Germs can be present in many places, especially in hospitals and other healthcare settings. It is important to follow proper disinfection procedures to prevent the spread of germs. Steris Viprope Blau Banner, a disinfectant, is effective in killing various types of germs, including bacteria, viruses, and fungi. The product is recommended for use in healthcare settings and can be used on hard, non-porous surfaces.

**Disinfecting and Disinfecting**

- **Cleaning and Disinfecting Washable, Hard Non-Porous Surfaces:** To achieve a galvanic disinfecting action, remove any gross filth, then use the 1:128 use-solution (one ounce per one gallon) solution. This is a complete product and should not be diluted or water added. Apply solution with a cloth, sponge, mop, or brush or by coarse spray using normal cleaning methods. Spray, never brush or wipe. During preparation of solution, never pour neat or concentrate solutions directly onto a surface. Before cleaning begins, always sweep or dust mop area to be cleaned thoroughly, removing any gross filth. This is a complete product. Do not add or dilute with other chemicals. If frozen, thaw and re-mix before use. Use only as directed.

- **Cleaning and Disinfecting:**
  - **Bactericidal:** When tested against Acinetobacter baumannii (ATCC 19606), Staphylococcus aureus (ATCC 25923), and Streptococcus pyogenes (ATCC 12326), it passes the A.O.A.C. Bactericidal Test when diluted with 400 ppm A.O.A.C. hard water to make a 1:128 (one ounce per one gallon) solution in the presence of 1% organic soil (serum), 10 minutes at 20°C.
  - **Fungicidal:** When tested against Trichophyton interdigitale (ATCC 13047), Microsporum canis (ATCC 42665), and Microsporum gypseum (ATCC 18625), it passes the A.O.A.C. Fungicidal Test when diluted with 400 ppm A.O.A.C. hard water to make a 1:128 (one ounce per one gallon) solution in the presence of 0.5% organic soil (serum), 10 minutes at 20°C.
  - **Virucidal:** When tested against Adenovirus Type 2, Strain: Adenoid 6 (ATCC VR-846) and Avian Influenza Virus (H9N2), Turkey/Wis/66 (ATCC M-346), it passes the Virucidal Test when diluted with 400 ppm A.O.A.C. hard water to make a 1:128 (one ounce per one gallon) solution in the presence of 0.5% organic soil (serum), 10 minutes at 20°C.

- **Special Uses for Cleaning and Disinfecting:**
  - **Surgical Instruments and Apparatus:** It may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not pass the A.O.A.C. or high level disinfection.
  - **Infectious Materials Disposal:** On site pathogens can be isolated and virucidal when disinfectant is used. More complete virucidal test procedures are given in the following sections. In addition, test for the presence of A.O.A.C. hard water before application of a 1:128 use-solution (one ounce per one gallon). Prepare and apply solution as demonstrated in paragraph below.

- **Infectious Materials Disposal:**
  - **Blood and other body fluids must be thoroughly cleaned and covered.** Follow A.O.A.C. procedures for disposal of waste that may contain infectious material. Follow instructions for cleaning and disinfecting infectious materials. Do not use equipment or materials contaminated with infectious material unless protected by appropriate PPE. Conform to local and state regulations for infectious disposal.

**Personal Protection:**

- **Wear appropriate barrier protection such as latex gloves, gowns, masks and eye coverings.**
- **Allow treated surfaces to remain wet for 10 minutes.**

**STORAGE AND DISPOSAL**

- **Do not store near water; water hazard.**
- **Do not store near other chemicals.**
- **Do not use in or near cellars.**
- **Do not use near electrical equipment.**
- **Do not use near or near other pesticides.**
- **Do not use near highly flammable liquids.**
- **Do not use near or near other pesticides.**
- **Do not use near or near other pesticides.**
- **Do not use near or near other pesticides.**
- **Do not use near or near other pesticides.**
- **Do not use near or near other pesticides.**

**Contact the Sterling Corporation or your local distributor for guidance.**
