This product may only be used inside and within 100 feet of agricultural buildings and man-made agricultural structures.

*Kills Rats, Mice & Meadow Voles*

**Net Weight:**
8 lbs (3.6kg)  
86 x 1.5 oz (43 g) Place Pacs

**ACTIVE INGREDIENT:**
Bromadiolone (CAS #28772-56-7): 0.005%

**OTHER INGREDIENTS†:** 99.995%

†Contains Denatonium Benzoate  TOTAL 100.000%

**KEEP OUT OF REACH OF CHILDREN CAUTION**
See back panel for First Aid and additional precautionary statements, and Directions For Use

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat*
FIRST AID

HAVE LABEL WITH YOU WHEN OBTAINING TREATMENT ADVICE

IF SWALLOWED:
• Call a poison control center, doctor, or 1-877-854-2494, or 1-800-858-1378** immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induced vomiting unless told to do so by the poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING:
• Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

** Also call this number for information on health concerns and pesticide incidents.

NOTE TO PHYSICIAN

If swallowed or absorbed through the skin, this material may reduce the clothing ability of the blood and cause bleeding. If ingested, administer Vitamin K$_1$ intramuscularly or orally. Repeat as necessary on monitoring of prothrombin times.

TREATMENT FOR POISONING

If animal eats bait, call veterinarian at once.

NOTE TO VETERINARY

Anticoagulant Bromadiolone: For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K$_1$. If needed, check prothrombin times every 3 days until values return to normal (up to 30 days). In severe cases, blood transfusions may be needed.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. READ THIS LABEL: Read this entire label and follow all use directions and use precautions. Use only for the sites, pests, and application methods described on this label. IMPORTANT: Do not expose children, pets, or nontarget animals to rodenticides. To help prevent accidents:

1. Store unused product out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from bait stations when they are lifted, units must be secured or otherwise immobilized. Stronger bait stations are needed in areas open to hoofed livestock, raccoons, bear, or other potentially destructive animals, or in areas prone to vandalism.

3. Dispose of product container and unused, spoiled, or unopened bait as specified on this label.

Bait stations are mandatory for outdoor, above ground use. Tamper-resistant bait stations must be used wherever children, pets, nontarget mammals, or birds may have access to the bait placement location.

USE RESTRICTIONS: This product may only be used to control the following rodents pests in and around agricultural buildings and man-made agricultural structures: House mouse (Mus musculus), Norway rat (Rattus norvegicus), Roof rat (Rattus rattus), Cotton rat (Sigmodontis hispidula), Eastern harvest mouse (Reithrodontomys humulis), Golden mouse (Oedothomys nuttalli), Polyneumus rat (Ratitus exulans), Meadow vole (Microtus pennsylvanicus), White-footed woodrat* (Neotoma albigula), Southern plains woodrat* (Neotoma micropus), and Mexican woodrat* (Neotoma mexicana).

This product may only be used to control the following rodent pests in and around agricultural buildings and man-made agricultural structures: House mouse (Mus musculus), Norway rat (Rattus norvegicus), Roof rat (Rattus rattus), Cotton rat (Sigmodontis hispidula), Eastern harvest mouse (Reithrodontomys humulis), Golden mouse (Oedothomys nuttalli), Polyneumus rat (Ratitus exulans), Meadow vole (Microtus pennsylvanicus), White-footed woodrat* (Neotoma albigula), Southern plains woodrat* (Neotoma micropus), and Mexican woodrat* (Neotoma mexicana).

Norway rats, roof rats, and house mice may consume a lethal dose in one night’s feeding with first dead rodents appearing four or five days after feeding begins.

ACTIVE INGREDIENT: Bromadiolone (CAS #28772-56-7): 0.005% OTHER INGREDIENTS: . . . . . . . . . . . . . . . . . . . . . . . . . . 99.995%

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Disposal: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

Pesticide Disposal: Wastes resulting from the use of this product may be placed in trash or delivered to an approved waste disposal facility.

Pesticide Storage: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Dispose of empty container by placing in trash, at an approved waste disposal facility or by incineration. Call your Local Waste Agency for any questions on proper disposal.

APPLICATION DIRECTIONS:

RATS: Apply 2 to 10 Place Pacs at intervals of 15 to 30 feet per placement. Maintain an uninterrupted supply of fresh bait for at least 10 days or until signs of rat activity cease to appear.

MICE AND MEADOW VOLES*: Place 1 Place Pac at 8 to 12 foot intervals in infested areas. Maintain an uninterrupted supply of fresh bait for at least 15 days or until signs of mouse or meadow vole* activity cease to appear.

FOLLOW-UP: Replace contaminated or spoiled bait immediately. Wearing gloves, collect and dispose of all dead animals and leftover bait properly. To prevent reinfection, limit sources of rodent food, water, and harborage as much as possible. If reinfection does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Do not get in eyes or on clothing. Keep away from children, domestic animals and pets. All handles (including application) must wear long pants, shoes plus socks, and waterproof gloves. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

User Safety Requirements

Follow manufacturer’s instruction for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to fish, birds, and other wildlife. Dogs, cats and predatory and scavenging mammals and birds might ingest if they feed upon animals that have eaten the bait. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark.
TREATMENT FOR PET POISONING
If animal eats bait, call veterinarian at once.

NOTE TO VETERINARIAN
Anticoagulant Bromadiolone: For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K1. If needed, check prothrombin times every 3 days until values return to normal (up to 30 days). In severe cases, blood transfusions may be needed.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. See outer package label for complete DIRECTIONS FOR USE, including USE RESTRICTIONS, and APPLICATION DIRECTIONS. It is illegal to sell this product unless it is accompanied by a complete set of its accepted labeling.

SEE LABEL ON OUTER PACKAGING FOR ADDITIONAL PRECAUTIONARY INFORMATION

INDIVIDUAL SALE IS PROHIBITED BY LAW
