chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

Environmental Hazards

- Overapplication, especially at 90°F or higher, may cause damage.
- To avoid risk of lawn injury, do not spray drought-stressed lawns.

1. To store, turn sprayer nozzle off.
2. Turn hose plug switch clockwise to "CLOSED."
3. DO NOT disconnect hose.
4. Return sprayer to its slot. Hose can be pushed back into sprayer handle.

Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
