PRECAUTIONARY STATEMENTS

DANGER: Corrosive. Causes burns. May be fatal if inhaled. Do not allow to become wet or damp. Fast dissolving can produce heat and toxic gases and spatter. Do not add water. In case of exposure to small amounts of water, it can react violently to produce heat and toxic gases. Does not contribute to the buildup of scale. This product contains an innovative patented technology that provides long-lasting slow dissolving chlorination. This product is an alternative to TCCA tablets and does not contain cyanuric acid. For use in a skimmer, this product will destroy bacteria and organic contaminants without overstabilizing your pool. For best results, see WATER BALANCE section for instructions.

EMERGENCY HANDLING:

Do not give anything by mouth to an unconscious person. Remove clothing. Rinse skin slowly and gently with water for 15-20 minutes. If on skin or clothing: Remove and wash contaminated clothing before use. If inhaled: Move person to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If not conscious, call a poison control center or doctor for treatment advice. Do not give anything by mouth to an unconscious person. If contacted with eyes: Rinse immediately with plenty of water for 15-20 minutes. If exposed to eyes: Do not rub. Rinse slowly and gently with water for 15-20 minutes. If on skin: Rinse slowly and gently with water for 15-20 minutes. If swallowed: Call a poison control center or doctor for treatment advice. If on skin: Rinse slowly and gently with water for 15-20 minutes. If swallowed: Call a poison control center or doctor for further treatment advice.

IN CASE OF EMERGENCY CALL:

Flood with large amounts of water. Do not reseal container. Immediately remove container to an open and well-ventilated area by itself. Do not allow this product to contact food or feed by storage or use. Do not allow to become wet or damp. Has no objectionable odor. Mixture of cyanuric acid (CYA) and chlorines. Pesticide is toxic to fish and aquatic organisms. Can increase fire intensity. Does not contain Cyanuric Acid (CYA). Does not contribute to the buildup of scale. This product contains an innovative patented technology that provides long-lasting slow dissolving chlorination. This product is an alternative to TCCA tablets and does not contain cyanuric acid. For use in a skimmer, this product will destroy bacteria and organic contaminants without overstabilizing your pool. For best results, see WATER BALANCE section for instructions.

REPLENISHMENT:

For best results, see WATER BALANCE section for instructions.

ACTIVE INGREDIENT:

Cyanuric Acid (CYA) Stabilizer that makes chlorine more effective and extends its life. Cyanuric Acid (CYA) is a strong oxidizing agent. This product is a slow-dissolving, fast-acting chlorine supplement designed for use in skimmer baskets. This product contains an innovative patented technology that provides long-lasting slow dissolving chlorination. This product is an alternative to TCCA tablets and does not contain cyanuric acid. For use in a skimmer, this product will destroy bacteria and organic contaminants without overstabilizing your pool. For best results, see WATER BALANCE section for instructions.

OTHER INGREDIENTS:

Includes activated carbon, slaked lime, and slow-release formulations. Cyanuric Acid (CYA) and chlorine. Cyanuric Acid (CYA) is a strong oxidizing agent. This product is a slow-dissolving, fast-acting chlorine supplement designed for use in skimmer baskets. This product contains an innovative patented technology that provides long-lasting slow dissolving chlorination. This product is an alternative to TCCA tablets and does not contain cyanuric acid. For use in a skimmer, this product will destroy bacteria and organic contaminants without overstabilizing your pool. For best results, see WATER BALANCE section for instructions.

STORAGE & DISPENSING:

Store in a cool, dry, well-ventilated area. Keep out of reach of children. Avoid contact with eyes. Do not add water. In case of exposure to small amounts of water, it can react violently to produce heat and toxic gases. Does not contribute to the buildup of scale. This product contains an innovative patented technology that provides long-lasting slow dissolving chlorination. This product is an alternative to TCCA tablets and does not contain cyanuric acid. For use in a skimmer, this product will destroy bacteria and organic contaminants without overstabilizing your pool. For best results, see WATER BALANCE section for instructions.

WATER BALANCE:

Maintain a free available chlorine residual of 2 to 5 ppm. For best results, see WATER BALANCE section for instructions.

DIRECTIONS FOR USE:

This product contains an innovative patented technology that provides long-lasting slow dissolving chlorination. This product is an alternative to TCCA tablets and does not contain cyanuric acid. For use in a skimmer, this product will destroy bacteria and organic contaminants without overstabilizing your pool. For best results, see WATER BALANCE section for instructions.

HOW TO USE:

Net Wt: 5.5 lbs

MADE IN USA
