Germicide • Fungicide • Virucide*

Active Ingredients:
- o-benzyl-p-chlorophenol

Inert Ingredients:
-...

PRECAUTIONARY STATEMENTS

DANGER: Keep out of reach of children. See side panel for additional precautionary statements.

STORAGE AND DISPOSAL

Keep out of reach of children.

DIRECTIONS FOR USE

To make solution, add one fluid ounce (30 cc) per each pre-measured 64 ounces of water for effectiveness against Feline calicivirus, and gently mix until solution is uniform.

KEEP OUT OF REACH OF CHILDREN

INTENDED FOR INDUSTRIAL AND INSTITUTIONAL USE

See side panel for additional precautionary statements and directions for use.

STORAGE AND DISPOSAL

Do not understand, misapply, reuse, or store for any purpose other than as a germicide, fungicide, and virucide.

STORAGE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or equipment is a violation of Federal Law. Do not store near food, feed, drinking water, or seed. Pesticide wastes must not be incinerated. Dispose of unused portions of the product in accordance with local, state, and federal regulations. Do not apply or dispose of this material anywhere in the United States, its territories, or possessions. Before disposal, contact your local health or environmental department. In the event of a spill, call the Poison Control Center or doctor immediately for treatment advice.

FIRST AID

If Inhaled: Move person to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. If breathing stops, give mouth-to-mouth breathing or artificial respiration. Call a Poison Control Center or doctor immediately for treatment advice.

If on Skin: Take off contaminated clothing. Rinse skin thoroughly with soap and water after handling and before eating, drinking, or using the toilet. Call a Poison Control Center or doctor immediately for treatment advice.

If in Eyes: Remove contact lenses, if present, after 5 minutes, then continue rinsing the eye. Call a Poison Control Center or doctor immediately for treatment advice.

If swallowed: Do not induce vomiting. If able, have person sip a glass of water if able. If person is unconscious, do not give anything by mouth. Call a Poison Control Center or doctor immediately for treatment advice.

If you believe you have been exposed to this product, have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

NOTE TO PHYSICIAN

If someone has been poisoned:

- Do not give anything by mouth to an unconscious person unless the physician directs.
- Be sure to tell the physician or nurse exactly what product caused the poisoning, how much was taken, how long ago, and how it was taken (inhalation, swallowing, etc.).

VIRUS OR AIDS VIRUS) OF SURFACES / OBJECTS SOILED WITH BLOOD/BODY FLUIDS:

Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of the product. Thoroughly clean all surfaces with soap or detergent and rinse with potable water before reuse.

BLENDING AND DISINFECTING WASHABLE, HARD, NON-POROUS SURFACES:

To make solution, add one fluid ounce (30 cc) per each pre-measured one gallon of water or add one fluid ounce (30 cc) per each pre-measured 64 ounces of water for effectiveness against Feline calicivirus, and gently mix until solution is uniform.

CLEANING AND DISINFECTING WASHABLE, HARD, NON-POROUS SURFACES:

To make solution, add one fluid ounce (30 cc) per each pre-measured one gallon of water or add one fluid ounce (30 cc) per each pre-measured 64 ounces of water for effectiveness against Feline calicivirus, and gently mix until solution is uniform.

DIRECTIONS FOR USE

This product is effective as an intermediate level detergent/disinfectant on surfaces and/or devices that are contaminated with normal and intermediate levels of dirt. This product is effective against normal and intermediate levels of E. coli (ATCC 25922), S. aureus (ATCC 9533), and P. aeruginosa (ATCC 27853) when diluted with 400 ppm A.O.A.C. hard water to make a 1:16 (one ounce per 16 ounces) solution in the presence of 5% organic soil (serum), 5% soil, and waterers with soap or detergent, and rinse with potable water before reuse.

GERMINICIDAL:

This product was tested using the A.O.A.C. Tuberculocidal Test against Mycobacterium avium subsp.afb strain E. coli (ATCC 25922) when diluted with 400 ppm A.O.A.C. hard water to make a 1:16 (one ounce per 16 ounces) solution in the presence of 5% organic soil (serum), 5% soil, and waterers with soap or detergent, and rinse with potable water before reuse.

FUNGICIDAL:

This product was tested using the A.O.A.C. Antimycobacterial Test against M. tuberculosis H37Ra incubated for 15 days with 1.0% oxalic acid. This product was tested using the A.O.A.C. Yeast/Fungi (ATCC 9641) and A.O.A.C. Fusarium (ATCC 52687) tests. This product met the A.O.A.C. Yeast/Fungi (ATCC 9641) test, but did not meet the A.O.A.C. Fusarium (ATCC 52687) test.

BACTERICIDAL:

This product was tested using the A.O.A.C. Fungicidal Test against C. albicans (ATCC 10231) when diluted with 400 ppm A.O.A.C. hard water to make a 1:16 (one ounce per 16 ounces) solution in the presence of 5% organic soil (serum), 5% soil, and waterers with soap or detergent, and rinse with potable water before reuse.
