

**HAVE LABEL WITH YOU WHEN OBTAINING TREATMENT ADVICE**

If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K1 intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.

**TREATMENT FOR PET POISONING**

If animal eats bait, call veterinarian or 1-877-854-2494 at once.

**NOTE TO VETERINARIAN**

**NOTE TO PHYSICIAN**

**Acute Anticoagulant**: For animals ingesting bait and showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K1.

**Environmental Hazards**

This product is extremely toxic to mammals and birds and other wildlife. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash water or rinse.

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse. Golden mouse, Polyneum rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat.*
