**PRECAUTIONARY STATEMENTS**

**ACUTE TOXICITY:**

**Do not store near heat or open flame. If frozen, thaw and re-mix before use.**

**TUBERCULOCIDAL:** When tested against Mycobacterium tuberculosis (ATCC 25922), it passes the A.O.A.C. Tuberculocidal Test when diluted with 400 ppm A.O.A.C. hard water to make a 1:128 (one ounce per one gallon) solution, in the presence of 5% organic soil (serum), 10 minutes at 20°C.

**BACTERICIDAL:** When tested against Staphylococcus epidermidis (ATCC 19111), Staphylococcus aureus (ATCC 25923), Micrococcus yunnanensis (ATCC 15302), Serratia marcescens (ATCC 19606), Pseudomonas aeruginosa (ATCC 27853), Enterobacter cloacae (ATCC 13047), Proteus mirabilis (ATCC 27157), Micrococcus luteus (ATCC 10241), Bacillus subtilis (ATCC 6633), Pseudomonas putida (ATCC 70168), and Micrococcus luteus (ATCC 9264), it passes the A.O.A.C. Bactericidal Test when diluted with 400 ppm A.O.A.C. hard water to make a 1:128 (one ounce per one gallon) solution, in the presence of 5% organic soil (serum), 10 minutes at 20°C.

**THERMOBACTERICIDAL:** When tested against Staphylococcus aureus (ATCC 27297), Staphylococcus epidermidis (ATCC 19111) and Micrococcus luteus (ATCC 9264), it passes the A.O.A.C. Thermostable Bactericidal Test when diluted with 400 ppm A.O.A.C. hard water to make a 1:128 (one ounce per one gallon) solution, in the presence of 5% organic soil (serum), 10 minutes at 20°C.

**VIRUCIDAL:** When tested against adenovirus type 2, strain: adenoid 6 (ATCC VR-846) and Avian influenza virus (H5N2), Typhlococcal P3 (ATCC 12228), Tissue Culture Type 2; Alkaline 6 (ATCC VR-815), and Staphylococcus aureus (ATCC 25923), it passes the A.O.A.C. Virucidal Test when diluted with 400 ppm A.O.A.C. hard water to make a 1:128 (one ounce per one gallon) solution in the presence of 5% organic soil (serum), 10 minutes at 20°C.

**OXO-DEGRADABLE:** When tested against Plasmodium berghei (ATCC 10243), Enterococcus faecalis (ATCC 12371), Enterobacter cloacae (ATCC 13047), Proteus mirabilis (ATCC 27157), Staphylococcus aureus (ATCC 25923), Staphylococcus epidermidis (ATCC 19111), Micrococcus luteus (ATCC 9264) and Chromobacterium violaceum (ATCC 12472), it passes the A.O.A.C. Oxo-degradable Test when diluted with 400 ppm A.O.A.C. hard water to make a 1:128 (one ounce per one gallon) solution in the presence of 5% organic soil (serum), 10 minutes at 20°C.

**GENERAL:** This product eliminates many odors by killing odor-causing bacteria while cleaning and disinfecting. It kills many types of fungi and yeast.

**OBSO LUTION:** This product eliminates many odors by killing odor-causing bacteria while cleaning and disinfecting. It kills many types of fungi and yeast.

**STERILE UNLESS PACKAGE IS COMPROMISED**

**USES:**

This product is intended for use in veterinary clinics and other indoor areas where disinfection, cleaning and deodorizing are a necessity.

**INDICATIONS:** This product is intended for use in institutions, hospitals, nursing homes, and areas under the control of health authorities. It is intended for use in veterinary clinics and other indoor areas where disinfection, cleaning and deodorizing are a necessity. It may be used for cleaning and disinfecting chrome, stainless steel, other metal surfaces, glass, porcelain, glass, tile, washable painted or varnished surfaces, as well as resilient vinyl, asphalt, linoleum, floor terrazzo or other combination type floors. This germicidal detergent is intended for use in institutions with hospitals and nursing homes, industrial plants, medical, dental, veterinary, pharmaceutical laboratories, retail stores, and other indoor areas where disinfection, cleaning and deodorizing is a necessity.

**Dosage and Administration:**

**CLEANING AND DISINFECTING WASHABLE, HARD, NON-POROUS SURFACES:**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For treatment of surfaces accessible to the patient with the following:

- To disinfect and clean environmental surfaces in all bloodborne pathogen exposure situations and for treatment of all infected surfaces as directed in paragraph above.

- To clean and disinfect all environmental surfaces in settings in which there is an expected likelihood of soiling of inanimate objects and surfaces by blood and other body fluids.

- To clean and disinfect environmental surfaces in the presence of fresh or residual body fluids or organic soil.

**INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (HUMAN IMMUNODEFICIENCY VIRUS)**

Always use a new product as directed. Do not contaminate water, food, or feed by storage or disposal.

**GENERAL:**

**STORAGE AND DISPOSAL**

Do not store near heat or open flame. If frozen, thaw and re-mix before use. Use only as directed.

**CONTAINER DISPOSAL:**

Do not reuse or refill this container. Offer for recycling, if available or dispose of in solid waste. In case of suspected or documented exposure to this product, consult a physician or other health care professional immediately. Do not store on or near food or food preparation equipment. Do not store near heat or open flame.

**Infectious Materials Disposal:**

Consult Federal, State, or Local disposal authorities for approved alternative procedures such as limited spot burning.

**PRODUCT USE AND SAFETY:**

This product contains cationic surfactants. Use of this product may result in coughing or choking. Do not use in children, or persons with asthma or other respiratory problems. Avoid inhaling mist or vapor. Keep out of reach of children. Do not use or inhale mist or spray. Do not use this product in a manner inconsistent with its labeling. This product is for use in veterinary clinics and other indoor areas where disinfection, cleaning and deodorizing are a necessity.

**Personal Protection:**

Wear appropriate barrier protection such as latex gloves, gowns, masks and eye coverings.
