SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV (1) HUMAN IMMUNODEFICIENCY VIRUS (HIV) OR AIDS VIRUS (HIV) ON HARD, NON-POROUS SURFACES/OBJECTS

ODOR CONTROL: This product eliminates many odors by killing odor-causing bacteria while simultaneously chemically neutralizing their odors and leaving a pleasant fragrance. Follow “CLEANING AND DISINFECTING HARD, NON-POROUS SURFACES” directions.

“KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS: This ready-to-use product is intended for use on washable hard, non-porous environmental surfaces/objects in public and health-care environments and in veterinary clinical and research facilities, where it is used in the following ways.

WARNING: UNIVERSITY, ANIMAL RESEARCH, AND POULTRY FACILITY CLEANING AND DISINFECTING: Remove all animals and feed from the premises, vehicles, and enclosures. Remove all food and housing materials. Thoroughly remove filth mechanically and by sweeping or other appropriate cleaning techniques. Apply this ready-to-use product with a cloth, sponge, mop, brush, or coarse spray using normal cleaning methods. Saturate surfaces with product. The surface must remain wet for 10 minutes. Immerse all halters, ropes, and other types of equipment used in handling and restraining animals as well as forks, shovels, and scrapers used for removing manure or carcasses. Empty all troughs, racks, and other feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse water. Apply this ready-to-use product with a cloth, sponge, mop, brush, or coarse spray using normal cleaning methods. Saturate surfaces with product.
