**FOOD AREAS OF FOOD-TEED HANDLING ESTABLISH**

This brochure has been produced as a result of Federal Law to rule out the use of toxic substances in the environment. It is the responsibility of the food handling establishment to ensure that all food is handled in a safe and sanitary manner. This includes proper hygiene practices, the use of approved sanitizers, and the maintenance of clean and well-lit facilities. The establishment must also ensure that all food handlers are properly trained and that all food storage and handling areas are kept clean and free of pests.

**PRODUCT INFORMATION**

This product is a ready-to-use aqueous concentrate that provides effective pest control against crawling pests. It is a liquid-to-white solution that can be applied to surfaces, cracks, or crevices. It is effective against a wide range of pests, including roaches, ants, and bed bugs. The product is safe for use around food and can be used in both indoor and outdoor applications.

**DIRECT FOR USE**

It is a solution of Federal Law to use this product in a manner consistent with its label instructions.

**INSTRUCTIONS FOR USE**

1. Apply a thin stream using 10% of the desired volume of water.
2. Add 1.5 to 5.0% (by volume of water) of the concentrate to the water for a total of 1 to 0.001% volume.
3. Use a spray nozzle to apply to all accessible areas.
4. Store the product in a cool, dry place.
5. Use the product within 12 months of opening.

**KEEP OUT OF REACH OF CHILDREN**

CAUTION: Exposure to this product can cause eye, respiratory or skin irritation. It is classified as a respiratory hazard. If swallowed, seek medical advice immediately. This product is flammable and should be stored in a cool, dry place.
